1 lb. $1.50.
1 lb. $5.50.

MOORE SEED CO. 125 MARKET ST. PHILADELPHIA, P.
To the Professional and Beginner:

**HOW TO MAKE MARKET GARDENING PAY**

The Professional, Market Gardener, and the one about to begin Market Gardening are alike anxious to make market gardening pay. **TO MAKE MARKET GARDENING PAY** and how to do it, is just as important to the professional as to the beginner. To both we say, the prime essential is to **procure the best seeds that money can buy.** Buy the best varieties. Select the earliest, the most productive, the best carried and the best selled. Don't hesitate a moment to plant the best—the price is of little consequence providing you get just what you are seeking for, and secure the highest prices; the market will invariably pay well for the best produce that is brought to it. Poor seeds will never produce good crops, nor vegetables of first quality. In vegetables as in fruits it is high quality that counts; high quality always insures highest market prices. Best quality and highest market prices are the aim of every market gardener who grows for the home or distant market.

Many thousands of market gardeners throughout the United States have found by actual experience that the best seeds obtainable are only to be had from The Moore Seed Company, 125 Market Street, Philadelphia, Pa., who have made it a life long study and work to produce the best varieties and strains of seeds calculated to insure the most profitable and abundant crops and that will command the highest prices on any market, no matter where sold.

**WE ARE CAREFUL** to only recommend the best varieties.

**WE ARE CAREFUL** to use the utmost care and caution in selecting our seed stocks as well as in growing our seed crops.

**WE ARE CAREFUL** to use the greatest care in preventing ingrowing and handling the seeds while harvesting.

**WE ARE CAREFUL** not to send out any variety we have not tested in the most exhaustive manner in many localities, as to its suitability for earliness, size, color and general adaptation for the market intended.

**WE ARE CAREFUL** not to send out any seeds we have not given a good and thorough test for germination. Our tests in this respect are very thorough and are conducted both in greenhouses and in the open ground as occasion requires.

**SOMETHING NEW.** We have something new and good in seeds all the time. Our seeds are in greater demand than ever before; in 1913 our sales were 33 1/3% greater than any previous year in our history, and we assure you it will be our big money in your pocket to buy your seeds from us. Write us if you wish to know anything about our seeds. Our word is our bond. We have a reputation for honest dealing and we are known to our many thanks to our customers for their loyalty and patronage. It affords us great pleasure to receive your orders and receive your kind expressions of satisfaction, for it indicates that our efforts to please and assist you have been successful. We have tried harder this year than ever before to offer you in this catalogue newer and better varieties than last year, as well as a larger assortment and at prices that will induce every market gardener who seeks the greatest profit to send us an order.

**HIGH GRADE TOMATO SEED IS OUR GREAT SPECIALTY**

All our Specialty Tomato Seed is grown, selected and saved exclusively from the best specimens for seed, and from what is usually known as crown and second generation. That is, the highest quality. Moreover, no seed is grown twice in succession on the same ground and blight of any kind is unknown among any of our tomato seed crops.

Market Gardeners, Large Growers, Shippers and Canners will find **our Selected Tomato Seed reliable** in every respect.

We have produced, at great expense and personal labor, superb varieties well calculated to meet all the requirements of soil, climate, locality, market, as well as the many exacting demands of the most critical consumer.

Healthy, Blight-Proof Seed Stock. We also exercise the greatest care in growing all our seed, that it not only be pure and true to name, but also that it be saved from strong, healthy and vigorous plants, free from all traces of disease of any kind. Our customers may thus rest assured that the seed they get from us will be absolutely free from any trace of disease whatsoever.

The growing of high grade Tomato Seed has long been a leading and important specialty with us and we probably distribute more seed to critical market gardeners and select canning establishments than any other three seedsmen in the United States.

Remember, the Main Thing in Making a Good Crop of Tomatoes is to Get Your Seed from Us. Buy the Best

Large Planters and Associations wanting to purchase seeds in unusually large quantities, should write for special prices. Although we have made prices lower in this catalogue, yet where a number of pounds or bushels are wanted, we can furnish supply at a lower price than by a single pound or bushel. In writing, give us the qualities and varieties required, and we will return list promptly with our **LOWEST PRICES FOR THE LOT.**

**OUR BUSINESS RULES**

**ABOUT WARRANTING SEEDS, ETC.—**The Moore Seed Co. give no warranty, express or implied, as to description, quality, productiveness or any other matter of any Seeds, Bulbs or Plants they send out, and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

**REMIT MONEY WITH ORDER.—**Money can be sent safely by Post Office Order, Express Money Order, Registered Letter, Bank Draft or Check.

**OUR PRICES** include bags, boxes and free cartage to depot. Bags are free excepting on Clover, Timothy and Millet.

**SEEDS BY MAIL.—**Four-cent per half pound and eight cents per pound must be added to our wholesale prices if seeds or bulbs are to be sent by mail. *Packets, Ounces and Quarter Pounds* of Flower and Vegetable Seeds will be sent, postage free, to any part of the United States. Postage for Beans and Peas, please add 15 cents per quart; and for Corn 10 cents per quart to catalogue prices, except where noted.

**WRITE YOUR NAME, POST OFFICE, COUNTY AND STATE** as distinctly as possible, especially the name. Many orders reach us lacking either or both; customers when writing about unsigned orders will aid us in identification by mentioning the articles ordered and quantity.

**GIVE FULL SHIPPING INSTRUCTIONS** on each and every order you send. To avoid chance of error, never write letters on the same sheet as your order.

**IF GOODS ARE WANTED C. O. D.,** 25 per cent. of the amount must accompany the order.

**WE SELL ½ pounds at pound rates, ½ pecks at peck rates, ½ bushels at bushel rates except where noted.**

**A WORD TO OUR CUSTOMERS**

It will be Money in Your Pocket to Buy the Best Seeds

**MANY THOUSANDS of the most successful MARKET GARDENERS and FLORISTS throughout the United States use no other**

**WHY WE ARE MOST RELIABLE.—**Because we are the only seedsmen in the United States who grow seeds especially for Market Gardeners and Florists. All our time and energy is devoted exclusively to producing the purest and best qualities of seeds possible for the market, garden and florist trade. We send out only such strains as are adapted to the wants of the most critical, and offer nothing that should disappoint those engaged in this important business.
**Order Sheet for Market Gardeners and Florists**

**The Moore Seed Company**
SEED GROWERS  125 Market Street, Philadelphia
AND 114 Church Street

The largest and only firm in the United States devoted exclusively to growing reliable seeds for market gardeners and florists.

The Moore Seed Company give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any seeds, bulbs, or plants they send out, and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

Moore's Special Instructive Leaflets on Culture sent Free if asked for with Order

Many vegetable growers are in need of special information such as has been gained by our forty-five years' experience and intelligent observation of methods of culture pursued by the most successful planters here and elsewhere. Please mark the number of leaflet desired.

Total amount of order.
ASPARAGUS

We have over 1,000,000 Strong Two-year-old Roots ready for our Customers.

Buyers of 10, 50, 75 or 100-lb. lots of any variety of Asparagus Seed, will be quoted special prices upon application.

STARKEY'S MAMMOTH EARLY PROLIFIC ASPARAGUS

THE BEST AND MOST PROFITABLE SORT TO GROW

This highly valuable new variety has been grown early for a number of years by one of Philadelphia's most successful market gardeners. Asparagus Mammoth has been cut the largest and handsomest asparagus ever sent to this market, from two to three weeks earlier than his neighbors and upon which he always realized very high prices. This asparagus has attracted much attention from dealers and commission merchants generally throughout the State, all anxious to get it. The color is not only very attractive, but the most profitable for the market gardener to grow. Stalks frequently measure two inches in diameter, and even when twelve to fifteen inches long are perfectly tender. The quality is exceedingly fine, growth rapid and remains in good, tender condition several days after being ready to cut. It is very productive, throwing up a perfect mass of very large sized stalks of medium green color and having a very handsome appearance, and invariably commands a much higher price than any other variety.

Our customers advise us that it never shows any trace of rust. In every case, after most thorough and extensive trials, Starkey's Mammoth has been found immensely superior to the Palmetto and other varieties for Southern planting. We request our customers to place their orders with us as early as possible.

Prices of seed: Pkt. 10c.; oz. 20c.; lb. 50c.; lb. $1.50; 500 lbs. $3.50 and upwards 5c. per lb. Strong roots, one year old, per 100 60c., 1,000 $1.00; two-year-old, per 100 $1.00, 1,000 $8.00 (500 roots furnished at 1,000 rate). We will furnish 5,000 two-year-old roots for $32.50, 10,000 for $60.00. Prices of Tuber, very large, grown from an acre of our Colossal Asparagus. This variety is also known as the "Hub.*

Barr's Philadelphia Mammoth. Oz. 10c.; 1/2 lb. 15c.; lb. 40c.; 5 lbs. $1.75; two-year-old roots, per 100 60c., 1,000 $4.00.

Conover's Colossal. Oz. 10c.; 1/2 lb. 15c.; lb. 40c.; 5 lbs. $1.25; two-year-old roots, per 100 50c., 1,000 $4.00.

Donald's Elmira. Oz. 10c.; 1/2 lb. 15c.; lb. 40c.; 5 lbs. $1.75; 100 75c., 1,000 $3.50. (500 roots furnished at 1,000 rate), 50 roots and over $4.50 per 1,000.

Palmetto. True stock. Oz. 10c.; 1/2 lb. 20c.; lb. 50c.; 5 lbs. $2.25; 100 60c., 1,000 $3.50; two-year-old, per 100 $1.00, 1,000 $8.00; strong roots, two-year-old, per 1,000 60c., 5,000 roots and over $4.50 per 1,000.

Bounvallet's Giant. Very early; good quality. Oz. 10c.; 1/2 lb. 25c.; lb. $1.00; two-year-old, per 50 60c., per 100 75c., per 1,000 1.00.

Giant Early Argenteuil Asparagus. A Royal French variety. Oz. 10c.; 1/2 lb. 25c.; lb. 75c.; two-year-old roots, by express or freight, 75c. per 100, $3.00 per 1,000.

ARTICHOKE

SUTTON'S SELECTED LARGE GREEN GLOBE. Pkt. 10c.; oz. 30c.; 1/4 lb. 75c., 1 lb. $2.75.

GREATEST

ARTICHOKE

FOOD

KNOW

SUTTON'S COLOSSAL ARTICHOKE ROOTS. The best and cheapest hog food known. It is without question the greatest root hog fattener in the world. Its yield is so enormous, bordering on the fabulous, that one can scarcely believe the quantity that can be grown on our Colossal Artichokes. Farmers who have given them a thorough trial the past year report yields from 4.0 to 1,200 bushels per acre. We cannot too strongly urge every farmer to plant a barrel or more this spring. Plant the Artichokes where you can allow them to remain, and your hogs, if turned into them, will grow fat and healthy, and will not know what sickness is.

They need not be dug in the fall; the hogs should be turned in on them, and will help themselves by rooting for them. One acre will keep from 20 to 50 head in fine condition from October until April, except when the ground is frozen too hard for them to root. They are also said to be a preventive of cholera and other hog diseases, and they are also highly recommended for milk cows, increasing the yield of milk 20% to 50%. They are also valuable for root crops, at the same time improving their condition. They are well adapted to any soil where Corn or Potatoes can be grown. One barrel will seed an acre, though we usually seed on 2 acres, and they should be planted in rows 4 feet apart and 1 foot in the rows, and covered about two inches deep. To destroy them, they should be plowed under when the plant is about a foot high, at which time the old tuber has decayed and new ones are not yet formed. They are not injured by freezing while in the ground. Lb. 33c., 5 lbs. $1.00, postpaid. By freight or express, qt. 15c., pk. 50c., bu. $3.25, bbl. (enough for 1 acre) $8.50, 2 bbls. $12.00.

ASPARAGUS CULTURE

Our little 174 page book tells the market gardener all about how easy it is to grow it.

EVERY MARKET GARDENER WHO WISHES TO MAKE MONEY SHOULD HAVE IT

The book is finely illustrated and discusses various methods of culture, gathering the crop, how to pack for market, also many other equally important subjects.

Bound in cloth 50c., postpaid, or will be sent FREE TO ALL who send us an order for Asparagus seeds or plants amounting to $5.00 or upwards. It must be asked for with the order.

ASPARAGUS ROOTS ARE TO BE SENT

By mail add 20c. per 100 for postage.
BEANS
DWARF OR BUSH
GREEN-PODDED

No market gardener, trucker or shipper should plant any but our
German, French, English, or King of the Early Stringless vari-
eties. They always sell at fancy prices. Other green-podded sorts
never do.

MOORE'S GERMAN STRINGLESS
This superior variety is a prolific and continuous bearer and ab-
solutely stringless. Very tender and of a distinct and de-
licious flavor. Very hardy and extremely early.
This most excellent variety was introduced to us by Mr. H. R.
Gardiner in 1800, and is a distinct improvement in green beans, and at once becomes
popular wherever known. The rich dark-green pods are produced in
marvelous abundance, being thick, long, and uniform in size, solid,
meaty, stringless, very brittle and tender. It is almost a continuous bearer,
and is among the first to give edible pods to market in the spring. The yield is enor-
mos, and it is very early, and the handsome rich green pods remain ten-
der a long time. It is likewise an excellent sort for fall planting. It is
exceedingly popular wherever grown. It is of very thin growth and
punitively mildew and rust proof. It is in great demand among truckers.

Pkt. 10c., qt. 30c., $1.00, pk.$3.00

Moore's German Stringless beans were introduced by us in 1877, and have grown steadily in popularity ever since. The bean was introduced by us in 1877, and has grown steadily in popularity ever since. It is a stringless, round-podded bean, surpassing many
varieties for earliness and productiveness, the seed being stringless pods.
The pod is of medium length, in color a very attractive dark green, and is unequaled by any other sort
for tenderness and fine flavor. We unhesitatingly recommend it to our many thou-
sands of market garden friends throughout the United States as being the best and
most profitable green-podded beans obtainable.

Pkt. 10c., qt. 20c., $1.00, pk. $3.50, bu. $6.50.

French Stringless Beans sold for $2.50 a hamper, while my Valentines and Refugees
only netted $1.40. The pods are long, straight and smooth, and
without strings. I will never plant another Valentine if I can help it.

French Stringless was the first to pick with me. Every plant was fairly loaded
with large, beautiful green pods, solid, tender and of delicious
flavor, and showed no string whatever until quite old. They retain their color and
tenderness longer than either the Valentines or Refugees, sell more readily and at
a higher price.

JAMES C. O'BRIEN, Market Gardener, Frankford, Pa.

MOORE'S ENGLISH STRINGLESS
(NEWTON WONDER)
Extremely Early, Unusually Hardy, Wonderfully Productive, Finest Quality
A new early variety with long round green pods, entirely stringless, very meaty, delicious flavor, won-
derfully tender, remarkably early. Enormously productive, continues a long time in bearing, valuable for
market gardens. This bean was introduced by us in 1877, and has grown steadily in popularity ever since. The bean is stringless at all stages of growth. It combines unusual hardiness and extreme earliness. No
market gardener, shipper or shipper's agent should buy any but our special strains of beans. All other
sorts are obsolete. Profitable to market gardeners.

Pkt. 10c., qt. 20c., $1.00, pk. $1.50, bu. $6.50.

Moore's English Stringless Bean surpassed all my expectations. It was the earliest and finest
of all the green-podded beans, and became an instant favorite. We produce long, straight,
absolutely stringless pods of the finest quality, and compared with the Red Valentine and Bountiful vari-
eties, my market returns were about 50 percent, better.

S. T. JONES, Freehold, N. J.

The Newton Wonder or English Stringless are the best selling sorts ever had. We find them the best either for the first or last plant-
ings. We intend to try your Moore's German Stringless next year. Will plant in all about ten bushels.

SIBUKO'S & BRO., Johnstown, N. Y.

KING OF THE EARLY STRINGLESS
Ready for picking in 40 days from planting. A grand variety for the Market Gardner.

It is fully a week earlier than the Valentine or Refugee, Bountiful, Giant Podded Valentine, Longfellow,
or other early varieties. The pods are larger and of better shape. They yield the last season over one bushel
per acre on the same soil. The delicate green color of the pods is retained after cooking, which adds
greatly to its attractiveness when served. Fine market sort. A continuous yielder, and very profitable to
grow.

Pkt. 10c., qt. 30c., $1.50, bu. $6.75.

EARLY SIX WEEKS (Round Pod)
This excelent variety is a great improvement over the old type, being ONE-THIRD LONGER THAN
THAT VARIETY, PADS PERFECTLY ROUND, LIGHT GREEN AND STRAIGHT, and fully as early.
It also has the additional advantage of being suitable both for early and late planting, being extremely
hardy. It is a stringless, round-podded bean, and has been our favorite sort for the market
of gardeners' fall crop, owing to its enormous yielding qualities, large and handsome appearance and
tenderness to withstand early frosts. We grew Valentine or Refugee, being
superior to either in appearance.

Pkt. 10c., qt. 30c., $1.50, bu. $6.75.

BURPEE'S STRINGLESS GREEN POD. Qt. 35c., $1.00, bu. $6.50.

EARLY HORTICULTURAL

LONGFELLOW, Round pod. Qt. 50c., pk. $1.50, bu. $5.00.

EXTRA EARLY RED VALENTINE, Improved round pod strain. A great improvement over the old
variety. Qt. 50c., pk. $1.50, bu. $5.00.

IMPROVED EXTRA EARLY REFUGEE. Round pod. Qt. 50c., pk. $1.25, bu. $4.50.

REFUGEE or 1000 to 1. Round pod. Qt. 50c., 4 qts. 75c., pk. $1.25, bu. $4.75.

BLANK VAL. 25c., 1 qt. 65c., pk. $1.35.

We will mail postpaid any 5 packets of Vegetable Seeds for 25c., or 7 for 50c.
Our Beans Are Great Money Makers
FOR ALL WHO PLANT THEM

King of the Early Stringless

Ready for picking in 40 days from planting. A grand variety for the Market Gardener. Full round meaty pods. Distinct from all other sorts.

A very hardy and productive bush bean, with strong vigorous bushes, which hold the pods well up from the ground. It is fully a week earlier than the Valentine or Refugee, Bountiful, Giant Potted Valentine, Longfellow, or Mohawk varieties. The pods are larger and of better shape, handsomely solid and tender, and makes very attractive appearance on the market. They yielded the past season over one-third more per acre on the same soil. The delicate green color of the pods is retained after cooking, which adds greatly to its attractiveness when served. Fine market sort. A continuous yielder, and very profitable to grow. All who wish a profitable early bean for market or home use should plant this variety. Pkt. 10c., qt. 30c., pk. $1.15, bu. $6.50.

California Pink

A MOST EXCELLENT WINTER SHELL BEAN

This is an enormously productive green-podded variety, valuable alike as a snap or dry-shelled bean. Enormous quantities of these beans are annually grown in California, where they are highly esteemed for their richness and flavor known to no other variety for cooking in a dry state. Any surplus one may grow can easily be sold at from $1.00 to $2.00 per bushel above white beans. The pods are large and usually contain from six to eight beans of a very pleasing shade of pink. An average of forty-five bushels per acre is not uncommon. It will stand wet weather perfectly, while white-seeded sorts will be rendered unsalable. All who wish a truly good winter shell bean should plant this variety. It is a very sure cropper and a good snap bean when very young. Pkt. 10c., qt. 30c., pk. $1.75, bu. $9.00.

French Dwarf Horticultural!

Vine very productive, compact, upright, with large leaves. Pods very numerous, of medium length, cylindrical, curved, with splashes of bright red on a yellowish ground. They become fit for use as green-shelled beans very early and in this condition the beans are very large, of fine flavor, easily shelled and are about equal to, and many consider them superior to the Lima in quality. They make a delicious snap bean when young. Seed large, oval, plump, flesh colored and nearly covered with splashes of bright red. This is a most excellent winter shell bean when fully grown. As a baked bean they are truly delicious. It is a remarkable heavy yielder as our illustration shows, and it should be planted by all who relish a delicious, satisfying snap or shelled bean. Pkt. 10c., pt. 50c., qt. 25c., 4 qts. $1.10, pk. $3.00, bu. $7.75.
NEW CALIFORNIA RUST-PROOF BLACK WAX

This is a first-class wax bean in every respect, having originated with one of our Philadelphia market gardeners, who never sold the seed to his neighbors for less than $1.00 per bushel. It is one of the best wax beans ever introduced, being of robust, branchy habit, should be planted thinly, so as to allow plenty of space for branching. The pods are round, long and of a beautiful, bright, golden transparent yellow color, very tender, stringless, and entirely free from rust, and remain tender a very long time. Pods are long, thick, very attractive, very meaty and hang in remarkable profusion, and continue to bear a very long time. It will mature fully as early as our now famous California Rust-Proof Wax. As a market sort, it invariably brings the "top notch" price. We commend it to all our market garden friends. Pkt. 10c., qt. 35c., 3 qts. 65c., 4 qts. $1.15, pk. $2.25, bu. $5.80. Special prices on bu., lots and upwards will be made upon application.

MOORE’S KING OF THE WAX

This is a first-class wax bean in every respect, having originated with one of our Philadelphia market gardeners, who never sold the seed to his neighbors for less than $1.00 per bushel. It is one of the best wax beans ever introduced, being of robust, branchy habit, should be planted thinly, so as to allow plenty of space for branching. The pods are round, long and of a beautiful, bright, golden transparent yellow color, very tender, stringless, and entirely free from rust, and remain tender a very long time. Pods are long, thick, very attractive, very meaty and hang in remarkable profusion, and continue to bear a very long time. It will mature fully as early as our now famous California Rust-Proof Wax. PRLICIFIC EVERBEARING WAX

The Most Productive, Delicious and Best Selling White-Seeded Wax Bean on the Market.

This is a first-class wax bean in every respect. The pods are nearly round, of a beautiful bright yellow color, long and hang in perfect clusters well up from the ground; very early and hardy and continues a long while in bearing, and this combined with immense productivity and handsome appearance and most delicious quality, has made it a favorite with market gardeners everywhere. As a dry bean for winter use it is the best we have ever eaten. Pkt. 10c., qt. 35c., pk. $2.25, bt. $5.00.

HOPKINS’ GOLDEN STRINGLESS. A very early, round podded sort of great value to the market gardener. A heavy yielder and good market sort. Will stand more cold weather than other wax sorts. Pkt. 10c., qt. 30c., pk. $1.75, bt. $5.25.

HODSON WAX. Perfection Wax. Crop failed.

DAVIS KIDNEY WAX. Qt. 35c., pk. $1.35, bt. $5.00.

WARDWELL’S KIDNEY WAX. Our strain of this sort is very pure. Qt. 35c., pk. $1.40, bt. $5.00.

DWARF BEANS FOR SHELLING

RISMARKER GREAT GERMAN SOUP BEAN. Everybody relishes a good bean soup, but ninety-nine out of one hundred varieties of beans are too large and lack that rich delicacy of flavor that a soup bean should have. Now the German nation is great for soup and this combined with immense productivity and handsome appearance and most delicate flavor, has made it a favorite with all who grow beans. It is a very productive sort, fine rich flavor. Very nutritious, highly recommended. Pkt. 10c., pt. 20c., qt. 30c., 4 qts. 60c., pk. $1.60, bt. $5.75.

BLACK TURTLE SOUP BEANS. If cooked in the form of a soup until the bean and skin be soft, they will have the exact taste of soup made from the famous Diamond Back Turtle. Pkt. 10c., pt. 30c., qt. 30c., 4 qts. $1.00.

DWARF NAVY OR PEA. A very productive sort, with fine rich flavor. Very nutritious, highly recommended. Pkt. 10c., pt. 20c., qt. 30c., 4 qts. 60c., pk. $1.60, bt. $5.75.
MOORE'S SUPERB NEW BUSH LIMA BEANS
Moore's Profit-Making Lima Beans Every Market Gardener Should be Careful to Plant Our Specially Selected Varieties

MOORE'S NEW GIANT

Sturdy Erect Bushes Filled with Luscious Green Beans, Prodigious Yields, Early and Continuous Bearer, Handsome Pods 4 to 5 inches in Length.

Both pods and beans are twice the size of Kummerle, Thorburn or Dreer's Bush Lima; it is of uniformly erect habit. It branches freely with all the branches held upright, and the pods high above the ground, no pods or beans dislodged from resting on the ground.

Moore's New Giant Bush Lima. The beans for use as early as those of the Burpee Bush Lima; bears tremendous crops and furnishes the most delicious beans for the table earlier than most pole varieties. The pods contain one to five handsome large deep green beans of the most luscious quality and owing to the fact of the beans being so closely packed they shell very easily.

Moore's New Giant Bush Lima is a true wonder with all the market gardeners in this locality; it creates a veritable sensation with everyone who saw it. It is big in every way—big beans, big pods and crops, and last but not least it brought big prices. I had no trouble in getting $1.00 per basket for your GIANT BUSH, while it was hard to move the Kummerle, Thorburn or Dreer's Bush at $80. The beautiful appearance of the dark-green pods insures ready sale at any time. I planted May 10th and picked the first full-size pods July 5th. One bush yielded me 177 pods by actual count and I believe very few less than this.

Z. V. PATTERSON, Richmond, Va.

MOORE'S NEW BIG POD BUSH LIMA

In this we offer you the ELIEST, LARGEST and BEST of all LARGE BUSH LIMAS. The pods are truly enormous in size, filled with beautiful luscious green beans larger than any bush lima ever produced before. The pods are longer but not as thick as our New Giant Bush.

The plants are uniformly upright. The plant has heavier foliage, and is of more vigorous growth than our IMPROVED LARGE BUSH LIMA or BURPEE'S BUSH LIMA and will outyield the Burpee Bush Lima fully one-third. Fully grown bushes measure 25 or more inches high and about the same across the top. It will outyield the above sorts from a third to a half. It thus makes it of immense value to the market gardener.

Moore's New Big Pod Bush Lima when compared with the older sorts is radically different; the pods are borne in clusters, and the beans are much larger, while the beans being green or dry are about twice as thick and of the same luscious flavor as the GIANT Bush or Walters Thick Green Pole Lima. The beans either fresh or dried are of a delicate greenish white color, and are ready for use from 6 to 8 days earlier than the earliest pole lima. We would like to tell you many other nice things about it if we had the room. Pkt. 15c., pt. 30c., qt. 50c., 4 pts. $1.63, pk. $3.00, bu. $11.00. If beans or peas are to be sent by mail add 5c. per pint and 15c. per quart to catalogue prices.

BUSH BUTTER LIMA

A MARVEL IN YIELD! Outyielding all of the Earlies, and bearing more in number of pods. It is simply delicious when cooked and served with a buttery sauce. It is enormously productive (see our illustration), bearing continuously throughout the summer until killed by frost. Our customers will find it a delicious vegetable to eat either hot or cold, that is both quality and quantity, being tender, rich and buttery. It is a true bush variety, growing in bushy, compact manner, and is really a regular bush Lima, requiring no stakes or other supports whatever. Our Bush Butter Lima is especially adapted for family gardens and we hope all having such will plant it liberally, third ever will in all parts of the United States and Canada. It also makes a delicate winter Shelled Bean. It generally matures from 50 to 60 well-filled pods. Pkt. 10c., 1/2 pt. 25c., pt. 35c., qt. 50c. postpaid. By express or freight, pt. 30c., qt. 40c., 4 pts. $1.50.

Fordhook Bush Lima. (True Stock.) A new variety of much merit. Pkt 15c., pt. 25c., qt. 45c., 4 pts. $1.50, pk. $3.00, bu. $11.00.

Burpee's Bush Lima. True quarter cent strain. Qt. 35c., 4 pts. $1.25, pk. $2.25, bu. $8.00.

Henderson's Improved Bush Lima. Of lungy growth and very prolific, bearing continuously until the end of the season. Extremely grown in some sections. Pt. 20c., qt. 90c., pk. $2.00, bu. $7.00.

Plant Moore's Wonderful Early Tomato. (See page 56.)
POLE LIMA BEANS

WILKIE’S PERFECTION PRIZE POLE LIMA

SHOWING HABIT OF

PODS GROWING IN

CLUSTERS

THE EARLIEST

THE GREATEST YIELDER

THE BEST QUALITY

THE SWEETEST

OF ALL

Walter’s Prolific Thick Green Pole Lima

A grand selection, possessing great merit. Of most delicious quality. Will always command the highest market price. 250 pods to one vine is the record.

Our illustration herewith, which was taken from a photograph, aptly illustrates the shape and compact habit of the bean. It originated and was grown for many years by Mr. Henry Walter, one of the most successful Lima bean growers of Gloucester Co., N. J., and who always jealously guarded his seed from “outfitters.” By paying him an enormous price we finally induced him to grow seed stock which we now offer to our many market gardener friends. This variety invariably commands a higher price in all markets than any other sort, and it will be found very profitable to grow by all who plant for profit. The distinctive improvements are its remarkable productiveness, delicious flavor, and the formation of the beans so closely in the pod. Vines vigorous and productive, with pointed leaves and white blossoms. Pods broad, straight and thick. Beans dark green, tender, sweet and juicy, medium size, broad and much thicker and greener than any other type of Lima, and formed very close together in the pod. This is an excellent sort for the family garden and the best of all sorts for canning purposes.

POLE LIMA

Pkt. 10 cts., qts. 30 cts., pk. $1.80, bu. $7.00.

SHOVEL’S IMPROVED

Dreer’s Improved or Potato Lima. The distinctive features of this are early maturity, large yield and extra quality.

Pkt. 10 cts., qts. 30 cts., pk. $1.80, bu. $7.00.

KING OF THE GARDEN

Qts. 30 cts., pk. $1.75, bu. $6.75.

EARLY LEVIATHAN (New). Early and productive.

Pt. 20 cts., qts. 30 cts., 4 qts. $1.00, pk. $1.85, bu. $7.00.

GREEN SPEED

An extremely valuable new variety which should be known to every Lima bean grower. Very early, wonderfully productive and vigorous growth of large, pods borne in clusters of superior quality and immense size and filled with immensely large beans of a beautiful green color, and always command fancy prices.

Pkt. 10 cts., qts. 30 cts., 4 qts. $1.75, pk. $3.00, bu. $11.00.

FORD’S MAMMOTH PODDED

True stock.

Qts. 30 cts., pk. $1.75, bu. $6.75.

DREER’S IMPROVED or CHALLENGER

Thick, round beans of fine quality and heavy yielder.

Pkt. 10 cts., qts. 30 cts., 4 qts. $1.00, pk. $1.75, bu. $6.75.
These Pole varieties should be sown 2 weeks later than the Bush varieties. They should be enriched with well-rotted manure in the hills; from 4 to 6 seeds are planted in each hill.

GOLDEN CARMINE HORTICULTURAL STRINGLESS. Excel in earliness, quality, handsome appearance, and productiveness. In this new strain we have a wonderfully robust grower. The pods are large, stringless, bright golden color when very young. The vines are vigorous and very prolific. The thick pods are handsomely marked and hang in great clusters over the whole length of the vines. Taken at almost any stage up to absolute ripeness the pods are stringless and quickly cook to an almost jelly-like consistency. The quality is excellent, preferable to our taste to most of the dwarf "snap" or butter beans. Pkt. 10c., pr. 30c., qt. 85c.

SCARLET RUNNER. Ornamental as well as useful. It grows 10 feet high, and produces beautiful bright scarlet flowers, followed by large shell beans. Pkt. 10c., pr. 30c., qt. 35c.

NEW GOLDEN LAZY WIFE’S POLE. It is nothing unusual to pick 1/2 bushel to 3 pecks from a single vine. The pods are 5 to 6 inches long, broad, thick, fat, a beautiful yellow, and entirely stringless, surpassing all other varieties in this respect, and retaining these important qualities until almost ripe. Exceedingly rich, buttery and fine flavored. The vines cling well to the poles. They commence bearing in great abundance when the vines are quite young, and continue to bear profusely the entire season. The beans when dry are pure white in color, and make a fine shell or winter bean. Pkt. 10c., pr. 25c., qt. 40c., pk. $1.00.

YARD LONG, or CUBAN ASPARAGUS BEAN. Pods grow from 2 to 4 feet long and are produced in great abundance. In color they are a beautiful green, tender and delicious, so that they not only prove a great curiosity wherever grown, but also a desirable variety as well. The pods are broken into suitable lengths while young, cooked, and served with a drawn butter sauce, same as asparagus. Pkt. 10c., 3 for 25c.

TENNESSEE WHITE CORN HILL BEAN. This variety of pole beans is a little larger, and it is earlier to mature than any of the other pole sorts. It is also remarkably prolific, of delicious quality, a continuous bearer, easy to shell, and will prove to be decidedly a money maker for the market gardener. The pods are produced in clusters. They strongly recommend it to all our customers as a distinct, valuable, and highly desirable pole lima bean. All who have home gardens should plant it. Pkt. 10c., pr. 25c., qt. 30c., pk. $1.00.

FAMOUS SOUTHERN BUTTER LIMA. This variety of pole beans is a little shorter, and it is earlier to mature than any of the other pole sorts. It is also remarkably prolific, of delicious quality, a continuous bearer, easy to shell, and will prove to be decidedly a money maker for the market gardener. The pods are produced in clusters. They strongly recommend it to all our customers as a distinct, valuable, and highly desirable pole lima bean. All who have home gardens should plant it. Pkt. 10c., pr. 25c., qt. 30c., pk. $1.00.

KENTUCKY WONDER WAX BEAN. In saying that this bean is even more prolific than its green-podded namesake we do not overstress the bounds of truth. It commences to bear when scarcely higher than the average bush variety, and keeps on producing until killed by frost. In some comparatively frostless districts it has continued bearing from June to December. The illustration shows the height of the vine and its enormous productiveness. It is a rampant grower, one vine filling a pole with a mass of vines densely loaded with handsome beans. They are solidly meaty, entirely stringless, and when cooked, deliciously rich and buttery. The seeds in shape, closely resembling that of the Kentucky Wonder. Pkt. 10c., pr. 25c., qt. 40c., 2 qts. 65c., 4 qts. $1.20, pk. $3.20.

WREN’S EGG BEAN. Stringless pods hang in enormous clusters. Beans large, beautifully shaped and spotted with red, and of the highest quality. A capital pole bean, takes to the pole exceptionally well. Being stringless it makes an excellent snap bean at any stage of growth, and when ripened is unsurpassed for baking or boiling. Pkt. 10c., pr. 20c., qt. 35c., pk. $1.75.

OLD HOMESTEAD OR KENTUCKY WONDER. It is enormously productive, the pods hanging in great clusters from top to bottom of the pole. It is entirely stringless, and the pods are of a silvery green color, very long, often reaching 9 or 10 inches, nearly round when young, and very crisp. An early and very prolific sort, with showy pods which are excellent for snaps. Pkt. 10c., pr. 20c., qt. 30c., 4 qts. 50c., pk. $1.00, bu. $4.25.

We will send postpaid any 10 packets for 25c., or 7 packets for 50c.
Selected Pedigree Varieties.

Our early Beets are famous everywhere.

**THE THREE MOST PROFITABLE SORTS FOR YOU TO GROW—**

They are the kind that make money for those who sell them. You will be pleased with any or all of them. The up-to-date grower will plant some of each of the three following.

**Wesley's Earliest Market Beet.** One of the most wonderful early dark blood sorts of the century. A handsome dark blood red, fine grained, smooth, tender, early and late planting. The largest dark red early beet ever grown. Meats a long-felt want among beet growers. Every beet salable. Always brings the highest market price. This excellent beet is an improved from Bastian's Early Red Beet, so extensively grown in the south of France for early shipment to the Paris and London markets, where it is held in higher esteem than any other variety. It is a source of great profit to the French market gardeners, as well as to all others who grow it. Top of medium size, root very symmetrical and will please all who plant it. An enormous yielder. Oz. 10c., ½ lb. 30c., lb. $1.00, 5 lbs. $4.50.

**Nutting's Extra Early Gem.** Mr. Nutting's success and fame as an early beet grower has extended over a long period of years, and the giving of this grand new early beet to the public through the compressed his entire career—he considers the crowning effort of his life. His neighbors have frequently offered him fabulous sums for this beet, so highly do they prize it for its extreme earliness and beautiful red color and fine quality. Its special valuable features consist in its being two weeks earlier than the Bastian, Lentz, Dewing's and Egyptian or Detroit strains, together with its being much better adapted to growing under bush, owing to its very few and small leaves, thus rendering it very profitable to the market gardener. It will invariably command the highest market price, and not infrequently sells at a higher figure than any other sort. For a general outdoor early crop it is unsurpassed. The quality is the highest, being very tender, sweet and juicy, even when the leaves die off from age. It will also be found to be the ideal beet for home use as our numerous testimonials will show. Oz. 10c., ½ lb. 30c., lb. $1.00, 5 lbs. $4.50.

**New French Trevisco.** Positively the earliest dark red beet blood variety ever introduced and we recommend every one of our 50,000 market gardener friends to plant it largely—it will make big money for all. It is as symmetrical as a small orange and is in its prime when about three inches in diameter. Skin very smooth, of violet red color; deep of dark blood color, leaf stalks long, slender and of perfect shape. It can be grown very close together and like our Nutting's Extra Early Gem is well adapted for growing under bush. We doubt if any beet ever was able to produce an earlier beet than this. Marketable beets in thirty days is its record. Owning to its very rapid growth it will be found very profitable for late summer sowing. Oz. 10c., ½ lb. 30c., lb. $1.00, 5 lbs. $4.50.

**Arlington Favorite Extra Early.** (Our Special Stock.) This very early dark red variety has many points in its favor for market gardeners. The top is short, small and well adapted for growing under each, or open ground planting it will be found one of the finest dark red extra early globe-shaped sorts obtainable, much superior to many existing varieties. The roots are perfectly smooth, of beautiful round shape, intense blood-red skin and flesh, fine grained and very sweet. It is earlier than Bastian, Dewing's or Lentz, and will be found valuable for sowing for an autumn or winter sort. It never becomes woody or stringy and sells at top-notch prices. Oz. 10c., ½ lb. 30c., lb. $1.00, 5 lbs. $4.50.

**American Egyptian.** Much superior to the old type earlier, has a shorter top, not so flat and will not crack. Oz. 10c., ½ lb. 30c., lb. $1.00, 5 lbs. $4.50.

**Crosby's Improved Egyptian.** Very fine stock. Oz. 10c., ½ lb. 30c., lb. 75c.

**Bastian's Early Half Long.** True seed grown by Bastian. Very choice strain. Oz. 10c., ½ lb. 15c., lb. 45c., 10 lbs. $3.50.

**Moore's All Seasons.** (New) Fine dark red tender sort, very sweet. Oz. 10c., ½ lb. 30c., lb. $1.00, 5 lbs. $4.50.

**Edmand's Early Red Turnip.** ½ lb. 30c., lb. $1.00, 5 lbs. $4.50.

**Selected Extra Early Lentz.** Original stock seed grown by Lentz. Much superior to that ordinarily sold. Very tender and sweet, fine profitable market sort. Oz. 10c., ½ lb. 30c., lb. $1.00.

**Detroit Red Turnip.** Our strain is extra good. Oz. 10c., ½ lb. 25c., lb. 75c., 10 lbs. $6.50.

**Extra Early Eclipse.** ½ lb. 25c., lb. 75c.

**Turnip.** Very dark red, very sweet and good size top. Good fall and winter sort. Oz. 10c., ½ lb. 25c., lb. 75c.

**French Swiss Chard.** (True Spinach Beet.) The best and most profitable sort for market. Oz. 10c., ½ lb. 35c., lb. 75c.

**Chicago.** Oz. 10c., ½ lb. 35c., lb. $1.50.

**Early Model.** New. True stock from England. Early deep rich blood-red crimson. Oz. 15c., ½ lb. 45c., lb. $1.50.

**Electric.** Very early, dark red turnip, fine grained. Oz. 10c., ½ lb. 25c., lb. $1.75.

**Long Smooth Blood.** Late intense dark red. Oz. 10c., ½ lb. 25c., lb. 85c.

**Crosby's Improved Blood Turnip.** Oz. 15c., ½ lb. 30c., lb. $1.00.
LUMP OF SUGAR: Early? Yes, it will mature fine specimens in 40 days from sowing or by the pre-}
gressive — a most valuable market gardener. A great acquisition. Color outside is deep blood
red; inside layers of blood red and light red alternately. They are beautiful when cooked, fine grained
and of fine texture, good for roasting, boiling, for deep frying, and excellent for use in salads.

Sutton's 1 lb. 25¢., lb. 75¢.

Strasburg Dark Blood Half Long
We have obtained our stock of this famous excellent sort from the original, Mr. J. Ouz, one of France's most
successful market growers. The shape is medium, half long, nicely shouldered and tapering gradually to a point.
It has a rich, sweet, smooth, quick growth and a good keeper. Market gardeners will find it the best and most suit-
able half-long sort to grow. Pkt. 3¢, oz. 10¢., lb. 23¢., lb. 75¢., 5 lbs. $3.50, bu. $8.00.

The Ideal in Color, Shape, Size, and Quality!

ASPARAGUS

Silver Asparagus Beet. This is a most delicious vegetable, with a very delicate flavor, slightly seductive taste. The stalks
and midribs are cooked and eaten the same as asparagus, while the young leaves are cooked and eaten
the same as common spinach. It is a great favorite in England, France, and Germany, where it is found in almost every garden. The culture is
as simple as ordinary beets. Plants should be thinned to 10 inches in the row. We earnestly recommend all our customers to grow this delicious
vegetable. Pkt. 5¢., oz. 10¢., ½ lb. 25¢., lb. 75¢.

Moore's Superior Sugar Beets and Mangel Wurzels

In our opinion no crop is a better paying investment for farmers to grow than Mangel Wurzel Beets. The value of these for stock feeding
cannot be overestimated. The results from their use are wonderful, as is clearly shown in the improved health and condition of animals, the
increased yield of milk in cows, and the great saving of hay. They can be raised on a very trifling cost, and the selected seed will yield immense
mature crops per acre. Certain wealth and prosperity is assured all stock or dairy farmers who feed liberally of roots. Mangels are a valuable food
to give before sowing during the winter. Fed in connection with grain they keep the animals healthy, the porking and the system cool. Fattening
hogs like them as a change from corn and they keep the appetite up. It is difficult to obtain a full yield of milk in winter without
successful feed, and mangels supply this to the dairy cow in a palatable form. Mangels help push the calves along during the winter. Plan an
acre this spring. If by mail, add for postage at the rate of 10 cents per pound on Mangel Wurzels.

New England Milk and Butter Sugar Mangels. The feeding of this variety will increase your dairy profits
and sugar and nutritive matter than any other mangel. In England, where it is considered indispensable for dairy farming, large dairy farmers state
that they are not only able to obtain a higher price per gallon for milk from cows fed on this mangel, but also that the cows produce fully one
third more milk and butter and are in much better condition fed on hay and the Milk and Butter Mangel, than if fed on hay alone. The large
yield of cattle food ever known has been obtained from this variety. Chemical tests show it to contain 29 per cent sugar, while other sorts only
analyze from 14 to 16 per cent. It is a compact grower, and large, deep sugar and calcareous, this variety will stand closer cultivation than any other.
The root and top is red and very smooth. Oz. 10¢., ½ lb. 20¢., lb. 50¢., 5 lbs. $3.25, enough for one acre, $2.25; 10 lbs. $4.00.

Danish Long-keeping Sugar Mangel. The flesh is deep golden yellow and is of high fattening value as well. Sheep and most stock
have a preference for it over other varieties. It is the longest and best keep-
ing of all mangels. The root will keep in perfect condition until February. This yield per acre under best cultivation is simply enormous. It is especially
suitable for calcareous soils. Oz. 10¢., ½ lb. 30¢., lb. 50¢., 5 lbs. $2.25, 10 lbs. $4.00.

Veitch's Market Favorite. Produces a very early crop of large, solid sprouts, delicious in flavor. Leaves small, crumpled, pale green in color,
standing well out from the stem. Enormously productive and a sure header. The finest of all sorts. Especially grown for calcareous soils.
Oz. 10¢., ½ lb. 30¢., 1 lb. 50¢., 5 lbs. $2.25, 10 lbs. $4.00.

SUTTON'S MATCHLESS. Pkt. 10¢., oz. 30¢., ½ lb. $1.00, lb. $3.00.

Veitch's Snow-White Broccoli

Sutton's Snow-White. This valuable new sort is a decided acquisi-
tion. The immense large, close, snow-white heads are of spotless purity, alike valuable for a spring or fall crop and a sure cropper
heady with cauliflowers are uncertain. Those who grow for market will find this variety unusually profitable to cultivate. Pkt. 25¢., ½ oz. 75¢., oz. $2.50, ½ lb. $9.00, lb. $30.00.

EXTRA EARLY WHITECAP. Heads medium size, close, of creamy white color. Pkt. 10¢., oz. $1.50.

BRUSSELS SPROUTS

Sutton's Early Brussels Sprouts. This valued new sort is a decided acqui-
sition. The immense large, close, snow-white heads are of spotless purity, alike valuable for a spring or fall crop and a sure cropper
where cauliflowers are uncertain. Those who grow for market will find this variety unusually profitable to cultivate. Pkt. 25¢., ½ oz. 75¢., oz. $2.50, ½ lb. $9.00, lb. $30.00.
NEW EARLY GEM CABBAGE

EARLIEST HARD HEADING SORT GROWN

New Early Gem Cabbage

Precisely only from

THE MOORE SEED CO., PHILADELPHIA

A valuable new acquisition for all who grow early cabbage. Earliest hard heading cabbage known. A great boon to the market gardener.

All who plant EARLY CABBAGE should plant this. It means big money to all who plant it.

It has taken us ten years of hard, continuous labor to produce and perfect the New Early Gem Cabbage, which for extreme earliness and hardness of head, is the peer of early sorts. Everywhere cabbage is grown, specialists have been struggling to combine a hard head with earliness and it must be conceded that until now all these efforts have failed and that the great desideratum has been left to us to accomplish. We feel confident that at last a variety has been produced which combines extreme earliness with hardness and good size. Likewise delicious flavor, tenderness, sweetness and productivity. This is another valuable feature which it possesses and should be taken into consideration by all, viz., its compactness of heads, nearly all of which are of the same size and shape.

New Early Flat Brunswick. A grand new early cabbage variety from Germany. Every head, as uniform as it could be, and remarkably solid even when young. The shape and habit of growth is well shown in our illustration herewith. It is ready to cut as early as our Early Ox-Heart, somewhat larger, earlier of size, flavor and delicate texture. A remarkably compact grower, well manured ground it can easily be planted 12 inches apart. Its plump lozenge shape, compactness and large yield per acre makes it especially valuable for market gardeners. It always sells for an extra price. We earnestly commend it to all our thousands of customers. Pkt. 10c., oz. 30c., 2 oz. 50c., ½ lb. 85c., lb. $3.00.

Moore's Selected Beauty Wakefield. This is the best type of Early Wakefield. Our strain is universally conceded to be the best type of Wakefield early cabbage in cultivation. The heads are remarkably hard, outer foliage small, and capable of being planted very close and will mature all at once. It has always been our aim to have the very finest strain of this important variety and it pleases us to state that we have a really superior strain for our Market Gardeners and we hope they will avail themselves of the opportunity to get our extra stock of this valuable early variety. Pkt. 10c., oz. 30c., ½ lb. 85c., lb. $3.15.

Large Early Ox-Heart. For many years past the true type of this valuable cabbage has not been offered by an American seedman. We are proud to say that we are now enabled to offer to our patrons the true type of this long famous and valuable old sort. We pronounce it the very best early Ox-Heart Cabbage in existence. The heads are nearly twice as large as the Early Jersey Wakefield, often weighing fifteen pounds, and nearly as solid as our Boston Early Heart, and of very compact growth. It also stands the cold better than many other sorts. Very few outer leaves, thus admitting of close culture—upwards of 12,000 can be planted to an acre. Our market-garden friends will be pleased to know the Wakefield. It is particularly adapted to thin, light soils. This is a great acquisition, as every cabbage grower will at once recognize. Pkt. 10c., oz. 30c., ½ oz. 45c., ½ lb. 85c., lb. $3.00.

Boston Early Hard Head. This superior variety nearly equals James Wakefield in earliness, and forming very much larger and harder head. Very uniform in shape and general appearance, fine gnarled, small, short stump, with few loose leaves, thus allowing them to be cut out near together; it also has a very valuable quality of remaining firm in good condition than any other, after full maturity, without cracking or bursting. It is likewise an excellent sort for winter. Try it. Pkt. 10c., oz. 25c, ½ lb. 75c., 1 lb. $2.50.

CHARLESTON LARGE EARLY WAKEFIELD. The uniformity and trueness of our strain is appreciated by all who use it. Pkt. 10c., oz. 25c, ½ lb. 75c., 1 lb. $2.50.

EARLY JERSEY WAKEFIELD. Our stock is well selected and has no equal. Pkt. 5c., oz. 25c, ½ lb. 75c., lb. $5.50.

IMPROVED EARLY SUMMER. Our own highly selected type. Pkt. 10c., oz. 25c, ½ lb. 60c., lb. $5.00.

PHILADELPHIA EARLY WINNINGSTADT. Much superior to imported seed. Solid heads, with short stems. Pkt. 5c., oz. 20c., ½ lb. 50c., 1 lb. $3.00.

HENDERSON'S SUCCESSION. (True Stock.) Our stock is unusually fine. Pkt. 10c., oz. 25c., ½ lb. 75c., lb. $5.50.

THE LUPTON. (Originator's own stock.) Pkt. 10c., oz. 20c., ½ lb. 60c., lb. $5.00.

New Early Cabbage—Copenhagen Market. This superb new Cabbage that last year made such a sensation with all who grow it during the past season is undoubtedly without a rival as the finest large round-headed early Cabbage in cultivation. The type is thoroughly fixed, the heads maturing all at the same time (this being a great consideration to Market Gardeners, entailing less labor in harvesting the crop and allowing the ground to be cleared at the first cutting). The heads average about ten pounds each in weight, are very solid, with small core and of fine quality. It matures as early as our Large Early Heart and will give a much heavier yield per acre than that popular variety. The plant is short-stemmed, the heads being produced almost on the ground level. The leaves are light green, rather small, saucer-shaped, and always tightly folded. The plants, therefore, can be set closer than is usual with varieties of similar size. We have a fine stock of seed (all grown in Denmark), which is very limited. For pkt. 10c., oz. 25c., ½ lb. $1.50, lb. $5.00.
We Offer You the Best Cabbage Seed in the World

NEW MODEL SUMMER CABBAGE

The grandest summer cabbage in existence. In the illustration we display what we consider—as well as all those whom we sold it last year—the finest type of summer cabbage in existence, whether for medium early, early, late, or even winter use in a cut which rates a double win as a good thing if you don't plant it. We class it as a second early sort, coming in a few days after our Crown Jewel, but much superior in the growth, due to succession, being double the size, with no tendency to run to seed nor drop the leaves during hot summer days. We say, without exaggeration, that it is the finest summer and summer late cabbage ever offered for market, and for summer use it has no equal. It is the cabbage in every respect for the market gardener or private planter, being large in size, solid, and of the finest quality. It is, in all probability, the most profitable sort to plant for summer use, a crop is sure, no matter when planted. The trip is excellent, of definite size, and all our varieties for many years have been the acknowledged standard of excellence by every one interested in this important seed. It will hold up in good condition longer than any. For compact growth and solidity and fine quality, it is without a peer; and as Mr. William S. Lippincott, of Morton, Pa., writes us: "I have been planting your Model Summer Cabbage for 5 years. It is the best and only reliable summer cabbage I ever grew."—SIMON WILCOX, R. F. D., FREEHOLD, N. J.

Moore's New Early Stonehead Cabbage. A highly Valuable Novelty. Will surely please all who plant it. A good type all by itself. An early, very hard, round variety maturing from 2 to 3 days earlier than our Early Ox- heart. Somewhat globe shaped, small ribbed leaves, small, very close and of fine, delicate texture; can be planted very close, about 20 inches in the row. A money maker for market gardeners, and very suitable for the home garden. Heads medium size, heavy and hard—solid as a stone—our customers say. It is a sure solid head, always produces a crop, the heads through hard never burst. The superb hard heads are excellent for making slaw or sauerkraut, and owing to their great solidity keep well when stored for winter use. A fine type for pickling in baskets. It is now extensively grown in all parts of the country and is universally pronounced a great success. Pkt. 10c., oz. 30c., 1/2 lb. $1.00, 1 lb. $3.50.

Moore's New Stonehead Cabbage

"Moore's Stonehead Cabbage is a very pure strain, in fact it is the best I have grown in 15 years. I have kept only 10 of the seed and the head would not grow. Neither worms nor lice bother them."—J. H. CRISPY, ROCHESTER, N. Y.

LARGE DARK RED DANISH.

(Danish Round Red.) We unsatisfactorily pronounce this the best of all late Red Cabbages, producing uniform large solid heads, a fine keeper, of a rich, deep red color, and the best of all late sorts for market. Many of the heads average eleven pounds each. It also keeps longer than any other variety, and never fails to head, and of close compact growth. Either for picking or table use there is no variety to equal it. Our seed is grown for us by a celebrated Dutch market gardener, and will give the greatest satisfaction to all. Pkt. 10c., oz. 30c., 1/2 lb. $1.00, 1 lb. $3.00.

IMPROVED EARLY RED DUTCH EFURST. By careful selection we have greatly improved this sort in size and color, and our improved strain is a sure guarantee of a fine quality for an early crop, will mature about 3 weeks ahead of our Large Dark Danish Drumhead. Very solid dark red heads of medium size. Good market sort. Pkt. 10c., oz. 30c., 1/2 lb. $1.50, 1 lb. $3.50.

RED ROCK. An old American variety. Not so large nor solid as our Large Dark Red Danish Drumhead. Pkt. 10c., oz. 30c., 1/2 lb. $1.00, 1 lb. $3.00.

BOSTON EARLY HARD HEAD.

No One Should Miss Planting This. This superb variety nearly equals our early hardhead in earliness and forming very much larger head. It is a very distinct type of cabbage and highly praised by hundreds of the most successful market gardeners all over the country. Very uniform in shape and general appearance, fine grained, small short stalk, and low growing. The heads are not too large, allowing them to be set out near together, it also has a very valuable quality of remaining much longer than any other, after full maturity, without corking or hardening. It is likewise an excellent sort for winter, and is probably the heaviest of all the cabbages in cultivation. It makes a fine basket cabbage. Try it. Pkt. 10c., oz. 30c., 1/2 lb. 75c., 1 lb. $2.50, 1/2 oz. and upward $2.25, per lb.

BRUNSWICK NETTED SAVOY. The Hardest Heading, and Best Variety for compact, solid and deliciously tender and sweet, and well adapted for either early summer or late autumn and winter use. Perhaps the "pits" of all winter crops. Entire "elbow" of a head. Walter P. Fenton, Convohoken, Pa., writes: "I have grown all the advertised kinds of Savoys, but found no other so good a keeper, it being in good market condition on the 15th of May. It also differs from all other kinds of Savoys in making heads as hard as a rock, standing late frosts in the field better than the Lee or Marvin strain. Its rich, sweet flavor of surpassing excellence and fine, early, netted look, make it equally valuable for early or late crops. Very quick to develop. Pkt. 10c., oz. 30c., 1/2 lb. 75c., 1 lb. $2.00.

AMERICAN EARLY DRUMHEAD. All the characteristics of the imported Drumhead. A sure head, larger and later than our famous Brunswick Netted Savoy. Pkt. 10c., oz. 30c., 1/2 lb. 50c., 1 lb. $1.75.

Market Gardeners well know how difficult it is to get a good and satisfactory strain of Savoy Cabbage. You will have no trouble whatever if you buy our Savoy Seed.

SUREHEAD CABBAGE. We are headquarters for this famous cabbage which was introduced 20 years ago (1877) and is still one of the best. It produces large round flattened heads of the Flat Dutch type, and is remarkable for its certainty to head. It is all head and always sure to head, we have never had any complaints about this sort. This is a very hardy and early growing variety, and ordinarily weighs from 10 to 15 pounds each. It is very sweet flavored, but few of these leaves, keeps well, is good for shipping, and is just the variety and quality to suit all lovers of good cabbage. Extra selected seed. Pkt. 10c., oz. 35c., 1/2 lb. 60c., lb. $2.00.
Moore's Famous American Grown Cabbage Seed

Moore's New Model Cabbage

What we claim for Moore's New Model Late Cabbage:

1st. Uniformity. In one field of three acres there was not a single plant thrown out, or that showed, in any respect, any variation from a true and valuable type.

2d. Uniformity and Solidity of Head. In this respect it is a vegetable wonder, as the heads are of about equal size and shape, weighing from 15 to 25 pounds each.

3d. Quality. Unlike most types, the heads are not watery and do not run up into the head nearly as far as in all other types, and the flesh is exceedingly firm, tender and white, making it a most desirable form for kraut, as well as for all other purposes for which cabbage is used.

4th. Hardiness. In this respect we have never seen a type which would favorably compare with Moore's New Model. The most severe winters ever known in this section did not inflict the slightest injury to the Moore's New Model. While all other kinds suffered terribly, not a head of this was lost, and while others have partially or totally dropped out, our fields of this give promise of an enormous crop; in fact, it is already secured, and at the present writing ready for the harvest. We think this point of hardiness of great importance to the shipper.

5th. Earliness. This type is remarkable for its quick-growing habit. We have noticed particularly this type, and find that it will mature its heads fully two weeks earlier than any of our late growing kinds. Let us be fully understood in this matter. If we set plants of any of our winter cabbages on July 1st, Moore's New Model need not be sewed before July 15th to August 1st—so short a period of growth for a winter sort. This excellent new variety is adapted to all climates, all soils—like all other cabbages thrives best in good rich soil.

Price of Moore's New Model Cabbage: pkt. 10c., 5 pkts, 35c., oz. 35c., 1/4 lb. $1.00, lb. $3.50.

HOLMES' Houser Cabbage.

Mr. Houser says: "No other variety can approach the Houser in quality, size, productiveness, smallness of heart and keeping qualities. It is remarkable what enormous crops are produced from this particular stock. To keep this seed pure requires an idea of attention and selection, insomuch that we have contracted with Mr. Houser, the originator of this cabbage, to grow for us yearly one pound of stock seed, for which we pay him about $60. This seed is then sent to one of our best growers, where it undergoes the second selection. Our contract with this grower is that he shall not allow a single grain of this particular seed to be sold to any other seedmen; consequently the pure and genuine stock can be had only from us direct, or from some of our regular wholesale dealers, to whom we sell the seed. It is very fine-grained, sweet-flavored, has but few loose leaves, is good for shipping, and is just the variety and quality to suit market-gardeners, farmers and all lovers of good cabbage."

A WARNING.—It is absolutely necessary to plant out the Houser Cabbage two weeks earlier than any other late sort, as it requires this much longer to mature than the Flat Dutch types or any other late variety.

Seed grown from the original as selected stock and procurable only from us or one of our special dealers. Pkt. 10c., oz. 35c., 1/4 lb. $1.00, lb. $3.50, by mail, postpaid, to your address.

MOORE'S DANISH "ROUNDHEAD" CABBAGE.

An Earlier Shorter Stemmed Type of the Famous Royal Danish "Ballhead." Of more robust growth, the heads are heavier and of equally fine quality. The original Royal Danish Ballhead Cabbage (introduced by us many years ago) is esteemed for the extreme solidity of the heads and great weight of free head qualities, as well as for its large and mature heads. It can be grown most successfully only in a comparatively cool location. Danish Roundhead has less outer foliage and is better able to resist blight, being, in most sections, as vigorous in growth as the best American types. The heads average larger and mature nearly two weeks earlier. The heads are unusually solid, and beautifully white when trimmed. They are splendid keepers when stored away for the late winter and spring, at which time the fine heads bring the highest market price. Crop short. Pkt. 10c., 3 pts. 25c., oz. 30c., 1/4 lb. 75c., lb. $2.50.

MOORE'S ALLHEAD EARLY CABBAGE.

Moore's Allhead is the earliest of all large cabbage, and considerably larger than any other early summer cabbage that is equally as early. The deep flat heads are remarkably solid and the most uniform in color, form and size of any variety. The hard heads grow so free from spreading leaves that fully one thousand more heads than usually with large cabbage can be obtained on the acre. It is really an all-the-year-round cabbage, being equally good for winter. Allhead Early is considered by many the best second-early cabbage—and we know all varieties. If planters everywhere only knew the excellence of Moore's Allhead Early Cabbage, even our large supply of seed would not suffice to meet the demand. It is undoubtedly altogether unequalled in many sections as an early summer Cabbage, and is fully as good for winter use, being really an all-the-year-round Cabbage. Our claims as to the merits of the Allhead have been fully sustained by reports from planters everywhere. The small illustration herewith of a single leaf was engraved especially from a photograph. Pkt. 10c., oz. 25c., 2 oz. 45c., 1/4 lb. 75c., lb. $2.50, postpaid.
THE WORLD'S BEST CABBAGE SEED
IS GROWN BY AND CAN ONLY BE HAD FROM US

NEW ROYAL DANISH BALL HEAD CABBAGE
PROCURABLE ONLY FROM THE MOORE SEED COMPANY, PHILADELPHIA.

The True Danish Round Head Type. It is the best of all the Danish cabbages. Early, hard head, short stem and the best keeper of all. Always commands a higher price than any other type of Danish cabbage. 40,000 pounds per acre is no unusual yield. The magnificent heads are nearly round, very hard and solid, and the best keeper of all the types of Danish or Hollander cabbages. A very robust grower, close outer foliage, never rots or blights in the field, and about two weeks earlier and shorter stem than the old type. The heads when trimmed are of a beautiful, attractive clear white. Pkt. 10c., oz. 30c., ½ lb. 75c., lb. $3.50.

WHAT ENTHUSIASTIC GROWERS SAY OF IT:

THE BEST CABBAGE IN NEW YORK STATE.—Gentlemen:

"I am both a grower and a shipper of cabbage. I planted 5 acres of your New Royal Danish Ball Head, and all who saw it, as well as myself, pronounced it the best strain of Danish Cabbage in New York State. My crop averaged 25c. tons per acre, and I did not lose one head from rot or blight."—S. J. Thomas, Ontario, N. Y.

THE Earliest to Mature.—I planted three kinds of Danish Cabbage last season, including your Royal Ball Head, which was ready to cut twelve days before the other. For solidity and long keeping it beats anything in my twenty-two years' experience."

JAMES CUNICK, ASHTABULA, O.

HAINES’ PERFECTION LATE BEAUTY

1. It is the surest heading American variety of cabbage.
2. It is known to flourish on all soils, north, south, east or west.
3. It is planted by more gardeners than any other late sort.
4. It is almost proof against the destructive cabbage worm.
5. It is the best winter keeper for the southern states.
6. It is the best to grow for home market.
7. It will produce the greatest money value per acre.
8. It is the best for the family garden.
9. It is the best to sell by the 100 heads or carload.
10. It is the best sort for the dealer to handle.
11. It is sure to head solid.
12. It makes a crop where other sorts fail.
13. It is worth many times the price we ask for it.
14. It is the best American variety for making fine quality sauerkraut.
15. It is sure to please everybody.

Our attention was first called to this new late cabbage by the raise, Mr. Albert Haines, of Ashtabula Co., N. J., who for many years kept in his own family and occasionally sold a little to his friends at $1.00 per lb. Many of those who grow it call it the "Greasy Head," owing to the peculiar dark, smooth, oily appearance of its outer leaves. This feature renders it quite free from the attack of the cabbage worm. This feature alone is of immense value to all who plant it. Our seed stock, being obtained direct from Mr. Haines, can be relied upon as being absolutely pure. All those who grow it pronounce it different and superior to all other late sorts. The interior is creamy white, compact and crisp, flavor especially fine. Produces enormous solid heads, averaging from fourteen to twenty pounds, and when especially grown will often reach thirty pounds each. We pronounce it the best for winter heads, and shipping on our market. If you grow this plant makes a beautiful large solid head, which we usually sell above the highest market for round heads of this type. It is a field of the strongest growers, yielding beautiful and round heads, and would make a splendid keepers for late winter or spring use, at which time they are remarkably fine heads and sell for the highest price. Pkt. 10c., oz. 30c., ½ lb. 75c., lb. $3.00.

NEW RUSSIAN ROUND GIANT
Large size, deep round heavy heads. Extem choice seed. Pkt. 10c., oz. 35c., ½ lb. 75c., lb. $2.50.

BURPEE’S ALL HEAD EARLY
A good second early, medium size, compact heads. Very pure stock. Pkt. 10c., oz. 25c., ¼ lb. 75c., lb. $2.50.

SEND US $1.00 AND SELECT SEEDS IN PACKETS AND OUNCES TO VALUE OF $1.50.
SEND US $2.00 AND SELECT SEEDS IN PACKETS AND OUNCES TO VALUE OF $3.00.
CARROTS—Best Market Sorts

We have exercised the greatest possible care in selecting the best varieties of carrots, and the careful manner in which the seed has been saved will insure our customers purity of strain and the most satisfactory results from sowing our Carrot Seed. Market gardeners will derive the greatest satisfaction from sowing our Carrot Seed.

Ox-Heart or Guerande. It is intermediate as to length between the half long varieties (such as Danvers) and the Short Horn Carrot, but much thicker than the latter, attaining at the top from three to four inches in diameter. Ov. 10c., ½ lb. 50c., 1lb. $1.00, lb. $1.25.

American Luc Half Long. (See cut.) The color of this valuable new sort is a rich shade of orange-red, and in shape and size midway between our Perfect Rubicon and Long Red Stump rooting variety, having the size of the roots, which are smooth, straight and free from roughness; early; without cores, very tender and sweet. Admirably adapted to either glass or open-ground culture; excellent for early or late. Ov. 15c., ½ lb. 35c., lb. $1.35.

New Perfection Rubicon or Model Carrot. (See cut.) In this new variety we have an entirely new and distinct American carrot; very symmetrical in shape and of a beautiful, deep golden orange color, without core. The stock is so finely bred and the carrots have attained such uniform shape that they are almost exact duplicates of each other. It is earlier than other varieties and has leaves and tops of larger size. It would make an excellent variety for growing under glass or outside at any season of the year. It grows without neck, the crown is hollow, and it grows well under the ground, which prevents it from becoming sunburnt—a very important feature. Its table qualities are unequalled, while the yield is enormous. Neither does it crack open like many other sorts. Pkt. 10c., ½ oz. 25c., 1 oz. 50c., lb. $1.35.

Chantenay. They are a little longer than the French Forcing, being thicker at the shoulder and hence more productive. Ov. 15c., ½ lb. 35c., 1 lb. $1.00.

LONG NANTES STUMP ROOTED. For second early or late; very uniform; handsome shape and color. Ov. 30c., ½ lb. 60c., lb. $3.00.

Danvers Pointed. A most excellent variety for either field or garden culture; large, symmetrical roots of a deep orange red; in size between the Half Long and Long Orange varieties. They are smooth and straight, and free from roughness. The tops are small, consisting entirely of the Danvers Stump rooted variety as a market sort, and much more productive. Our customers will find this a very fine type of carrot, showing marks of the highest breeding. Pkt. 10c., oz. 15c., ½ lb. 40c., lb. $1.25.

DANVERS HALF LONG. (Extra Stock.) Very smooth and fine in texture and easily dug. Ov. 10c., ½ lb. 30c., 1 lb. $1.00.

IMPROVED ST. VALLERY. The roots grow very regular and smooth; not as productive as our Long Red Surrey. ½ lb. 30c., 1 lb. $1.00.

Long Red Surrey. An improvement on the various types of Long Orange Carrot obtained by a careful selection for successive years of the best-formed and deepest-colored roots; it is larger, better flavored, of a deeper orange red; in size between the Half Long and Long Orange varieties. They are smooth and regular; the tops are small, consisting entirely of the Danvers Stump rooted variety as a market sort, and much more productive. Our customers will find this a very fine type of carrot, showing marks of the highest breeding. Pkt. 10c., oz. 15c., ½ lb. 40c., lb. $1.25.

MOORES CORELESS. (New.) Absolutely without woody core, delicately flavored, pointed root about 6 inches long, fine color, excellent for bunching. Ov. 15c., ½ lb. 40c., lb. $1.25.

Reselected Danvers Half Long. (Krewsen’s Stock.) Seed grown by a leading Philadelphia market gardener. Stump rooted, very smooth, fine in texture, extra dark color, finest quality, best market strain and heaviest yielder. Ov. 15c., ½ lb. 40c., lb. $1.50.

French Red Forcing. (See cut.) An excellent dark red coreless variety, about 3 inches long, with very small, short top, remaining tender, juicy and sweet a long time after being cut to pull. Its remarkably rapid growth and very small top render it one of the best and most profitable sort for sowing directly during the autumn for forcing during winter months. It can be allowed to remain quite thick in the ground. Fine trade will pay an extra price for this variety. Ov. 15c., ½ lb. 40c., lb. $1.25.

CARROTS—For Stock Feeding

We rank Carrots as high as hay and grain for feeding live stock. One acre of good carrots equals 350 bushels of oats and an acre will produce from 30 tons up. The staples of the largest and best teams in Philadelphia and other large cities are usually all winter and early spring Carrots, to which horses and other stock give their coats a gloss and aid them in digesting grain. Carrots are also of great value to dairymen, in that they greatly increase the milk. All prolong the flow of rich milk and prolong their feeding and are less grain. They are of special value for feeding during winter months.

Large Red Belgian. This new variety is undoubtedly the best of all sorts for feeding stock. It attains the largest size, and will yield more in bulk and grade than any other white sort grown. Uniformly smooth in form, they are easily harvested. The color is a dark orange red; flesh rich, solid, crisp and succulent. It is yield of 1500 tons per acre, is adapted to all soils, and we predict that it will soon become a general favorite as a cattle and, we pronounce it the best of all sorts for stock feeding. Ov. 10c., ½ lb. 30c., 1 lb. $1.00.

New Giant White Australian. This new variety is undoubtedly the best of all white sorts for feeding stock. This attains the largest size, and will yield more in bulk and grade than any other white sort grown. Uniformly smooth in form, they are easily harvested. Flesh rich. Pkt. 5c., oz. 10c., ½ lb. 25c., 1 lb. 50c., 5 lbs. $3.00.

WHITE VOSGES. This is a field carrot, and especially suitable for soils that are not very deep. Pkt. 5c., oz. 10c., ½ lb. 20c., 1 lb. 50c., 5 lbs. $2.25.
CAULIFLOWER

MOORE’S ITALIAN GIANT EARLY SUREHEAD CAULIFLOWER

Italian Giant Early Surehead is the very best early Cauliflower in cultivation, either for forcing under glass or outdoor planting, not excepting any variety, and we challenge the world to produce a finer, bolder, larger or earlier Cauliflower than our Italian Giant Early Surehead. It is remarkable for its extra earliness and certainty to produce fine, large, handsome, pure white, compact, heads of finest quality. Many heads often measure twelve inches in diameter. It is the earliest of all Cauliflowers, and is becoming the standard everywhere. Whether for forcing under frames, in greenhouses or open ground, it is the surest header in existence—"it is a gem." On account of its very dwarf and compact habit and short outer leaves it is peculiarly well adapted for forcing during the winter or early spring. Whoever essays to grow this moisture-loving vegetable, either for home use or market, should plant this variety. Of dwarf, compact habit and short leaves, enables it to be planted very close—20 inches apart each way. This sort has been the very best results wherever planted, for a late crop. While we originally recommended it for an early crop, we, as well as hundreds of our customers, find it superior to all other sorts for the pecon or autumn crop. The heads are very compact and deep, closely set and entirely free from any yellow or purplish tinge while young, thus insuring fancy prices. One grower, of twenty-nine years' experience, says he has "gotten fifty per cent. more satisfaction from it than from any other advertised early sorts." If you grow Cauliflower for home use, home market or to ship long distances, it is surely the best sort for you to plant. Spencer W. Cummings, Cramer Hill, N. J., writes: "I force four houses 20x100 of your Italian Giant Surehead Cauliflower every winter and find this variety decidedly more profitable than either Snowball or Snowstorm, and I have had both the later sorts from the introducers." Pkt. 25c., double pkt. 50c.

Moore’s Earliest Perfection. One of the earliest and best for forcing. Pkt. 20c., oz. $3.50, ½ lb. $12.50, lb. $18.00.

Selected Early Dwarf Erfurt. Small leaved dwarf, for open ground, producing pure white heads of fine quality. Pkt. 15c., oz. $2.50, ¼ lb. $7.00, lb. $27.00.

Gilt Edge Early Dwarf Erfurt. Excellent for forcing under glass as well as growing outdoors and a great favorite with many critical growers. Produces very large heads. Pkt. 25c., ½ oz. $1.35, oz. $5.00.

Improved Early Snowball. Extra quality. A really fine variety generally. Sure to head. We have the finest possible selection of this prominent variety. Pkt. 20c., oz. $2.00, ½ lb. $7.50, lb. $28.00.

Champion Dry Weather Cauliflower

This is an entirely new and valuable type of Cauliflower, producing large, solid, heavy, pure white heads a few days later than our famous Italian Giant Early Surehead.

On account of it being very deep rooted, which insures abundance of moisture, and having unusually large leaves which furnish greater protection to the heads, this sort is found to be grown perfectly in dry or warm weather. In localities subject to excessive dryness, this variety has produced beautiful large, heavy, tender heads when all other sorts failed. It will thrive anywhere in the United States or Canada. Many of our customers in Texas, Arizona, Oklahoma and New Mexico write that heads of the finest quality, weighing from 10 to 16 pounds, are not uncommon with them. By the use of our new Dry Weather-Strain and our Italian Giant Early Surehead, this delicious vegetable can be had at any season of the year. We may also say it is a grand good sort to plant for first early; it thrives even better on rich moist soils. In growing any kind of cauliflower it is essential that the ground be well enriched and well cultivated during the growing season. Don't fail to give it a trial, it will surely please. Pkt. 25c., double pkt. 50c., ½ oz. 75c., ½ oz. $1.35, oz. $3.50, ¼ lb. $8.75, lb. $33.00.

CHERVIL. Plant and uses similar to parsley. Pkt. 5c., oz. 10c., ½ lb. 25c., 1 lb. 80c.

CORN SALAD—FETTICUS or LAMB’S LETTUCE

Large-Seedied Italian Broad-Leaved. (True.) The largest and most productive variety for market. Oz. 10c., ½ lb. 35c., 1 lb. 80c.

BROAD-LEAVED DUTCH. ¼ lb. 15c., ½ lb. 40c., 1 lb. 80c.

This remarkable variety is easily grown in any garden and combines the following qualities, viz.: Earliness, size and productivity. Makes valuable forage for stock. Color of nut is white; large and of rich flavor. Growers of the "peanut" have always found ready sale at remunerative prices for their product. It does not require a rich soil. Plant in April, two inches deep, cultivate same as potatoes. Pkt. 10c., pt. 25c., qt. 50c., postpaid.

COLLARDS—GEORGIA WHITE. Extra quality. Pkt. 5c., oz. 10c., ½ lb. 25c., lb. 75c.

CRESS, or PEPPER GRASS

FINED CURLED. (Pepper Grass.) Pkt. 5c., ½ lb. 15c., lb. 40c.

Water Cress. One of the most appetizing, delicious flavored of small salads. It does fairly well in very most situations, but thrives best in shallow water, or edges of streams, where it grows most luxuriantly. Pkt. 10c., oz. 25c., ½ lb. 75c., lb. 4.50.

GEORGIA SWEET Prolific GROUND PEANUT or CHUFU
MOORE'S NEW SILVER SELF-BLANCHING CELERY

Combines the grand qualities of the three most popular celeries grown: The sturdy, solid habit of our California Mammoth Solid Golden Self-Blanching; the exquisite color and earliness of our Boston Mammoth White Plume, and delightfully rich flavor of our Sweet Nut. This grand new celery is easily described as a Golden Self-Blanching plant with White Plume coloring. It possesses the robust, sturdy, compact habit of Golden Self-Blanching, the stalks being even thicker, more solid and heavy, with immense solid hearts and all brittle, crisp and tender, free from string or pithiness, and of delightfully rich flavor. The foliage is tipped and variegated with white, while the heart, inner stalks and leaves are naturally white. It may be easily and quickly blanched by leaning boards on either side of the row. Its extreme earliness renders it valuable celery for the market gardener, and it does not “burn down” easily. In side-by-side tests with White Plume and Golden Self-Blanching, it outclassed them all in earliness, flavor, size and solidity of heart, and height of stalk and head, standing usually six inches higher than White Plume. Its foliage is green and white, its stalks are not stringy, tough or bitter, but tender, brittle, very sweet and of a nutty flavor. Leading Philadelphia market gardeners have it on the market June 26th. The seed can be sown earlier than any other sort without running to seed; this alone is a highly valuable feature to the market gardener. It is sure to bring large prices.

MOORE'S Selected Boston Mammoth White Plume Celery—THE FINEST AND BEST WHITE PLUME CELERY IN THE WORLD

This is an entirely new strain, having originated with a highly successful market gardener near Boston, who sent it to us for introduction. It has now been in our possession for nearly ten years, and we have thousands of pounds of it available for its robust size, as it grows unusually tall and thick, while the number of hearts it produces is simply astonishing. It is not desirable as a small and a popular plant, but under the right conditions it will remain in perfect condition as late as March 20th. It is a very rapid grower, “whites up” earlier, and is ready for market sooner than the old sort. The ribs are thick, long, straight, remarkably tender, crisp and rich flavored, and possess a beautiful creamy-white color, but their unknown flavor is completely pure, contains no green whatever and will surely give extra satisfaction to all, as it is the finest type of White Plume celery in the world. Market gardeners will plant it once, plant it always, because it always sells so well. Pkt., 10c., oz. 35c., ½ lb. $1.00, lb. $3.50.

SOLD FOR AN EXTRA PRICE

“I had the finest crop of Boston White Plume Celery last fall from your seed that was ever raised in this section. It was truly beautiful and so acknowledged by every one who saw it. I had plenty of stalks, pure white, two feet long, crisp and of elegant flavor. I sold every stalk at an extra price.”

O. A. DARLING, Jersey City, N. J.

MOORE'S New Giant White Arrezzo Celery. We enthusiastically pro-

nounce this the best and most profitable of all celeries for winter use. It is of unusually vigorous, sturdy growth, making immensely thick and heavy stalks and large heavy hearts, all remaining a beautiful light green until blanched by earthing up or being stored for winter. It blanches to a clear white, and the stalks are extremely brittle, entirely stringless and exceedingly crisp and possessing flavor surpassingly rich and nutty. Any market gardener who wishes the best and most profitable winter celery he can get will find it in our Moore's New Giant White Arrezzo.

Pkt., 10c., oz. 35c., ½ lb. $1.00, lb. $3.50.

New Broad-Ribbed or Sweet Nut Celery. The most deli-
celery ever introduced. It is the sweetest, crispest, tenderest, finest flavored and most solid of all celeries. No other sort equals it in these valuable qualities. Again, it will not burn down. It is a dense variety and very hardy. This is a new variety and we are the only concern to offer it. It grows well and it is a strong, vigorous grower, distinct and handsome in appearance, and of an exceedingly beautiful creamy-white color and texture. The flesh is very tender, and is edible almost to the top of the stems. We commend it to the private planter, who requires the highest quality, and to the market gardener, who wants to have the best for his customers and when thus fitted it is used. It is hardy, and an early or late crop. Blanches almost as freely as our famous Boston White Plume.

Pkt., 10c., oz. 35c., ½ lb. 50c., lb. $1.00.

M. & S. Matchless Giant Perfection Long-Keeping Golden Heart. A variety of rare merit. The most desirable type of Golden Heart celery known to the trade. Remarkable for its long, broad, thick ribs and numerous “inside hearts” of the finest golden color. This variety blanches easily, keeps remarkably long in perfect condition. The ribs are unusually solid, firm, crisp, tender and beautiful in appearance. This variety has been produced by careful crossing and high cultivation between the Dwarf Golden Heart and our White Walnut, by one of the best celery growers in this country. In quality, appearance and size this leave nothing to be desired. We can recommend it as one of the best late varieties for the market gardener, as its fine long, blanched appearance make it very desirable for private use as well as the market gardener. It is very hardy and is held in high esteem among our home gardeners.

Pkt., 10c., oz. 35c., ½ lb. 50c., lb. $1.00.

WINTER KING—Zurrenner's Stock. A strong growing type of golden heart, solid, fine quality and a good winter keeper.

Oz. 50c., ½ lb. $1.00, lb. $6.00.

SCHUMACHER CELERY. Selected. Pkt. 10c., oz. 35c., ½ lb. 80c., lb. $3.00.

M. & S. IMPROVED MAMMOTH CELERY. Pkt. 10c., oz. 35c., ½ lb. 75c.

SOPH CELERY. For flavoring. Oz. 5c., ½ lb. 15c., lb. 45c.

GOLDEN HEART OR GOLDEN DWARF. Selected stock. Oz. 20c., oz. 30c., ½ lb. 45c., lb. 2.00.

IMPROVED GIANT PASHAL. Very fine stock. Oz. 40c., ½ lb. $1.00, lb. $3.50.

WHITE PLUME. This color is a beautiful creamy-white; of exceptionally fine, delicious, nutty flavor, solid and crisp. Pkt. 10c., oz. 30c., ½ lb. 85c., lb. $2.75.

MOORE'S CALIFORNIA MAMMOTH SOLID GOLDEN SELF-BLANCH. Stalk a beautiful golden yellow, solid and heavy. This is the best type of Golden Self-Blanching Celery. Pkt. 30c., oz. 1.50, 2 oz. $3.00, ½ lb. $5.50.

GOLDEN SELF-BLANCHING. Imported seed from France, same strain as offered by other leading seedmen. Pkt. 15c., oz. 1.00, ½ lb. 2.50, lb. $9.00.

NE PLUS ULTRA. Best market sort. Very large and smooth globular-shaped root. The most profitable sort to grow. Pkt. 10c., oz. 30c., ½ lb. 85c., lb. $6.00.

PRAGUE. Selected stock. Pkt. 10c., oz. 30c., ½ lb. 20c., lb. 75c.

Celeriac, or Turnip-Rooted Celery.

NE PLUS ULTRA. Best market sort. Very large and smooth globular-shaped root. The most profitable sort to grow. Pkt. 10c., oz. 30c., ½ lb. 85c., lb. $6.00.

PRAGUE. Selected stock. Pkt. 10c., oz. 30c., ½ lb. 20c., lb. 75c.
SUGAR CORN

OF PRICELESS VALUE

Moore's First Early Table Corn. Every market gardener who wishes the earliest table corn of good quality can get should not fail to plant this exceedingly valuable sort. In our Moore's First Early Corn we have a truly remarkable and profitable extra early variety. It is positively the earliest table corn ever introduced. It is the hardest of all varieties of corn ever offered, having little or no effect upon it. On account of its extreme hardiness it can be planted from two to four weeks earlier than Crosby, Minnesota, Cory, Premeo or other varieties of sugar corn. We particularly caution our market garden friends to plant it at least two weeks earlier than they usually do their sugar corn, if they would secure all the advantages of this profitable extra early sort. This variety grows about six feet high, and nearly always bears two ears, and sometimes four well developed ears from six to nine inches in length. Leaves small and few; will bear very close planting. Ground should be well fertilized to secure its wonderful productiveness. The grain is deep, pearly white, very tender, sweet and juicy, considering its extreme earliness. The ears mature very rapidly and care should be taken to pull the ears while young. It required long and patient care, as well as the expenditure of much money, to develop this variety, and we assure our market garden friends they can easily amass snug fortunes if they will plant it liberally for large markets. Big profits await all who plant it. We advise our market garden friends not to be afraid to plant plenty of it. It is a great money maker, and you cannot make it easier, better or quicker than by planting Moore's First Early Table Corn. It is ten days earlier than Cory, besides worms do not bother it. There is no other early sort half so good; no other early sort that will make you half the money. Pkt. 10c., pt. 35c., qt. 60c., postpaid; by express or freight, pt. 25c., qt. 35c., 4 qts., 90c., pk. $1.50, bu. $5.50.

Hickman's Extra Early Three-Eared Sugar Corn. A remarkably valuable early variety for market, excellent quality, very productive, yielding from 2 to 3 bushels per acre. It is the result of many years of careful selection to secure earliness combined with large size, productiveness and fine quality by one of the most successful corn breeders of the State. It produces the largest and finest ears known in the world, with a large white, smooth, succulent grain. Pkt. 10c., pt. 35c., qt. 35c., 4 qts., 90c., pk. $1.50.

Golden Bantam. It is not only an extra early corn but also extra hardy. It is dwarf in growth, the stalks averaging four feet in height. The corn is 6 to 8 inches in length. The grain when ready for use is a rich creamy yellow deepening to orange-yellow as it ripens. It is the richest in flavor of all corn. While it is especially recommended for the northern states it is desirable also for warmer locations, both as an early corn for late plantings. Our selected strain, northern grown seed. Pkt. 10c., pt. 15c., qt. 25c., 4 qts. $1.00, bu. $4.25.

CROSBY'S EARLY. Qt. 25c., pk. $1.30, bu. $4.25.
MAMMOTH WHITE CORY. Qt. 30c., pk. $1.30, bu. $4.25.
EARLY EVERGREEN. Qt. 25c., pk. $1.30, bu. $4.25.
EARLY MAMMOTH. Qt. 30c., pk. $1.10, bu. $4.25.
COUNTRY GENTLEMAN. Fine market sort. Large ears of luscious quality. Qt. 25c., pk. $1.35, bu. $4.50.
Moore's New Snow White Evergreen Sugar.

This is without doubt the most valuable Sugar Corn introduced for many years past. It is white as chalk, while marble in color, very pure and clear. Those who have seen the boiling ears say, "I never saw any as white." All the large, handsome ears are filled with very deep thin grains of pearly whiteness and sweeter than any Sugar Corn grown. To see it is to buy it.

The largest Sugar Corn Seed grower in the United States wrote us that there was NO BETTER strain of White Evergreen Corn grown than our Moore's Snow White.

Moore's New Snow White Evergreen

Should be planted by all

Market gardeners, canners and all lovers of good sugar corn who will find it to represent the highest idea—white, sweet, tender, fine quality and productiveness. It is just the corn you have long been waiting for. Ears contain sixteen or more rows of beautiful and delicious deep grains. Two and occasionally three attractive large ears are produced on each stalk. Another valuable feature is the grains retain their tenderness and their sweetness longer than any other late sort. It is profit and satisfaction to all who plant it. It always brings fancy prices.

Our seed is limited, and we hope our many thousands of customers will send their orders in early, as we wish every customer to have plenty of this wonderful variety. Generally speaking, those who come first are best served. Pkt. 10c., qt. 25c., 4 qts. 80c., pk. $1.40, bu. $5.00.

Early Cosmopolitan

Fine second early. Ears 7 to 9 inches long. Pkt. 10c., qt. 25c., 4 qts. 80c., pk. $1.45, bu. $4.50.

Stowell's Evergreen

Pkt. 10c., qt. 25c., pk. $1.50, bu. $3.00.

New French Honey Sugar

Pronounced by those who grow it to be the most delicious sugar corn ever grown. It is a strong, vigorous grower and heavy yielder, with white grain of good size; it has 12 to 14 rows, and comes in after the earlier varieties. No stalk has less than two large ears. Just the sort for fine market trade, especially when sold direct to the consumer. Excellent sort for the family gardener. We cannot say too much in its praise. Pkt. 10c., qt. 25c., 5 pk. 70c., pk. $1.25, bu. $4.50.

Price's Perfection Early Sugar

One of the best second early varieties for market, excellent quality, very productive, yielding mostly two beautiful long ears per stalk. It is the result of many years of careful selection to secure earliness combined with large size, productivity and fine quality. The grain is deep and remains in "milk" a long time. Pkt. 10c., qt. 25c., 4 qts. 75c., pk. $1.25, bu. $4.50.

Cooper's Large Early Shoe Peg

We have obtained this delicious sort from Mr. Thomas Cooper, Newport, R.I., who has grown quite wealthy by marketing it to the most critical buyers in Boston and New York. The productiveness of this sort is simply prodigious. When grown on good ground and well suckered, ears of 10 inches in length are often developed. The cob is very small, the grain deep and of rich flavor. Stalks bearing 4 ears are not uncommon. We cannot recommend this sort too highly to all our customers. The ears are just the right market size and is a "mint" for all who grow for summer hotel trade. Pkt. 10c., qt. 15c., qt. 25c., pk. $1.50, bu. $5.50.

Moore's Late Concord, or Main Crop Sugar

It is strictly an evergreen sort; in remaining long in edible condition it ranks with the best, and is admitted to be the most "ever lasting" evergreen of all sweet corns. The ears are of extra large size, mostly 3 to a stalk, grains deep exceptionally tender and sugary, and has the advantage, as we said, of remaining longer in the green state than any other. Our stock has been carefully grown and selected. Pkt. 10c., qt. 25c., 4 qts. 75c., 5 pk. 60c., pk. $1.20, bu. $4.00.

Baltimore Market

A great favorite with Baltimore market gardeners, who prize it for its remarkably heavy yielding qualities. If by mail add 20c. per qt. Pkt. 10c., qt. 30c., 5 pk. 60c., pk. $1.30, bu. $4.00.

Sweet Corn for Fodder

Cattle highly relish it, and when fed on it keep in fine condition and give an abundance of milk. Prices subject to market changes. Qt. 10c., pk. $1.35, bu. $5.00.

COUNTRY GENTLEMAN

Pkt. 10c., qt. 25c., pk. $1.25, bu. $4.50.

HYDE'S EGYPTIAN. (True.) Pkt. 10c., qt. 15c., pk. $1.00, bu. $4.00.

LATE MAMMOTH

Pkt. 10c., qt. 15c., pk. $1.00, bu. $4.00.

If to go by mail add 10c. per quart on all varieties of Sugar Corn except where noted.
POOR MAN'S CORN

Possessing Magnificent Properties, Splendid Qualities and Tremendous Possibilities. The Most Valuable New Field Corn in the World To-day.

This great corn is the result of a series of crosses and subsequently by a continuous systematic selection, cumulative and permutative, culminating in the superior merits of its parents, we have evolved a superior new variety, which we take great pride in introducing to the market. This important cereal in the United States and all foreign countries. We have named it the Poor Man's Corn because it will produce more corn on poor, light soils than any other variety, its small size, handsome and full, with large, deep grains of a rich orange color, and very small red cob, rarely producing less than two ears to the stalk. Husks and shells easily. It is also adapted to a greater variety of soils than any other varieties, producing unusually well on light or heavy land, where other varieties would not thrive. fourteen well-grown corn 92 days, planted May 25th. One hundred and thirty bushes shelled corn to the acre are common on good corn ground, with good, but not excessive cultivation. Moreover, it commands the highest market price. It is destined to be planted largely. You should be among the first. Pkt. 10c., lb. 30c., 3 lbs., $1.50, postpaid paid. By express or freight, 1 qt. 50c., 2 qt. 40c., pk. 75c., ½ bu. $3.50, bu. $5.00.

Kansas Golden King Early Dent Corn

This glorious corn combines solid merit, grows large ears and matures early. The ear grows larger than the Learning Corn, and on poor, thin soil will yield 40 per cent more. For many years we have made the varieties of field corn a careful study and through investigation we have selected a choice of corn grown in nearly every State in the Union, and personally tested with the object to secure an early maturing variety that would yield the most shelled corn to the acre and at the same time command the highest market price. We are confident that we have attained this end in the Kansas Golden King Early Dent Corn from the Great Elk Hunt, Kansas. Will mature in from 90 to 95 days, stalks vigorous, growing from 6 to 10 feet high, and exhausting the soil, and as it roots deeply, it will stand the drought better than any other late sort. The grains, as shown in the illustrations, are unusually 6 in the illustration, and when dry & well-selected ears will make a bushel of shelled corn. This variety will yield from 10 to 20 bushels of corn to the acre than any other late sort. No matter whether planted on high or low ground, its yield is equally generous. From 90 to 100 bushels per acre will not be an unusual yield on good corn ground. It is sure to please all who plant it.

Price, carefully saved for seed, pkt. 10c., lb. 30c., 3 lbs., $1.50, postpaid. By express or freight, qt. 50c., 4 qts. 45c., pk. 75c., ½ bu. $3.25, bu. $5.00.

North Dakota Extra Early Prizetaker Dent Corn

This is without doubt the earliest yellow dent corn in cultivation, bright orange color, heavy stalks growing from 8 to 10 feet high, medium-sized ears, small red cobs, long deep grains, very rich in oil and starch, and the most prolific of all corn in the market. It will make a crop in any soil, and when dry & well-selected ears will make a bushel of shelled corn. This variety will yield from 10 to 20 bushels of corn to the acre than any other late sort. No matter whether planted on high or low ground, its yield is equally generous. From 90 to 100 bushels per acre will not be an unusual yield on good corn ground. It is sure to please all who plant it.

Price, carefully saved for seed, pkt. 10c., lb. 30c., 3 lbs., $1.50, postpaid. By express or freight, qt. 50c., 4 qts. 45c., pk. 75c., ½ bu. $3.25, bu. $5.00.
Figure it Out for Yourself

It costs but 35 cents for seed for 1 acre, freight included, for any of our improved varieties of seed corn; 50 acres of Diamond Joe's Big White will make you a yield of 4,000 to 5,000 bushels. 50 acres planted to common varieties will make you 1,500 to 2,000 bushels. Here is a difference of 2,500 to 3,500 bushels or less than a CENT PER BUSHEL FOR THE INCREASED YIELD, or a hundred times the cost of the seed. Figure it out for yourself.

DIAMOND JOE'S BIG WHITE

This wonderful new variety of white corn was originated and first introduced 4 years ago and is now acknowledged by farmers, planters and corn growers everywhere as the "King of all White Corn" for light, thin or sandy land. When we cataloged this corn the first year, although we had about 1,000 bushels of it, our entire stock was exhausted long before the season was over. Since then we have grown it much more extensively, but each succeeding year the demand for it has increased until we have always sold out long before planting time was over. Those who were fortunate enough to secure some of this corn won a prize, and everywhere doubled their yields on light land and without exception were well pleased. In fact it would make one gasp with astonishment to see and read the reports that came to us about the wonderful yields this corn has made on thin or sandy soil. From nowhere comes a word of disappointment, but all are enthusiastic and loud in its praise when harvesting time comes. "DIAMOND JOE'S BIG WHITE" is incomparable with any other white corn we have ever before grown or handled in all our 40 years' experience. It is especially well adapted to old, thin, or sandy land, and on good corn ground there is no variety in the world that makes more big bushels of good, sound, well shelled corn to the acre. It is absolutely free from barren stalks, every stalk bearing 1 to 3 well developed ears. It is very early to mature, making itself anywhere in from 90 to 100 days. It will thrive and do well in extreme drought. In short, "DIAMOND JOE'S BIG WHITE" is a superior variety of corn from every point of view over any white corn in the world. If you are looking for a white corn that will make you the most bushels and the most money on light land stop right now and order enough to plant your entire crop. It's the white corn that will do it. Pkt. 10c., lb. 30c., 3 lbs. 85c., by mail prepaid; pk. 75c., bu. $1.50, 2 bus. $3.75, by express or freight at purchaser's expense.

LONG'S DROUGHTPROOF

A New Yellow Dent Corn

Resists Drought and Severe Weather better than any other yellow variety. More corn fields have been ruined by the drought and hot sun killing the tassel and pollen this past season than the writer has ever known, and especially is this fact true in the great corn belt. This magnificent new yellow dent corn went on through 6 weeks of growing weather without a drop of rain, and the heat the most severe ever known in this section, and it has made a crop where other sorts failed on account of dry weather. All fields that leaned towards the hot sun burned up. The pollen on these fields was killed, therefore the silks was not fertilized; result, no grains on the cob. On the other hand, a large field of this wonderful strong-growing variety, which leaned toward the sun, kept green and yielded over 100 bushels per acre. We do not hesitate to say that, all points considered—it is beautiful corn; small cob, long yellow grains, large ears—taking all points combined, it is the finest drought-resisting yellow corn ever introduced, and each customer who gives it a trial will be fully convinced that it is the best 90 to 100 day corn he ever planted.

Droughtproof Corn is phenomenally excellent, and must be tried by all farmers. It will yield big crops wherever corn can be grown. We advise all our friends to try it.

Pkt. 10c., lb. 30c., 3 lbs. 80c., by mail, postpaid; by express or freight, not prepaid, pk. 75c., bu. $2.50, 2 bus. $4.30.
Moore's Earliest. Remarkable and Highly Valuable Early Cucumber. Has yielded $1,100.00 per acre. The superior and the best shipper of all White Spines. It is the variety that will return you the most money, no matter where you ship it. As an extra early White Spine Cucumber there is no strain equal to this. It is truly an evergreen, retaining its beautiful dark green color until fully ripe. It is a sport from our famous Green Fournier Cucumber. We have devoted a number of years to the careful selection of the finest specimens for seed purposes, and here are the result of our many thousands of customers. Color is dark olive green, white or light spines running from blossom end. It is the earliest and finest formed of all the strains, and the best for home market or shipping. It is smooth, tender, crisp, remains green on the vine and after picking. It is very hardy. We recommend this as the best strain of extra early White Spine for the market gardener. It seems to be peculiarly adapted to both northern and southern soil and climate, always developing symmetrical fruit of a beautiful dark olive green color, from six to ten inches in length. At the same time it gives the earliest picking and the largest crop of any known variety. The vines are robust and very free from disease, which is so devastating to many varieties. Indeed, the fact of its combining every good quality, its ready and quick sale in our market at double common sort prices, its fine appearance and its remarkable, astonishing productiveness led us to give it the name of Ideal. We hereby recommend same to all who desire a really matchless cucumber for shipping long distances, as it holds its beautiful dark green color longer than any White Spine hitherto introduced. Our word for it: Every cucumber grower should plant it. It will yield more money to the acre than any other sort. Pkt. 10c., oz. 15c., ½ lb. 45c., lb. $1.50, 5 lbs. $5.50, postpaid.

Important to the Planter. All our Cucumber Seed is very carefully grown under our own supervision, from very carefully selected stock seed. No two crops of seed are grown in succession on the same ground, thus avoiding all possibility of blight from this source. We also practice this policy in growing all our tomato, melon and potato seed. The careful and intelligent planter will at once realize that this method renders our seeds much more valuable than seeds grown in the usual way by others, and market gardeners, large planters and associations will get none but the very finest quality of this important seed from us, and we are prepared to furnish any quantity our largest planters may require.

MATCHLESS WHITE SPINE

This private strain we have had over ten years, and it is the most thoroughbred, uniform and shapely variety known among the White Spine type, not only for first early but for general crop as well. In purity it is unequalled. Vines are vigorous growers, heavy and long continuous yielders. Keeps green longer than the yellow varieties. No sort excels it in crispness and flavor. Every market gardener and planter knows how difficult it is to secure pure cucumber seed, and as this sort is absolutely without mixture, we are sure it will be quickly appreciated by all critical growers.

Early Fortune. Originated near Baltimore, Md., and is a fairly good type of early long White Spine. Our stock is very pure. Oz. 10c., ¼ lb. 25c., lb. 75c., 10 lbs. $7.00.

Burrell's Early Klondike. Early, smooth, long and of good deep green color; good shipper, pure stock. Pkt. 5c., oz. 10c., ¼ lb. 25c., lb. 75c., 5 lbs. $3.25, 10 lbs. $6.00. Large buyers of any kind of cucumber will be quoted special prices upon stating quantity wanted.

TAILBY'S HYBRID. True. Oz. 10c., ¼ lb. 25c., lb. 75c.

California Gem. A remarkably fine sort of the White Spine class. A great favorite in all markets. Long and symmetrical. Its wonderful yield, coupled with the high prices it sells for, makes it very profitable for the grower. A real good thing. Pkt. 10c., oz. 30c., ¼ lb. 60c., lb. $1.00, 5 lbs. $5.50.

PEERLESS WHITE SPINE. Heavy cropper. Oz. 10c., ¼ lb. 25c., 1 lb. 75c., 10 lbs. $7.50.

DAYS PERFECT. New. Oz. 10c., ¼ lb. 25c., lb. 85c.

Arlington White Spine. A rich dark green color, averaging seven to eight inches in length. Very fine type. Pkt. 5c., oz. 10c., ¼ lb. 25c., lb. 75c., 5 lbs. $3.00. EARLY SHORT GREEN. Oz. 10c., ¼ lb. 25c., lb. 75c., 5 lbs. $5.50.

Boston Market or Prize-Taker. A great favorite in the Boston market. Immensely productive, fine picking variety. In length it is medium between the White Spine and Long Green. Very thick through and full at both ends, presenting a beautiful type. An excellent market sort. Pkt. 5c., oz. 10c., ¼ lb. 25c., lb. 85c.

LONG GREEN TURKEY. Pkt. 5c., oz. 10c., ¼ lb. 25c., lb. 75c.

Fordhook Famous. Always straight and well formed, they never turn yellow, and critical buyers are willing to pay an extra price for market for these unmailed fruits. The originator says it is undoubtedly the finest long-fruited strain in cultivation. Oz. 10c., ¼ lb. 25c., lb. 75c.
Moore's Gladiator Cucumber. This cucumber is a second early or late variety and surpasses all others of its class in beauty, delicious flavor, and size. A single plant will often yield fifteen magnificent long, crisp cucumbers, from ten to fifteen inches in length. It is pre-eminent in the finest set grown for slicing, being very brittle and crisp in all stages of growth. It is of a beauti-
tful clear dark green color, very even and smooth and straight. The green cucumbers are fit to eat at any stage, the flesh is entirely white, very clear, peculiarly crisp, tender and brittle. It is likewise a grand sort for "salting" or pickling and will always outyield any similar sort. Pkt. 25c., oz. 10c., lb. 30c., lb. $1.00.

Paris Early Cluster. This is the most remark-
able and valuable of all pickling cucumbers, and our illus-
tration gives a very clear idea of its wonderful produc-
tiveness. For several years we have made cucumbers for pickling a study, testing and originating new sorts for this purpose, and now we think we have perfected it in our Paris Early Cluster. It is short (just the right length), bearing innumerable clusters near the root, of fine form, solid and crisp in texture, excellent in quality, and combines all the elements to make it a superior pickle as well as for slicing. Its productive-
ness is marvelous, cropping from 20 to 40 bushels per acre on good ground. We are sure our market gardeners will find it by all means the best in America, and to always command the highest market price. Over 30,000 of our customers planted this valuable variety in 1905, and all pronounce it the Ideal sort for commercial pickling. Pkt. 5c, oz. 10c., lb. 30c., lb. $1.00, $5 lb. $4.50.

English Pickling. The vines are excess-
ively productive, being covered with a curious little fruits, make
delicious sweet pickles. Don't fail to try them. Pkt. 10c., oz. 25c., lb. 50c. $1.00.

WEST INDIA GHERKINS. A very small, oval, prickly sort, distinct from all others. Pkt. 5c., oz. 20c., lb. 50c.

Queen's Golden Cucumber. New, extensively grown in China and held in great esteem by the wealthy there, owing to its delicious qualities. We hope every one of our customers having a garden will give it a trial. Pkt. 10c., oz. 25c., lb. 50c.

Japanese Climbing Cucumber. It bears abundantly throughout the season, while the
climbing habit enables the hanging fruit to grow perfectly
straight; the cucumbers are thick, tender, and of delicate flavor; when young made an excellent salad. Pkt. 25c., oz. 10c., lb. 25c., lb. 50c.

New Giant White Cucumber. The flesh is very solid, pure white, with excep-
tionally fine seeds, and is exceedingly crisp, of most superior flavor. Pkt. 5c., oz. 15c., lb. 40c.

Serpent, or Snake Cucumber. A remarkable and very
interesting curiosity. The cucumbers grow curled up like a snake with the head protruding and some-
times are five feet in length. Pkt. 5c.

DANDELION

The Dandelion resembles Endive and is sometimes cultivated for spring
greens, or for bunching for salad, also a valuable remedy for diabetes. Many
market gardeners, and especially those near large cities, will find this to be a
very profitable crop.

FRENCH or CABBAGING. An improved thick-leaved early variety, double
the produce of the common dandelion planting. Very pro-
fittable to grow for market. Pkt. 10c., oz. 25c., lb. 50c., lb. $1.00, lb. $3.50.

CELERI-ROOTED FENNEL. Cultivated same as parsley. Thickened
parts of the root should be covered with soil, similar to celery. Pkt. 10c., 3
pkts. 35c., oz. 25c., lb. 50c., lb. $1.00, lb. $3.50.

FENNEL
Superior Varieties of Egg Plant

Our Highly Bred and Critically Selected Types are Superior in Color, Shape, Size and Productiveness, and Unequaled for Home Market or Shipping. Our Varieties are Money Producers

**NEW EGG PLANT**

**MOORES EARLY BLACK BEAUTY**

MOORES EARLY

grown every year. Hundreds of our most critical growers prefer it even to our famous Moore’s Early Black Beauty. Fruit round, of a handsome purplish black; very few seeds; early; enormously productive and superior quality. We believe it to be the ideal sort for the market gardener and shipper. A good keeper and the best long distance shipper we know of. Pkt. 10c., 3 pkts. 25c., oz. 50c., ½ lb. $1.50, lb. $5.50.

**EARLY PURPLE TOKIO**

(New.) This grand new sort is from 5 to 8 days earlier than any other large fruited sort. This is a highly valuable feature, besides it is the most productive sort we ever saw. Each plant will yield from 15 to 20 beautiful large fruits a season. It will thrive anywhere an egg plant will grow, and is being more extensively used every year. It is a continuous producer of large, handsome, purple fruits. Pkt. 10c., oz. 35c., ½ lb. $1.00, lb. $3.50.

**MARSHALL’S NEW HIGH BUSH**

This is said by many of our customers to be the king of Egg Plants, especially to those who grow for market. It is no less valuable to those who grow for their own table. This is the result of years of careful selection from our well-known New Jersey Improved, which has given such universal satisfaction to the many thousands who have grown it. Moore’s Early Black Beauty is absolutely the most productive and best selling large black fruited Egg Plant grown. The skin is of a beautiful deep lustrous black color and does not turn yellow in transit; flesh very white, tender and of superior quality. The entire plant is spineless, of a low, stocky branching habit, a continuous producer and very thrifty growth, with no disposition to blight like the older sorts. All say it is a perfect “Beauty.” No seed saved from diseased plants. Always sure to yield a heavy crop, and very desirable for shipping. Northern market gardeners and shippers will find this variety the very best in cultivation. It will average from 10 to 12 fine fruits to the plant. The best variety of Florida plants. Mr. T. Lane Moore, Manager for John Simon, Commission Merchant, Philadelphia, says: “Your Moore’s Early Beauty Egg Plant is the finest that comes to this market.” There are many other strains, but we regard this as being the best. Pkt. 10c., ½ oz. 25c., oz. 40c., ¼ lb. $1.25, lb. $4.00.

**IMPROVED NEW YORK SPINELESS**

We have a very superior type—one better in fact—of this noted variety. It is a continuous producer of large, handsome, purple fruits. Pkt. 10c., oz. 35c., ½ lb. $1.00, lb. $3.50.

**FLORIDA EARLY PURPLE**

A very distinct, very early, and extremely valuable where very early egg plants are in demand, and on account of its earliness it will mature its fruit farther north than any other sort. Owing to its extreme earliness, productiveness and good carrying qualities, it will be found extremely profitable to all who wish an extra early maturing sort. Will mature from three to four weeks earlier than any other sort. Plant compact; fruit numerous, of a beautiful deep purple color, about four inches long, and exquisitely fine quality. Sure to please all who wish early egg plants. Pkt. 10c., 3 pkts. 25c., oz. 50c., ½ lb. $1.50, lb. $5.50, postpaid.

**ITALIAN LONG WHITE**

Matures same time as our Purple Tokio. Fruit long, slightly curved and said to be the most delicious of all egg plants. Pkt. 10c., 3 pkts. 25c., oz. 50c., ½ lb. $1.50.
Moore’s Mammoth Green Curled Italian.  Very large, valuable, new sort, also
bountifully yielding, earliest blanched, longest keeping, best selling and the
most profitable sort to grow for the home market or long distance shipping.
It is a universal favorite with all who plant or sell it either for home use or market.
Every Philadelphia grower buys his seed from us. Leaves beautifully
curled, tender; of an attractive green color and blanched easily. The
centre is very close and full.

Moore’s Mammoth Green Curled Italian Endive.

MOORE'S EARLY SASH LETTUCE

A Delicious First Early Lettuce. A grand new early head lettuce. It is the tenderest and most delicate eating of all the lettuce family. This finely cut sort is pre-eminent well adapted for growing under glass and is unsurpassed by any variety now on the market. Pkt. 10c., oz. 25c., ¼ lb. 75c., lb. $2.50.

MOORE'S EARLY CABBAGE HEAD LETTUCE

A Grand Large Early Cabbage Lettuce. Wins Praise from All Users.

PRODUCES IMMENSE SOLID WHITE HEADS, 8, 10 and often 12 inches across. The Ideal Lettuce for First Sowing, either under sash, "cotton," or open ground borders. Unsuspected as an early market variety for either Northern or Southern growers. Very tender and will remain in good condition longer than Big Boston. If you grow early lettuce to ship long or short distances, it will make you better money than any other sort.

It has required years of careful crossing and selection to bring this up to its present high standard. It is in fact an all-season's lettuce, as the testimonials from some of the leading and largest lettuce growers in the United States show. Whether grown in the open ground for summer or fall use, or in frames for spring or forced in cool greenhouses for winter use, it always gives both the grower and the user the utmost satisfaction, producing during all seasons splendid large crisp, tender, and perfect heads. It is adapted to all parts of the United States. The heads are large and firm, very tender, crisp, and clean white inside, and of a beautiful shade of light green on the outside. It is well adapted to spring, summer and autumn crops, and will produce the finest marketable heads where other varieties fail utterly. It will withstand more severe weather than any heading sort known, which not only makes it very valuable for a late fall crop in northern States, but to the growers of the South this cold-resisting feature makes it invaluable. Pkt. 10c., oz. 25c., ¼ lb. 50c., lb. $1.75.

WHY NORMANDY STONEHEAD

Heat resisting: a sure header; slow to run to seed; not affected by the hottest weather. This superb new variety was sent to us by one of the largest and most successful market gardeners in Normandy, France, where it is grown to the exclusion of almost all other varieties. Normandy is noted for its hot, dry summers. Notwithstanding this, the White Normandy produces large, solid heads during the entire season. The trials we have made of it during the past three years in various parts of the country show it to be a remarkably valuable variety for the United States. The heads are large and firm, very tender, crisp, and clear white inside, and of a beautiful shade of light green on the outside. It is well adapted to spring, summer and autumn crops, and will often produce the finest marketable heads where other varieties fail utterly. It will withstand more severe weather than any heading sort known, which not only makes it very valuable for a late fall crop in northern States, but to the growers in the South this cold-resisting feature makes it invaluable. Pkt. 10c., oz. 25c., ¼ lb. 50c., lb. $1.75.

CALIFORNIA GIANT FORCING

Every plant, heads, and the heads are uniformly perfect in size and shape, and thick through, and of a solidity equal to that of a cabbage. They measure about ten inches across the solid head. The leaves are slightly crumpled, of a beautiful white color, and for tender- ness it is unsurpassed by any existing variety. It heads very rapidly. A great favorite with professional and home market gardeners everywhere, both North and South. It is especially valuable for open-ground culture and for growing under cotton or a late crop under sash. As a shipping sort it is the best carrier of all and always sells for an extra price. Every lettuce grower who plants it will be delighted with it. Be sure to give it a trial on good rich soil. Pkt. 10c., oz. 25c., ¼ lb. 50c., lb. $1.50.
HOPKINS' BIG BOSTON LETTUCE

THE King of This Type of Head Lettuce. Immense Heads as Solid as a Cabbage and of Quality.

This magnificent strain of Big Boston Lettuce is the result of a very careful and intelligent selection of one of Philadelphia's most successful market gardeners. After giving careful and severe tests ourselves, as well as in the largest lettuce growing sections of the United States, we became so well satisfied of its superior quality in all respects over other existing types that we decided to offer it to our many thousand market garden customers throughout the world. It is a great keeper, a true one-distance shipper, and we especially recommend it to all lettuce growers who ship long distances. It seems to have little or no tendency to go to seed, which is a highly valuable feature for all lettuce growers. It will stand longer on the ground and hold up longer after being cut than any type of Big or Large Boston Lettuces you ever had. It is acclimated as one of New York's best systematic growers and it is the only one of this type of lettuce which we carry.

HOPKINS' Big Boston Lettuce

is different and better than all other types of Big Boston. It is brother grown in a climate with a view of producing larger heads, with leaves of finer and crispier texture, larger leaves, more compact heads and heads that will stand longer without going to seed, and to have 100 plants produce 100 beautiful heads of superior quality.

NEW TURKISH BUTTER LETTUCE

The Great Hot Weather Lettuce. Immense Heads—12 to 15 inches across. Blanches Beautifully, is Crisp, Tender, Sweet and Absolutely Free from Bitterness. In short, it is the Acme of Perfection for a Spring and Summer Lettuce. It heads during hot, dry weather, when no other sort will.

Those who like a cabbage lettuce, with rich, buttery leaves of great substance, will be thoroughly well pleased with this new variety from Turkey, which is accurately shown in the illustration herewith, engraved from a photograph. It stands hot weather without becoming bitter or running to seed, and bears beautiful, large, solid, creamy white heads of superb quality and of delicious, rich, buttery flavor, crisp, tender and delicious. It is the lettuce of many years' careful and severe experimentation by us. It is a deep rooted, resisting hot, dry weather to a remarkable degree. The outer color is a deep apple green. It is now very extensively grown by thousands of market gardeners in all sections of the country and from whom we receive most gratifying reports. It has come to stay, and has been both a summer crop hot weather lettuce. It has few outer leaves, and we have every confidence, absolutely, that it is an absolutely exceptionally slow to run to seed, and it will stand in good condition fully two weeks after it has headed up. It is much quicker to mature than either Big Boston or Mammoth Salander. Most highly recommended for family gardens or the market gardener who wishes fancy prices for what he grows. We highly recommend it for early spring and early fall planting. It never shows a brown or yellow heart. Pkt. 10c., oz. 50c., lb. $1.20.

A MAGNIFICENT SUMMER LETTUCE.—"I have been trucking 21 years and have been planting my Turkish Butter exclusively for my summer crop. When I tell you it is a magnificent summer lettuce and that I would not be without it, had only you tasted the results! I was first induced to plant it by me; 22 heads filled a flour barrel. They were beautiful large, solid, firm heads too."—ISAAC M. JONES, WILKES-BARRE, PA.

MOORE'S NEW SUMMER GEM

This is undoubtedly one of the largest heading varieties of all summer lettuces and particularly valuable for summer planting. The heads are large, from 12 to 16 inches across; form up rapidly and are of a beautiful creamy white color, very crisp and tender. Market gardeners in warm sections write us that it heads up uniformly and is among the most salable lettuces they ever had for summer use. Excellent for private gardeners. It should have abundance of water. Don't fail to try it. Pkt. 5c., oz. 25c., lb. 60c., lb. $1.20.
LETTUCE—HIGH GRADE VARIETIES (Continued)

NEW ROMAINE CELERY

A GOOD NEW LETTUCE. Very profitable to grow. This new sort produces an unusually snowy white color, and a large compact solid head. Very sweet and tender, it is preferred to all other varieties of Lettuce. At Paris, where large quantities of it are grown for market, it is known as “Parisian Celery Lettuce.” It grows to a height of 10 inches high, and will blanch without tying. It is the best keeper and carrier. Pkt. 10c., oz. 35c., 1/2 lb. 75c., lb. $1.25.

EXPRESS SALE: Big, very early white variety, not as large as nor as productive or desirable as our New Romaine Celery. Pkt. 10c., oz. 35c., 1/2 lb. 30c., lb. $1.00.

PARTIAL WHITE HEART or TRIANON. Produces long-pointed, compact bunches, which have to be tied to blanch. Oz. 15c., 1/2 lb. 35c., lb. $1.25.

MAMMOTH SALAMANDER. Extra selected stock. Large heads, resisting summer heat. Very fine strain. Oz. 10c., 1/2 lb. 30c., lb. $1.00.

HARRISONS SUMMER DRUMHEAD. Good summer sort. Large, solid, very tender heads. Pkt. 5c., oz. 15c., 1/2 lb. 40c., lb. $1.00.

AMERICAN BLACK-SEEDED LETTUCE. Extra selected stock. Large heads, very fine flavor and unsurpassed for eating raw, cooked, canned or preserved in any form. Pkt. 10c., oz. 35c., 1/2 lb. 75c., lb. $1.25.

NEW ROMAINCE LETTUCE. Extra selected stock. Oz. 15c., 1/2 lb. 30c., lb. $1.00.

NEW SENSATION. Extra selected stock. Oz. 15c., 1/2 lb. 45c., lb. $1.50.

MOORES MAGNUM BONUM. Oz. 20c., 1/2 lb. 60c., lb. $2.00.

BLACK-SEEDED SIMPSON. Oz. 15c., 1/2 lb. 30c., lb. 90c.

ARLINGTON TRUMBLE. Extra selected stock. Good shipper and very profitable to grow. Oz. 30c., 1/2 lb. 60c., lb. $2.00.

KING'S HYBRID. Pkt. 10c., 1/2 lb. 45c., lb. $1.50.

BOSTON WHITE HOT HOUSE. Extra selected stock. Large, solid, very tender heads. Pkt. 5c., oz. 15c., 1/2 lb. 40c., lb. $1.00.

SPECIAL KIRK'S GRAND RAPIDS. (Sloan's Stock.) Better color and very compact. Pkt. 10c., oz. 35c., 1/2 lb. 75c., lb. $1.75.

NEW FRENCH POULTRY LETTUCE. Probably every poultry raiser knows how desirable better poultry are to eat lettuce, how they seem to enjoy it, and when opportunity offers, to actually fight for it. The French and Belgians are said to produce the finest flavored poultry grown, and largely attributed to their great success to the green they feed their fowls on. After considerable expense and trouble we have succeeded in obtaining some of this valuable variety for our customers. It is a very strong grower, a small plot of ground will yield a prodigious quantity of this edible plant, both for human and poultry food which make it so valuable to the poultry raiser. All kinds of poultry eat greedily—chickens, ducks, guineas and poultry fed in connection with other foods it keeps them in the best possible physical condition, and greatly increases the egg production, as well as imparting a delicious flavor to the fowl when cooked. It is a very cheap food, and very easily grown. We re 10 or 100 lbs. at $1.25, $8.00.

SPECIAL KIRK'S GRAND RAPIDS. (Sloan's Stock.) Better color and very compact. Pkt. 10c., oz. 35c., 1/2 lb. 75c., lb. $1.75.

A FEW OF THOUSANDS

GENTLEMEN—"I had the earliest and finest tomatoes in Henderson county this year, all grown from your seed."—J. G. HOLT, B. J. HENDERSON, TENN.

"Your Cabbage seed is the best in this section, and we pronounce your IXL Tomato all O.K. It's a wonder."—W. C. BELLAMY & SONS, VICTORIA, FLA.

TWO RECENT NOVELTIES

THE WONDERBERRY. (We herewith give the introducer's description of it.) Fruit more like a great, rich, luscious blueberry than any known in America. The fruit is large in size, about the size of a half dollar. It ripens in July. It is rich in flavor, of unusual substance and of superior quality. It does not seed. Price, each, 15c., 3 for 25c., 7 for 50c., 15 plants for $1.00 by mail, postpaid.

HOLT'S MAMMOTH SAGE. The plants are of strong growth, attain a height of 1 foot the first season and spread so that a single plant covers a space 3 feet in diameter. They are perfectly hardy and make a still larger growth the second season. Our illustration shows a leaf of natural size; they are borne well above the ground, are strong in flavor, of unusual substance and of superior quality. It does not seed. Price, each, 15c., 3 for 25c., 7 for 50c., 15 plants for $1.00 by mail, postpaid.

A Leaf of Holt's Mammoth Sage (Plants only)
**Musk Melons**

**The Most Profitable Ones to Grow**

**Important for You to Know**

That for many years we have been one of the largest growers of Melon Seeds in the United States, and we supply every season over our counter hundreds of truck gardeners with our superior strains, and ship many thousands of pounds to the largest melon growers of the South and West. We attribute the popularity of our melon, as well as of other seeds, to our careful selection of the very finest specimens of our seed stocks, thus improving and breeding up our stocks to the highest state of perfection. Many of the best and most popular melons now known were first introduced by us. Correspond with us for SPECIAL PRICES if Seed be wanted in large quantities, no matter whether it be 1,000 pounds or upward of any one variety.

---

**NEW ORDWAY PINK**

It gives us much pleasure to be able to offer our customers a limited quantity of this grand musk melon, which originated near Ordway, Colorado, and which we introduced in 1006. Many melon grower’s will make a mistake in planting it. It has a tough, thin rind, which reaches the seeds. The seed is closely held in place in three lobes. (This is one of the first points to consider in a shipping melon, as, if the fibrous growth containing the seed is flaked off, the seeds soon shake loose and the melon as quickly begins to decay.) It is an abundant yielder, often producing from 25 to 25 delicious melons to the hill. The rind is covered with a closely laced gray netting, except between the ribs, which is not netted. The blossom end is well protected. Shape oblong, averaging six inches long and tapering at the ends. It is an excellent shipper and will carry nearly two weeks without ice. This melon has brought hundreds of growers highly profitable returns and it will pay you to grow it. Stock seed. Pkt. 10c., oz. 10c., 1/2 lb. 25c., lb. $1.50, 5 lbs. $3.50, postpaid.

**Burrell Gem (Stock Seed).**

This seed is cut from melons of the finest possible selection to uniform size, shape, netting and quality. In fact it is saved with the same care as we exercise in breeding up a new variety. Oz. 10c., 1/2 lb. 50c., lb. $1.00.

**Thoroughbred Rocky Ford—Cantaloupe Watter’s Solid Net.**

The melons are very uniform in size. As grown for seed nearly our entire crop averages the right size to pack 40 melons to the standard crate. We have supplied this strain of seed to many critical planters for six years in succession, and have each year doubled our supply, and even then have been unable to supply the demand. This melon has remarkably good keeping qualities. We have known them to cut in prime condition twelve days after picking.

**Thoroughbred Rocky Ford—Watter’s Solid Net (Stock Seed).**

In saving this seed, which is the finest possible selection, every melon is passed upon, which makes it an ideal melon for growing, shipping and eating, and we feel confident in saying no finer strain has ever been produced. Pkt. 5c., oz. 10c., 1/2 lb. 25c., lb. $1.00, 10 lbs. $9.25, 25 lbs., $31.00, 50 lbs. and upward 80c. per lb.

**Eden Gem Cantaloupe (Stock Seed).**

The earliest of all the Rocky Fords. This is a wonderfully profitable new melon. It has scored the highest wherever exhibited, over all competitors. It has the heaviest, thickest flesh and smallest seed cavity of all cantaloupes. Our Eden Gems made their high score on solid white netting, thickness of flesh, and large percentage of sugar they contained. The first strain of “lopes” to ripen at Rocky Ford, Colorado, of crop 1904, was our Van Buskirk’s Eden Gem, and sold for $20.50. The first car was shipped August 17 to Olivetti Bros., New York City. There is no trouble to sell them at the fanciest of prices. They are sold when green, and will carry in perfect condition for a week or more after its removal from the vine. It is a heavy cropper, and is in wide favor as a market melon. Indeed, its ability to bear transplanting without breaking down has made it one of the most profitable of crops, and explains why it is so universally grown. It is absolutely the earliest of all green-fleshed melons, and we particularly recommend it to all whose object is to be first in market. It is more largely grown in the great melon-producing State of New Jersey than any other sort, with the possible exception of our Early Seed Melon. It is used in enormous quantities in the Eastern cities and at the seashore resorts. Uniform size, of fine shape and appearance, green fleshed, extremely delicious, are sold readily in our market at from $1.25 to $2.00 per dozen, the profit on an acre being something enormous, as the melons are usually sold before other sorts come into the market. Pkt. 10c., oz. 15c., 1/2 lb. 50c., lb. $1.50.

**Matchless Early Musk Melon**

It is a small melon, weighing 114 to 118 pounds. The flesh is deep and thick, and light green in color, except next the seeds, where it inclines toward yellow. The flavor is exceedingly fine. The skin is green, regularly ribbed and thickly netted. It is a firm, rich, and succulent melon, and is in wide favor as a market melon. Indeed, its ability to bear transplanting without breaking down has made it one of the most profitable of crops, and explains why it is so universally grown. It is absolutely the earliest of all green-fleshed melons, and we particularly recommend it to all whose object is to be first in market. It is more largely grown in the great melon-producing State of New Jersey than any other sort, with the possible exception of our Early Seed Melon. It is used in enormous quantities in the Eastern cities and at the seashore resorts. Uniform size, of fine shape and appearance, green fleshed, extremely delicious, are sold readily in our market at from $1.25 to $2.00 per dozen, the profit on an acre being something enormous, as the melons are usually sold before other sorts come into the market. Pkt. 10c., oz. 15c., 1/2 lb. 50c., lb. $1.50.
Four Wonderfully Profitable New Melons

MOORE'S GOLD LINED ROCKY FORD CANTALOUPE

The most delicious green-fleshed Cantaloupe and best selling.

It is a big money-maker, in the fullest sense of the word, for all who grow it.

This strain of the Eden Gem type is the result of several years selection by one of the most progressive muskmelon growers of Rocky Ford, Colo., and who made a very comfortable fortune in growing this one variety for the Philadelphia, New York and Boston markets, where he sold carloads of this one Variety at very high prices on account of its delicious eating qualities. Its shape is ideal, very slightly oval, no rib and it is heavily netted over the entire melon. The blossom button is small and flesh as thick at the end as elsewhere. The melon is very thickmeated, hence it carries well; fine grained and sweet; color green with a beautiful deep yellow gold margin next to the seed cavity. It is of uniform shape, size and very superior quality. Its flesh is attractive and elicits favorable comment when served. Every seed we offer from this strain will be from a select melon and hand-seeded. It ripens quite early and many of our customers claim it to be the most productive muskmelon they ever grew. Our seed fields have never shown the slightest trace of rust or other disease. We offer it at a wonderfully low price. Pkt. 10c., oz. 25c., ½ lb. 75c., 1 lb. $2.50, 5 lbs. $13.00.

MOORE'S PINK BEAUTY CANTALOUPE

A highly rust-resisting variety

This is a deep-meated and an abundant yielder, often producing 15 to 25 melons to the hill. The melon is rich pinkish golden color, very thick, and fine grained. The flavor cannot be excelled. The seeds are closely held in place in three lobes and do not easily shake loose. The rind is covered with a closely-laced gray netting, except the narrow stripe between the ribs, which is not netted. The blossom end is well protected. Shape slightly oblong, averaging about five inches long and slightly tapering at the ends. It is an excellent shipper and will carry nearly two weeks without loss.

We recommend it for planting where there is excessive rainfall, as this will not cause them to crack. Be sure to get your seed from us.

In growing melons for market the first step is to get seeds of the best possible quality, as without good seed you cannot expect good results. Price, oz. 15c., ½ lb. 30c., 1 lb. $1.50.

PERRY'S NEW HOODOO MUSKMELON

"Thick-Meated" Orange Salmon "Yellow Flesh"

One of the best selling muskmelons on the market today.

True stock. Wonderfully productive, a wonderful seller. A wonderful blight or rust resistant type.

The fruits are uniform, of just the right market size, the ribs deep and densely netted, creases smooth, flesh a beautiful deep orange, very thick and very small seed cavity of spicy, sweet aromatic flavor. As a shipper to distant markets it is without a superior. We have found that they will keep in perfect condition for three weeks after being removed from the vine. It is the vine which you grow for big returns. Pkt. 10c., oz. 20c., ½ lb. 50c., 1 lb. $1.75, 5 lbs. $8.00.

VINE PEACH

A splendid novelty which was introduced by us. The vine on which they are borne is somewhat similar to the muskmelon vine, and requires the same cultivation. The fruit is about the size of a large peach, oval-shaped, and of a bright orange-yellow color, somewhat russeted. For sweet pickles, pickling or preserving they are superb. Receipts for preparing them for the table will be sent with each order. In the west and northwest, where fruit is scarce, they are very popular, as they are easily cultivated, wonderfully prolific, and can be used by every way in which you would use a peach, except that they are not usually liked raw. Per pkt. 5c., oz. 15c., ½ lb. 50c.

IMPROVED "KNIGHT" CANTALOUPE

This superb green-fleshed muskmelon has for five successive years broken all records, selling without regard to market conditions for other melons at all the large northern cities, as well as in Philadelphia, where it has had a wonderful reputation. In quality, it quite outshines all other green-fleshed melons, having a taste that is indescribably delicious with a remarkable sweet spicy aroma. While this melon has had a wonderful reputation around Philadelphia and New York markets, it fully deserves to be known over a wider territory, and is now offered outside of its local home. It is slightly pointed at the stem end, while being rather blunt at the blossom end. They grow very uniform in shape and size, averaging about six inches in length from stem to blossom, and 4½ to 6 inches in the other direction; handsomely netted, very thick meat, as shown in the photograph. Every melon grower is to be congratulated who gets a crop of this magnificent melon, which we have greatly improved since its first introduction. Oz. 10c., ½ lb. 25c., ½ lb. 45c., 1 lb. 85c.
MUSK MELON—All Seed Carefully Saved from Selected Melons

FRENCH CANTALOupe

We regard this as one of the very best and most profitable early melons in existence for market gardeners and shippers, and nothing among the green-flashed varieties surpasses it for quality. We have the honor of introducing this singularly beautiful melon, which was placed in our hands by the raiser, Mr. Vinciane, of Paris. In quality this leads all, and every home garden should include it. Medium-sized, round, with salmon-red flesh, so rich, sweet and juicy that it needs to be eaten with a spoon. No other melon compares with it in eating qualities, and it is the sort of all others for the home garden. It is unequaled for marketing nearly home. They average about 1½ lbs. each and will produce from 5,000 to 7,000 perfect melons per acre. Pkt. 5c., oz. 15c., ½ lb. 30c., lb. $1.00.

NEW EARLY HONEY SWEET

They grow very uniform in size and shape, weighing about 2 pounds each, skin green and thickly netted. They are very thick-metled flesh, of light-green color, the inside surface when cut orange. Each vine sets from 5 to 9 melons immediately around the stem; frequently the fruits touch one another. The melons are remarkably even in size, weighing from 1 lb. 8 ozs. to two pounds each. They are always of the handsome form and attractive appearance illustrated above. "FORDHOOK" is so "dutiful and honest" that there are practically no fruit until for market. Pkt. 10c., oz. 15c., ½ lb. 30c., lb. $1.00.

PAUL ROSE or PETOSKEY. Thick salmon-colored flesh. Oz. 10c., ¼ lb. 35c., lb. $1.25.

IMPROVED NETTED GEM. Oz. 10c., ½ lb. 20c., lb. 60c.

NORFOLK BUTTON. Small, good quality, early. Oz. 15c., ¼ lb. 30c. lb. $1.00.

EARY JENNIE LINSD. Small, early. Oz. 10c., ½ lb. 30c., lb. 75c.

EMERALD GEM. Small, early. Good quality. Oz. 10c., ¼ lb. 30c., lb. $1.00.

Sutton’s Scarlet Masterpiece. A red-flushed variety of the most desirable and delicate flavor. A remarkably fine shipping variety. A favorite with southern growers. Pkt. 5c., oz. 20c., ½ lb. 50c., lb. $1.75.

McCleary’s Large Jenny Lind. Oz. 10c., ¼ lb. 40c., lb. $1.25.

EXTRA EARLY HACKENSACK. Truly, very good quality. Oz. 10c., ¼ lb. 35c., ½ lb. 60c., lb. $1.75.

YELLOW-FLESHED OSAGE. Fine quality. Oz. 10c., ¼ lb. 30c., lb. $1.00.

BANANA. Flesh, very thick, of a salmon color; in flavor remarkably similar to a fine banana, and when ripe, like one. Very large, weighing about 6 lbs. each, and every one has grown and developed like a banana, and, moreover, smells like one. This curious melon attains a length of 18 to 20 inches, and a diameter of 2 to 4 inches. This sort is not a mere curiosity, but is in such favor as to command good prices in choice city markets, and is very desirable for family use as well. Pkt. 10c., oz. 15c., ¼ lb. 40c., lb. $1.25.

PARKER’S EXTRA EARLY (New)

Earliest of All! Yes it is the Earliest of All Musk Melons, Without Exception.

Our attention was called to this melon by a market gardener at Atlantic City, N. J., who, for the past years has always had musk melons from 10 to 14 days ahead of his neighbors. These melons were of uniform size, of fine shape and appearance, beautiful orange-green flesh, extremely delicious, and sold readily in market at from $1.50 to $2.00 per basket, the profit on an acre being something enormous, as all the melons were usually sold before the others came into the market.

This is the Earliest Musk Melon that we know of, and it will be sure to create a sensation everywhere.

It is nearly round, as may be seen by the cut, of good size, weighing about 6 pounds each. Of a dark-green color outside, and netted, but inside they are a rich orange-green color, and, we venture to say, with thicker flesh than any other extra early variety in cultivation, and being so practically room for the seeds. As to flavor, they take the lead of all, and are far ahead of everything else at present cultivated. It surpasses all other extra early in delicate flavor and unusual produce usually firm, fine, and desirable shipping qualities. It has positively demonstrated itself as the earliest good melon in the world.

We sold upwards of 50,000 packages of this earliest melon, and we know we have just that many thousand pleased, delighted, happy melon growers, and every one who has grown and eaten this sort of all early musk melons excepted. We know that this Parker’s New Extra Early will please everybody growing one or two hills or whether growing 20 or 30 or 50 acres. We advise our customers to pinch off the runners.

If you want to make money on earliest musk melons, there is nothing in the wide world that you can plant that will give quicker returns than Parker’s New Extra Early Musc Melon.

Pkt. 10c., oz. 30c., ½ lb. 40c., lb. $1.50.
Moore's Selected Watermelon Seed is the Best

Our customers will use over twenty thousand (20,000) pounds of  
our Superior Watermelon Seed for their 1914 Crops

Our watermelon seed is used by many of the largest planters in the United States, and we thank our numerous Southern customers for their very liberal patronage.

Alabama Sweet. One of the finest long shipping melons. This new introduction is becoming the most popular among Southern melon growers of all the long-shaped varieties, and rightly so. In general appearance it looks very much like the Kleckley Sweet--looks that make it sell on sight at the highest price. It is early, coming in almost with Seminole, and is one of the earliest medium-to-large size melons we have ever seen. It is of long shape with an intense dark green color, and a splendid shipper. Flesh is very fine grained, oily, free from stringiness. Pkt. 5c., oz. 10c., 5 lb. 25c., 10 lb. 50c., 5 lbs. $4.00.

Kleckley Sweets. An immensely popular melon of superb luscious flavor; very desirable for home use and nearby markets. Flesh bright scarlet with broad solid heart, crisp and juicy. Seed saved from selected specimens only. Pkt. 5c., oz. 10c., 2 oz. 15c., 1/2 lb. 25c., lb. 50c., 5 lbs. $3.75.

Turner's Dark Icing. or NO RIND. Fruits of round or oblong shape, black, glossy, with a dark green skin. Flesh deep pink, very sweet and melting. Juicy popular with New Jersey truckers, as its biledine quality makes this melons sell well in any market. Pkt. 5c., oz. 10c., 1/2 lb. 25c., lb. 50c.

NEW NATIONAL. Enormously productive; of fine quality and a good shipper. Oz. 10c., 1/2 lb. 25c., lb. 50c., 5 lbs. $2.00.

Florida Favorite. A large oblong melon, with dark green skin, faintly striped with still deeper shade; deep red flesh of excellent flavor. Pkt. 5c., oz. 10c., 1/2 lb. 25c., lb. 50c., 5 lbs. $2.00.

Kolb's Gem. Largely grown for shipping to Northern markets, as it carries well. The melons are of a thick oval blocky form. Handsomely marked in dark and light green stripes. Flesh bright red. Pkt. 5c., 1/2 lb. 10c., lb. 50c., 5 lbs. $2.25.

Blue Gem. The rind is exceptionally strong, making it a good shipper. Quality superior to Kolb Gem, larger in size and more attractive in appearance. Very pure stock. Oz. 10c., 1/2 lb. 20c., lb. 50c., 5 lbs. $2.50.

DUKE JONES. Heavy cropper; excellent shipper; flesh red and of good quality. Oz. 10c., 1/2 lb. 20c., lb. 50c., 5 lbs. $2.50.

Arizona Wonderful Sugar. The melon is long, of good large size, flesh of bright red, and of a luscious sweetness not found in any other. The rind is unusually thin and tough. It will be found a money maker by all our market garden friends. 1,027 melons were produced on one acre. Pkt. 5c., oz. 10c., 1/2 lb. 25c., lb. 75c., 5 lbs. $3.50.

Louisiana Melting Sugar. A large, long, weighty melon, superfine rind, red, and interior always solid, the edible portion extending to within half an inch of the skin; flesh bright red, sweet, tender, crystalline, very juicy and altogether quite superior. A very hard rind, and therefore a good shipper. Oz. 10c., 1/2 lb. 25c., lb. 75c., 5 lbs. $3.00.

EARLY MARKET KING

Superior for Long Distance Shipping

THE EARLIEST LARGE MELON EVER GROWN

MATURES 85 DAYS FROM PLANTING

Notwithstanding the large size of this melon they will readily withstand packing seven layers deep, without injury, in a car; whereas the Kolb Gem or any other variety cannot be packed more than five layers deep for long distance shipping. It is thus easily made to be superior to all others, as a shipper. Fruit large and heavy (thirty to fifty pounds). A melon large growers need not hesitate to plant largely. This is not only an early watermelon of fine quality, but it is also of large size. From seed planted on the fourth of May, large, ripe melons were picked July 25th. Its eating qualities superior to all other early sorts, and always commands the highest market price. Pkt. 5c., oz. 10c., 1/2 lb. 25c., lb. 75c., 5 lbs. $1.00, 10 lbs. $6.00, 25 and 100-lb. lots will be quoted upon application.
We Produce Water Melon Seed for Every Market, for Every Soil, for Every Locality, for Every Taste and for the Most Careful and Critical Grower

THE NEW WATSON

It certainly gives us great pleasure to introduce this remarkably fine new Water Melon to our many thousand customers. It required many years of the most careful hybridizing and selection on the part of Mr. C. O. Watson to produce this, what he terms "The King of All" Water Melons, and to use his own language he "challenges the world to produce a better melon of its type, a better melon for growing, shipping or eating. This remarkable melon ripens in from 60 to 80 days and under good cultivation will weigh about 40 lbs.

It is best for every reason, the best and sweeter flavored melon known in the world—the grandest of all varieties. We have given it careful trials among many large melon growers for several seasons past in the largest melon growing sections of the world, and they are all highly enthusiastic in its praise. We have never yet found a grower or consumer who was not delighted with it, and we feel sure you will join the same ranks if you give it a fair trial. It ripens in early in the season, the skin is of a rich deep green, the flesh a beautiful deep red, crisp, sugary and melting and free from stringiness. It is very heavy, early, large, hardy, vigorous, a good shipper and sure to command a premium price in any market. Pkt. $1.00, 5 lbs. $4.50, 10 lbs. $8.00.

THE NEW WATSON

We are now preparing to market it under the name of "The New Watson." It has promise in all directions, and if properly introduced, it is shown to be one of the very best melons known. Pkt. 10c., 1 lb. 30c., 10 lbs. $2.50. An offer is made to buy this seed under no contingencies for the value of 30c. per pound. We have the best reason to believe that it will be a profitable and very desirable melon to grow. Please use this opportunity to obtain some and try it carefully. Pkt. 10c., 1 lb. 50c., 10 lbs. $3.00. Satisfaction guaranteed.

A GRAND NEW WATER MELON—FLORIDA GEM

A Most Valuable Sort for Shipping, the Home Market, or the Private Garden. The Handsomest, Most Productive, Best Selling and Profitable White Variety. The Largest Early White Melon Ever Grown. Matures 81 Days From Planting.

This prince of water melons is the result of a cross between the famous New England Mammoth Melon and the Louisiana Mammoth Melon. The result is a perfect crossing and a variety which will give supremacy in quality and excellence of all melon seed known. The melons are long and slender, weighing from 50 to 100 pounds, and are very productive. Pkt. 5c., oz. 15c., 1 lb. 35c., 10 lbs. $1.00.

GEORGIA BIG HEART

The New Shipping Melon. This is comparatively a new melon from one of the largest water melon growing districts in Georgia; it is admitted by all who have seen or handled it to be the coming melon for profitable long distance shipping, as well as for home market where large round melons are in demand. It is a large handsome melon, slightly oblong as our illustration shows. It will average from 25 to 30 inches in diameter and weigh about 100 pounds, and has been known to grow to over 200 lbs. We have grown the largest and most successful melons of this variety, and the seed has been sampled by many of the largest and most successful melon growers in the world. We have given the variety a thorough trial in every possible way, and we have never yet found a grower or consumer who was not delighted with it. It is the best, cheapest and most popular melon known to the farmers of Georgia. It is a most reliable melon for shipping, and is almost entirely free from cavities. Pkt. 5c., oz. 15c., 1 lb. 35c., 10 lbs. $1.00.

NEW EARLY

BIG HEART

WATER MELON

A LARGE NEW WATER MELON—THE IVORY KING

A Most Valuable Sort for Shipping, the Home Market, or the Private Garden. The Handsomest, Most Productive, Best Selling and Profitable White Variety. The Largest Early White Melon Ever Grown. Matures 81 Days From Planting.

A very large variety of seed is offered for sale, and we have the entire stock in readiness for immediate shipment. This stock of seed is being carefully selected, and we feel confident that it will be to the satisfaction of all who use it. We will be glad to supply any quantity of seed that may be wanted, and we are always willing to give any information that may be required. Pkt. 5c., oz. 15c., 1 lb. 35c., 10 lbs. $1.00.
Moore's New Majestic. The most valuable new watermelon of the day. It has come to stay, with all shippers. Large growers need not hesitate to plant it largely. True stock. Seed grown by the originator. The rind is dark green, lightly striped, flesh scarlet, very firm, solid, and of luscious quality, and frequently attains a weight of eighty pounds. For the past three years this has proved to be the most profitable watermelon sent to the Northern markets. An acre of Majestic will net 100 cents, more money than an acre of Striped Dixies, Tom-ong, Sweet Hearts, etc. Last year we supplied seed for over $10,000 melons in South Carolina and for over 1000 car loads in middle Southern Georgia. We mention this merely to show its popularity in large melon-growing centres. As a shipping melon it is in every way superior to the Blue Gem, of Alabama origin; also the old Kob Gem. Its beautiful appearance and good quality always insures the highest market price. Every melon grower should plant it. Pkt. 5c., oz. 10c., 1 lb. 35c., lb. 75c., 5 lbs. $3.35. Buyers of 50, 100-lb. lots quoted upon application.

Arkansas Traveler. A large, long, white melon. Rind is dark green, with waving stripes of black. Interior always solid, the edible portion extending within half an inch of the skin. Flesh brilliant red, sweet, tender, crystalline, very juicy and altogether quite superior. Seed variable in color and small, ripening as an intermediate. A very hard rind, and therefore a good shipper. In color of flesh it is deepest red, in texture crystalline, in flavor sugary. The flesh is solid throughout, without any sign of either core or cavity, and the edible portion extends it within half an inch of the skin. Fine for late plantings to mature in August and September. Pkt. 10c., oz. 15c., 1/2 lb. 30c., lb. 1$0.00, 5 lbs. $4.50.

Harris' Earliest. In form this melon is oval to oblong. It is beautifully striped with dark green and gray stripes. It has bright red flesh, which is tender, sweet and delicious beyond description. It is very productive. It is the melon for everybody to grow who wants to be first. It bears shipping very well, and on account of its extreme earliness, handsome appearance and fine table qualities, it always finds a ready market at fancy prices. Our stock direct from Mr. Harris. Oz. 10c., 1/2 lb. 35c., lb. 70c., 5 lbs. $3.35.

HALBET HONEY. Seed saved from finest specimens only. Oz. 10c., 1/2 lb. 35c., lb. 70c., 5 lbs. $3.35.

EARLY MARKET KING. (New.) Pkt. 5c., oz. 10c., 1/2 lb. 35c., lb. 70c., 5 lbs. $2.00.

MOUNTAIN SWEET. Oz. 5c., 1/2 lb. 15c., lb. 50c., 5 lbs. $2.00.

LIGHT ICING or ICE RIND. Oz. 10c., 1/2 lb. 20c., lb. 50c., 5 lbs. $2.35.

DARK ICING. Oz. 5c., 1/2 lb. 15c., lb. 55c., 5 lbs. $2.50.

STRIPEY GYPSY or GEORGIA RATTLE SNAKE. A favorite melon in the South. Oz. 5c., 1/2 lb. 15c., lb. 55c., 5 lbs. $2.50.

JORDAN'S GRAY MONARCH or LONG WHITE ICING. Flesh very deep red in color and of very fine quality. Oz. 10c., 1/2 lb. 20c., lb. 60c.

CARL'S SEMINOLE. Fine shipper. 1/2 lb. 25c., lb. 75c., 5 lbs. $3.50.

EDEN GEM. Oz. 10c., 1/2 lb. 20c., lb. 55c., 5 lbs. $2.50.

PRIDE OF GEORGIA. Oz. 10c., 1/2 lb. 25c., lb. 60c., 5 lbs. $2.75.

SUGAR STICK. Fine quality. Oz. 10c., 1/2 lb. 25c., lb. 30c., 5 lbs. $2.75.

Miner's Black Pearl. The flesh is brilliant red, very solid and a very sweet and luscious. Skin is a beautiful dark green; the rind is very thin, but exceedingly hard, which renders it a valuable shipping sort. We commend it to all our customers who wish a very dark-skinned melon. Pkt. 5c., oz. 10c., 1/2 lb. 25c., lb. 70c., 2 lbs. $1.50, 5 lbs. $3.00.

MELVER'S SUGAR. Extra selected stock. Oz. 10c., 1/2 lb. 20c., lb. 50c., 5 lbs. $2.25.

DIXIE. Extra selected stock seed saved from picked melons. Oz. 10c., 1/2 lb. 25c., lb. 75c., 5 lbs. $3.50.

BLACK BOULDER. Of large size and excellent quality. Seed direct from the originator. Oz. 10c., 1/2 lb. 25c., lb. 60c., 5 lbs. $2.75.

TRIUMPH. Oz. 10c., 1/2 lb. 20c., lb. 50c., 5 lbs. $2.50.

CAROLINA BRADFORD. Oz. 10c., 1/2 lb. 25c., lb. 60c., 5 lbs. $2.75.

CHEROKEE BEAUTY. Oz. 10c., 1/2 lb. 30c., lb. 1$1.00.

FORDHOOK EARLY. 1/2 lb. 25c., lb. 70c., 5 lbs. $3.25.

Monte Cristo. The greatest yielder. The sweetest, juiciest, crispest and most solid melon ever produced, never having a hollow or split melon in a row. The easiest to sell on the market, the one to which every buyer will have no other. Many of our customers have written us the past year that they have cleared $100 or more per acre by growing Monte Cristo Melons. It is a grand, good shipper; has a firm, solid rind, not too thick, while yet will stand the most severe handling. The outside skin is of a rich, dark green color, shaded with fine stripes of a somewhat lighter color. Certainly one of the finest appearing Melons ever grown for market shipping. Pkt. 5c., oz. 10c., 1/2 lb. 35c., lb. 90c., 5 lbs. $4.50.

New White Dixie. It possesses all the good qualities of the old Dixie, and is of much better quality. It is pronounced the finest of all watermelons for home use and nearby markets. The color of the seed is grayish brown, the flesh a clear brilliant red, very crisp, sugary, melting and devoid of all stringiness, the rind hard and thin. Another valuable feature is it will remain in good eating condition longer than any sort we know of. It will hold its own in the watermelon patch for years to come, and will always command favorable prices. Pkt. 5c., oz. 10c., 1/2 lb. 35c., lb. 75c., 5 lbs. $3.50.
Moore Seed Co.'s Onion Seed is Unequaled in Quality

Moore's Philadelphia-Grown Onion Seed is acknowledged by all who have ever grown it to be superior to that obtained from any other source in both strong vitality and purity. No one can appreciate the value of reliable seeds better than those who have been once disappointed, and too much care cannot be exercised in selecting your supply. There is no vegetable where the quality of the seeds exerts a greater influence upon the crops than onions. Our stock is all grown from choice bulbs, selected carefully by hand, and is unequaled in this country.

New Zittau Extra Early White. The earliest large onion on earth. This is the biggest early onion money-maker ever offered by any seedman. You grow it direct from the seed and you will have bigger and better onions than you may grow from sets and at one-third the cost of sets and one-half less labor. Big statements these, but every word the truth. 1,000 bushels per acre can easily be grown from seed of this variety, and in this latitude they can be had on the market by June 15th, when prices range from $1.00 to $2.00 per bushel for new onions. It is unquestionably the largest, handsomest, finest flavored, best shaped, finest keeping, most superior early onion ever introduced, and is an onion that will sell on its merits in any market. Pkt. 10c., oz. 25c., ½ lb. 75c., lb. $1.50.

White Barletta. Excellent pickling variety; very early, small, pure white and of mild flavor. Very profitable for the local market gardener. Pkt. 10c., oz. 15c., ½ lb. 40c., lb. $1.45.

White Silver Skin. (Philadelphia Grown.) It is from this variety that the famous white sets are grown. Pkt. 10c., oz. 20c., ½ lb. 35c., lb. $1.50.

Australian Brown. Very solid and of good quality. Oz. 20c., ½ lb. 35c., lb. $1.00.

Large buyers will be quoted special prices upon stating quantity wanted.

IF YOU ARE A GARDENER, MARKET GARDENER OR FARMER, YOU CAN MAKE MONEY AND LOTS OF IT IN GROWING OUR

AMERICAN-GROWN MAMMOTH (LONG KEEPING) YELLOW PRIZETAKER ONION

Our American-Grown Prizetaker seed we offer produces large, well-ripened bulbs the first season from seed. Flesh white, crisp and mild in flavor. The skin is thin, of a bright straw yellow. Form nearly a perfect globe, as shown in our illustration. Under ordinary cultivation this variety will yield bulbs nearly three times as large as the Globe Danvers, while under special cultivation we have raised specimen bulbs to weigh from four to five and a half pounds each. These are the large mild onions which are sold in small crates in early fall and are esteemed for their large size, handsome appearance, mild and delicate flavor. With ordinary culture the crop of Prizetaker Onions is not infrequently 1,200 to 1,500 bushels per acre, and often runs up to 1,800 bushels. Our strain Prizetaker is by far the handsomest, most productive, most popular and best of all Yellow Globe Onions. It has a very small neck and ripens up without stiffness of the neck. In market it never fails to attract attention on account of its beauty, and is sure to bring a far better price than any other onion. It is a remarkably good keeper and can be profitably cultivated for shipping or home market in every latitude in the Union. Pkt. 10c., oz. 20c., ½ lb. 50c., lb. 45c., lb. $1.25, postpaid. By express, 6 lbs. and over, $1.00 per lb.
GOOD ONION SEED is of the utmost importance. Fully realizing this, we make a Specialty of the BEST Onion Seed.

A dollar saved on the purchase of the seed is likely to be lost many times over when the bulbs are harvested. The first cost of the seed is a small item compared with the expense involved in the proper preparation, fertilizing, and cultivation of the soil. It costs as much to raise a crop of inferior bulbs from poor seed as to produce a crop of fine evenly ripened bulbs from a selected strain of seed. Our Onion Seed is absolutely unsurpassed.

SPECIAL PRICES. On Onion Seed in any quantity over what is quoted here will be promptly given upon application. Onion Seed has been a leading specialty with us for years. Write us. It may pay you big. We supply large quantities of seed to many of the largest growers in the United States.

MOORE'S GIANT SILVER KING ONION.—Universally Popular

A LEADING VARIETY IN ALL SECTIONS. PRODUCES ENORMOUS CROPS OF ENORMOUS ONIONS, ALL CLEAN, SOLID, HEAVY AND PERFECT. NO "THICK NECKS." SURE CROPPER. LONG KEEPER, UNEQUALED SHIPPER. (New Early.) This is an entirely new type of Silver King from that introduced several years ago in that it is much earlier, which gives it a decided advantage, especially for the market gardener. Large white onions can now be had fully two weeks earlier than from the old type. Like its predecessor the skin is of a beautiful silvery white, with flesh of a particularly mild and pleasant flavor and so sweet that it can be eaten like an apple. No other white onion attains such a mammoth size nor uniformly so large. It is adapted to a wide range of country. The popularity of this onion increases rapidly from year to year with onion growers everywhere. All who grow it unanimously say it deserves every word of praise that is bestowed upon it by its enthusiastic admirers among farmers, truckers and very especially those who eat it. As to the wonderful size, early maturity and fine eating qualities of this famous onion we cannot speak too highly. Every one desires of having the largest, handsomest and most profitable onions of the finest flavor will be more than satisfied with our Early Giant Silver King.

It cannot be too highly recommended for the family garden, exhibitions, fairs, restaurants. Its size and beauty always make it highly attractive, and especially so on market stalls where it always commands the highest price. This remarkable variety was planted by over 150,000 gardeners last year for home use or market. It is the most productive of all white onions and grows larger than any white onion in cultivation. It is the onion for everybody no matter whether grown for sale or home use. Plant at least on e of this most delicious onion, better still, plant a pound, or if you are a large grower plant 10 pounds. Pkts. 10c., oz. 25c., ½ lb. 45c., lb. $1.45.

HARVESTED 203 BUSHELS.—I harvested 203 bushels from the pound of your Early Giant Silver King Onion seed. The largest measured 15 inches around. They sold for $2.50 per 100 lbs. My White Globe brought $3.45 per pound. —Ola Peterson, Waukesha, Wis.

SOLD BETTER.—I had no trouble to dispose of my Early Giant Silver Kings. They sold better and for more money than either Crystal Wax or Crole Reds. Will double my crop of them another year.
GOOD ONION SEED is of the utmost importance

Fully realizing this, we make a specialty of the Best Onion Seed. A dollar saved on the purchase of the seed is likely to be lost many times over when the bulbs are harvested. The first cost of the seed is a small item compared with the expense involved in the proper preparation, fertilizing and cultivation of the soil. It costs as much to raise a crop of inferior bulbs from poor seed as to produce a crop of fine evenly ripened bulbs from a selected strain of seed. Our Onion Seed is absolutely unsurpassed.

SOUTHPHOT GLOBE VARIETIES

CONNETICUT-GROWN SEED. All superior stock. Good keeping qualities. Perfect shape. Large, heavy, solid and of uniform size.

SOUTHPHOT WHITE GLOBE. Pkt. 10c., oz. 25c., 3/4 lb. 50c., lb. $1.75, 10 lbs. $10.00.

SOUTHPHOT RED GLOBE. Pkt. 10c., oz. 20c., 3/4 lb. 50c., lb. $1.50, 10 lbs. $10.00.

JAMES' LONG-KEEPING YELLOW. A thick, flat onion, best of keeping, makes beautiful shaped sets. Pkt. 10c., oz. 20c., 3/4 lb. 50c., lb. $2.00, 10 lbs. $15.00.

MOORE'S SOUTHPHOT-GROWN YELLOW GLOBE DANVERS ONIONS—for Sets. Very carefully grown and selected for producing sets of the proper shape, size and color, and producing onions of equally fine quality. The sets grown from this strain of seed will keep in good condition during the winter and spring longer than those from seeds grown in any other locality. Pkt. 10c., oz. 15c., 1/2 lb. 40c., lb. $1.50.

ITALIAN EARLY WHITE GLOBE. The best of all the White Globe varieties—being very early, makes fine bunch onions. Pkt. 10c., oz. 35c., 3/4 lb. 75c., lb. $3.50.

BLOOMSDALE EXTRA EARLY WHITE PEARL. The earliest large white onion on earth. This is the biggest early onion money-maker ever offered by any seedman. You grow it direct from the seed, and you will have bigger and better onions than any you may grow from sets, and at one-third the cost of sets, and one-half less labor. Big statements these, but every word the truth. Delicate, pure white skin, mild and pleasant.

Pkt. 10c., oz. 30c., 1/2 lb. 50c., lb. $1.40.

LONG-KEEPING WHITE MADEIRA. A very heavy cropper, and will make more beautiful white sets than any other white variety. Pkt. 10c., oz. 20c., 3/4 lb. 85c., lb. $2.50.

RED WETHERSFIELD. There is no better strain of this important variety in cultivation than ours. Pkt. 10c., oz. 30c., 1/2 lb. 55c., lb. $1.00, 10 lbs. $9.00.

MUSHROOM SPAWN

ENGLISH MILLTRACK. Per brick 15c. (by mail 25c.), oz. 1/2 lb. $1.10, 25 lbs. $17.75, 100 lbs. $60.00. 250 lbs. at 10% off rates. AMERICAN PURE CULTURE SPAWN. Per brick 20c. (by mail 35c.), 5 bricks 90c., 10 bricks $1.50, 20 bricks $2.00, 50 bricks $5.00. Mushroom Circular Free on application.

PARSLEY

Paris Market or Giant Curled Parsley. Our Paris Market superior to all other curled varieties. In color it is a beautiful brilliant green, leaf fronds large, delicately cut and handsomely curled. The plant is half dwarf, hardy, a robust grower and a heavy yeilder, being greatly improved by frequent cutting. It is by far the most profitable sort for market and is adapted to all soils, and the best sort for long distance shipping and storing under glass and growing in cold frames. Every parsley grower should plant it. It sells for fancy prices.

Pkt. 5c., oz. 10c., 1/2 lb. 30c., lb. $1.00, 10 lbs. $9.00.

Champion Dutch Erfurt. Extra curled, dark green and free grower, which we highly recommend for a summer variety, owing to the fact that it will not turn yellow during hot, dry weather. This is the only true "hot weather or summer green." Pkt. 5c., oz. 10c., 1/2 lb. 30c., lb. $1.00, 10 lbs. $9.00.

Sheep Fern Leaved. New, early, dark green, robust grower. Fine summer variety. Delicious, edible roots. This is the best and most profitable curly-rooted parsley in cultivation.

Pkt. 5c., oz. 15c., 1/2 lb. 50c., lb. $1.50.

HANDSOME ROOTED. Long, smooth roots, leaves plain. Oz. 15c., 1/2 lb. $1.00, lb. $5.00.

EMERALD, OR DWARF EXTRA CURLED. Double, very fine stock, Oz. 10c., 1/2 lb. 25c., lb. 75c.

MUSTARD

MONGOLIAN CUT LEAVED. The most decorative, productive and best flavored of all. No other sort half so good. Pkt. 5c., oz. 10c., 1/2 lb. 25c., lb. 60c., 5 lbs. and over 45c. per lb.

PARSNIP

New White Maltese. This strain is the result of years of careful selection by a noted parsnip specialist. It embodies all the points of excellence desirable to a market gardener in smoothness, color, shape, true hollow crown, extra large, beautiful white skin, and tender flesh, and is not too long or too short. It does not crack or gangrene, and it is free from all guards or stringiness so common in other varieties and will usually bring from 90 to 100 per cent, higher prices. If you grow parsnips be sure and get this seed from us.

Pkt. 5c., oz. 10c., 1/2 lb. 25c., lb. 75c., 5 lbs. or more 70c. lb.

Ideal Hollow Crown. Medium length, smooth, solid, white, hollow crown, fine grained, sweet and pretty appearing. Oz. 10c., 1/2 lb. 20c., lb. 60c., 5 lbs. and over 45c. per lb.

SUTTON'S STUDENT, OR LONG SMOOTH. Heavy yielding. Oz. 10c., 1/2 lb. 20c., lb. 75c., 5 lbs. or more 70c. lb.

OKRA

Holt's Prolific Dwarf. This is undoubtedly the best and most profitable variety for the market gardener or grower to grow. The plants are bushy, compact, and are easy to grow and bear a heavy crop of tender stringless okra. Pkt. 5c., oz. 10c., 1/2 lb. 25c., lb. 75c.

DWARF PROLIFIC. 1/4 lb. 15c., lb. 25c.

KLECKLEY'S WHITE LADY FINGER. Much superior to all old varieties. Has a very tender white pods. Pkt. 5c., oz. 10c., 1/2 lb. 25c., lb. 75c.

"Your Tomato seeds are the best in the world."—O. H. King, Hazlehurst, Miss.
Moore's Famous Market Peas

One of the finest-flavoured early Peas yet offered to the public.

McLEAN'S First of all
Highest Award

You should not omit to plant freely of this fine sort...

McLEAN'S FIRST OF ALL. This delicious variety originated in England and is the earliest Pea ever produced. It is, strictly speaking, an extra early sort, and will mature ahead of the Gradus, Thomas Laxton, Morning Star, Lightning Extra Early, Royal Early or Nott's Excelerator. It is wonderfully productive; a single plant has been known to produce 100 lb. large-size pods. It requires no brush supports in the field, and will produce better on light land than any other early sort. The pods are large and well-filled, with large, beautiful dark green peas of delicious quality. It is remarkably hardy and should be the first to be planted, and you will have the first peas in market and get the highest price. Our crop this year being large we can offer the seed to our customers at a very low price. It is remarkably uniform and quite free from sorts of any kind. Pkt. 10c., pt. 20c., qt. 30c., 4 qts. $1.10, pk. $2.00, bu. $7.00.

MOORE'S LIGHTNING EXTRA EARLY. The earliest and most productive of all extra early white seeded Peas. Are planted annually by over 50,000 market gardeners throughout the United States. They will be found of equal value for late summer or autumn sowing, or where a pea crop is required to come off in the shortest possible time. The entire crop can be gathered in one picking. This valuable sort is so hardy that it can be planted shortly after the first frost is out of the ground. Under favorable conditions peas can be picked twenty-nine days from sowing the seed. The yield of these peas is simply wonderful. Pkt. 10c., qt. 30c., pk. $1.50, bu. $5.50.

THOS. LAXTON. The large peas are of a deep green and present a very attractive appearance on the table. The crop ripens only three to four days after Gradus. Qt. 30c., pk. $1.75, bu. $7.00.

M-LEAN'S ADVANCE. Second early; vines of strong growth, about two and a half feet high. Very productive of long broad pods, well filled with green wrinkled peas. Qt. 30c., pk. $1.50, bu. $5.50.

NEW PEA—PRIZETAKER. A fine new English sort, having invariably taken all the prizes for quality and productiveness, wherever exhibited; hence its name, "Prizetaker." Plant 2½ ft. high, of a branching habit, and vigorous growth; pods long, round and well filled with large pea of very sweet and luscious quality; pods are produced in pairs, usually from six to eight fine pods to a plant. Can be planted fully as early as our May Queen. Matures in about forty days. Its immense productiveness and fine quality make it an excellent sort for market garden and market gardener. This grand new Pea is almost a continuous yielder, three full crops are always yielded by it; plants frequently yield 250 pods, and we have no hesitation in pronouncing it the most prolific and finest quality Peas ever introduced among second early varieties. Once planted, always planted. Pkt. 10c., pt. 20c., qt. 30c., pk. $1.50, bu. $5.50.

EXTRA EARLY GRADUS, also called "Prosperity" Pea. Our strain will be found much superior to that usually sold by other seedsmen. Matures pods only a few days later than the small-podded round-seeded extra early; grows about three feet high. Pkt. 10c., pt. 20c., qt. 30c., 4 qts. $1.00, pk. $1.75, bu. $6.50.

LITTLE MARVEL. The vines average fifteen inches in height and are heavily set with fine pods, frequently borne in pairs. The pods average two and one-half inches in length, are square at the bottom and well filled with six to seven quite large, deep green peas. The peas are ready for the table fully as early as Little Gem, American Wonder or Nott's Excelerator, while the pods are larger and the vines produce a much heavier crop. All who desire a fine early crop of the choicest quality of wrinkled peas will be delighted with Little Marvel. Per pkt. 10c., pt. 20c., qt. 30c., pk. $1.75, bu. $6.50.

LAXTONIAN. This is one of the largest podded of all the early dwarf varieties and is a new sort of decided merit. The vines are vigorous, growing about 16 inches high, and produce a large crop of good-sized pods, averaging from 4 to 6 peas to the pod. The peas are of exquisite flavor and mature early. The pods are dark green and produced in great abundance. Many of our customers who have tried Laxtonian consider it superior to either Gradus or Thomas Laxton and claim it to be the best of all the early English dwarf sorts. It is a great favorite with all English market gardeners. Qt. 30c., qt. 50c., 4 qts. $1.00, pk. $2.00, bu. $7.75.

THE LINCOLN. This is an early dwarf wrinkled variety of great merit. The vines are of sturdy upright growth, about 15 inches in height, with heavy dark green foliage. The pods average three and three-fourths inches in length by three-fourths inch wide, being slightly curved and pointed, being produced in great abundance, and contain six to eight large, rich, green peas of delicious flavor of extra value for high quality retail trade. Qt. 30c., 4 qts. $1.00, pk. $1.50, bu. $7.00.

ALASKA. Early and prolific. Qt. 30c., pk. $1.75, bu. $6.50.

LONG ISLAND MAMMOTH. Pt. 20c., qt. 30c., 4 qts. $1.00, pt. 25c., bu. $6.50.

SUTTON'S EXCELSIOR. Qt. 30c., pt. $1.75, bu. $6.50.

TELEPHONE. Qt. 30c., pk. $1.50, bu. $6.50.

THE PILOT. Qt. 40c., pk. $2.00, bu. $8.00.

LARGE PODDED ALASKA. Large deep green pods. Qt. 35c., pk. $3.00, bu. $7.50.
SECOND EARLY-MAIN CROP PEAS
Moore’s Pride British Peerless or Main Crop of the Market

This is one of the best of marrow peas. It is a large pea of English origin, growing 8 inches in length and 1 inch in diameter. It has a robust, branching habit, and requires no staking. Wonderfully productive. The pods are large in size and extremely handsome in appearance, and the variety is a popular one for market and home use, and equally good for home use. The table quality is excellent. The size, shape and beauty of the fine, large, dark-green pods are shown in the illustration, and we commend it strongly to the attention of truckers, market gardeners and large or small pea growers in general who wish to offer attractive looking produce to their customers. Will please all who plant it. Pkt. 10c., Qt. 30c., pk. $1.75, bu. $6.75.

New Early Pilot
A very hearty yielding early-crop pea, new English variety, growing about 2 feet high, bearing a great profusion of large dark-green pods of exquisite quality, striking an early second appearance, as the well-known Aldersea, which it closely resembles, but with dwarf habit. Grown under favorable conditions, the haulm attains the height of 6' to 8 feet; the foliage is large and heavy, of a luxurious dark-green color. The pods are truly gigante in size! They are dark-green in color and usually in pairs and grow straight with only a slight curve. Measuring from 6 to 8 inches in length, each pod contains an average of from 9 to 11 large peas of delicious flavor. It is a good crop bearer and continues to bear for a long period. It is without doubt the largest-podded pea of its type in existence. Pt. 25c., Qt. 40c., 4 qts. $1.15, pk. $2.25, bu. $8.60.

Carter’s Quite Content
A new English pea of superlative quality and is ready for picking at the same time as the well-known Aldersea, which it closely resembles, but with dwarf habit. Grown under favorable conditions, the haulm attains the height of 6' to 8 feet; the foliage is large and heavy, of a luxurious dark-green color. The pods are truly giant in size! They are dark-green in color and usually in pairs and grow straight with only a slight curve. Measuring from 6 to 8 inches in length, each pod contains an average of from 9 to 11 large peas of delicious flavor. It is a good crop bearer and continues to bear for a long period. It is without doubt the largest-podded pea of its type in existence. Pt. 25c., Qt. 40c., 4 qts. $1.15, pk. $2.25, bu. $8.60.

MOORE’S BLUE BEAUTY
A New Second Early Pea Showing Remarkable Productiveness
It will suit all trucks, gardeners as well as private planters. The pods are larger than our famous May Queen peas, twice as productive as Grand Duke and almost twice as early, and the seed can be planted as early as Moore’s Royal Early. Both the seed and pods are of a pleasing deep-green color and remain so a long time after being picked. While the seed is not wrinkled, the peas have a very rich and distinct flavor from all other sorts. Vining vigorous; growth, about 2' to 3' feet, setting many pods in pairs, and is a prodigious yielder. Ten years testing show it to be the heaviest yielding second early pea grown. On account of its heavy, cropping qualities we are able to offer it at a remarkably low price considering its high and many valuable properties. Pk. 20c., Qt. 30c., Pk. $1.50, Bu. $5.50.

Prodigious or Prince Edward
The Giant of the Pea Family
It is called Prodigious on account of the enormous size of its pods. This pea is considered one of the most profitable varieties for the trucker, and as soon as it is well-known it is more largely known, there will be an enormous demand for it from the market gardeners over the country. Even now we can hardly keep enough of this valuable sort for our customers.

There are few varieties of seed in this catalog that are better named than this pea. Nothing more nearly expresses its one remarkable characteristic than its name Prodigious. When you consider that this variety will produce pods attaining the extraordinary length of 7 inches and upwards, closely packed with 11 to 13 large, dark-green peas of fine flavor, every reader of this book must admit it is well named. For exhibition purposes it is simply unsurpassed. Exhibited at all the leading shows in England, the last year it was always taken first prize, and it will create just as much excitement in America as it has there. The plant is of branching habit, growing about 6' feet in height, with dark-green foliage. It is of very vigorous habits which enables it to withstand drought and mildew. The pods are produced profusion, mostly in pairs. Prodigious cannot be excelled as an exhibition sort, on account of its striking and very attractive, handsome coloring; and will also be in demand wherever there is a call for a pea for shows, prize varietals, and hardy constitution. Market gardeners who do not know Prodigious should give it a trial. There are thousands of our customers who will be delighted to show their friends such enormous pods of peas, the largest, by far, they have ever seen, which in addition to large size combine with succulent flavor. Pkt. 15c., Pt. 35c., Qt. 35c., Pk. $2.25, Bu. $8.60.
MOORE'S HOME GARDEN PEA. If you want a long podded, extremely early, wrinkled dwarf pea, of the finest quality and productive enough for everything that grows, try Moore's New Home Garden, the prince of all early dwarf peas. This is a grand new blue dwarf wrinkled pea. It literally fills itself with large pods, ripening evenly and of excellent flavor. It is very early, testing in 30 days. 1,000 bushels.

Now, that's a great many, but our market gardeners and private planters receive more than that of Moore's New Home Garden Pea Seed every year. They say there is no other pea just like it, hence its great demand. It's early, too, and of delicious quality. The distinct merit of this pea over every other variety is its extreme earliness, combined with its abundant production of fine peas of delicious flavor. Its strong points are its delicious richness of flavor, its extreme earliness, its dwarf habit, needling no brushing, and its large-sized pod. One of its distinctive features is its unusually regular habit of growth. It is of uniform height, so smooth and level in its growth that it resembles a well-kept hedge. It is also a magnificent variety for market gardeners to grow; as the pods are large, it fills up a bushel quickly and brings a very fine price in the market. Pkt. 10c., pt. 30c., qt. 30c., 4 qts. $1.00, pk. $1.90, bu. $8.50.

MOORE'S ROYAL EARLY. This popular new large-podded early pea of finest quality matures pods only two or three days later than the small-podded extra early peas, will produce 25 per cent larger crop, much better in flavor, and will be a pleasing revelation to all who plant it. It is the result of much careful, expert work, of selection and reselection. Grows about thirty inches high. It produces uniformly large pods, measuring from four to four and a half inches in length, nearly round, and well filled with very large, handsome, beautiful green peas of fine flavor. The pea remains tender and sweet for some time after they are large enough to use. The illustration herewith was engraved from a photograph, being exactly nature at size. It is wonderfully prolific. No pea grower for home garden or market should be without it. It is a money maker for all who plant it for firstly, second early, or fall crop. Pkt. 10c., qt. 35c., ½ pt. $1.15, pk. $2.25, bu. $8.50.

Mammoth Melting Sugar The vines grow four to five feet high. Very productive of enormous pods, which average five to six inches in length and one and a half inches in diameter, thick and fleshy. Broken and boiled like string beans and served with piano dinner. Pkt. 10c., pt. 35c., qt. 40c.

HAD GREAT SUCCESS.—I always had great success with your peas. I planted thirty bushels of your peas last year in five separate varieties and realized handsomely from my investment.

-Herbert P. Clark, Pea Shore, N. J.
New Early Sugar Marrowfat Pea

In our annual trials of peas, numbering many hundreds of rows, this variety was conspicuous among them all for its astonishing profusion of pods, which are large and handsome and bountifully filled with dark green tender peas of the true delicious marrowfat flavor. In England, where we obtained our stock seed, it is extensively grown by the nobility, who prize the Sugar Marrowfat above all others of its class. It is the earliest of all marrowfats and will satisfy the most exacting who strive for the best quality. We recommend it to all who plant for home use or market; one of our best introductions. Height, two feet. Maturing about one week after our Lightning Extra Early. Pkt. 10c., qt. 30c., 4 qts. $1.00, pk. $1.50, bu. $5.75.

YOUR NEW EARLY SUGAR MARROWFAT PEA IS A REAL DAINTY. Its delicious quality is a rebuffation to all who eat it.

JAMES SYLVESTER WORTHINGTON
Cheesman Hill, Pa.
BEST PEPPERS FOR MARKET

A GRAND PEPPER

Moore's Mammoth Prizetaker is the greatest large pepper on earth. Thousands of gardeners and southern shippers have found it ahead of any other large variety they have ever tried. If you have not grown it you ought to, as you need it. Sixteen large specimens filled a half-peck basket. We discovered it growing in a patch of Chinese Giants we were saving for seed in 1908, and at once recognized its many good qualities. We, as well as many hundreds of pepper growers who have grown it, pronounce it in every way superior to the Chinese Giant, and the most valuable acquisition to our list of peppers. It is larger, more symmetrical, earlier, and a better yielder than the Chinese Giant. 11/2 acres, per 5c., was its record for 1902, 1911 for 1908 and 1912. In shape it is longer from stem to blossom end than the Chinese Giant, and the most productive and bearing more productive. Never before has there been a variety that produces uniformly enormous fruits. Our illustration is taken direct from a photograph, and is an exact representation as to shape and great productiveness. The fruits of brightest scarlet, average 4 inches broad by 6 inches long. Moreover the fruit sells better than any other large variety, which makes it extremely valuable to the market gardener. Flesh unusually thick and very mild, being entirely free from any fiery flavor. The yield is simply prodigious. We especially recommend it to all our customers who wish the largest good sweet pepper obtainable, who grow for market or large distance shipping, for it sells readily at good prices. In southern New Jersey it is frequently shipped in car lots by shippers. Pkt. 10c., 3 pkts. 30c., 1/2 lb. $1.25, 1 lb. $4.50.

New Cardinal Potherb Pepper. This is just the right thing for bunching with potherbs, neither too long nor too short. It is a rich, glossy cardinal red. Strong and pungent. It is the most productive pepper we ever saw. Our illustration gives an excellent idea of its habit of growth. (See illustration.) Market gardeners will find this the ideal sort for potherbs. Pkt. 10c., 3 pkts. 35c., 1/2 lb. $1.00, 1 lb. $3.50.

Pedrick's New Early Prolific Pepper

The EARLIEST and Most Productive Large PEPPER in Cultivation

No grower of peppers will be disappointed in this grand new variety. Its earliness compared with any other sort is astonishing, and its yield is almost beyond description. We appreciate the manner in which it is popular, and notwithstanding its earliness it will continue to yield fine large peppers, which are larger and narrower than Ruby King, up until frost. Mr. Pedrick had one plant that yielded 27 full-sized fruits during the season. To get best results the fruits should be removed from the plants as fast as fully grown. The size and yield will thus be fully maintained through the season. They carry and keep well, the flesh is thick and smooth, slightly pungent, and a glossy brilliant red when ripe, and being first in market secures the highest price. Pkt. 10c., 3 for 25c., oz. 40c, 1/4 lb. $1.25, 1 lb. $4.50.

BIRD'S EYE, RED CHERRY, RED CRANBERRY OR CREOLE. No peppers are better or more fiery in flavor than these little Bird's Eye or Creole Peppers, as they are called in the South. Each plant bears hundreds of miniature peppers. Pkt. 5c., oz. 30c.

Italian Early Red. This valuable new variety is the earliest type of Bull Nose in cultivation. It is valuable alike for the amateur and market gardener. In size it is about the same as the old Sweet Bell or Bull Nose. It is wonderfully productive. The plant is a perfect mass of peppers which are of a beautiful glossy red, and a continuous yielder. It is a highly profitable sort for the market gardener, either for the home market or shipping, and for the northern or southern grower. The early peppers are in great demand at very high prices wherever known. Flesh is extremely mild and sweet; continues to bear freely until frost, and carries well. While young the fruits are of a beautiful emerald green and carry long distances perfectly. It is one of the best peppers for you to plant if you wish to make money. Pkt. 10c., 3 pkts. 25c., oz. 35c, 1/2 lb. $1.00, 1 lb. $3.50.

KALEIDOSCOPE. Beautiful enough to be classed among pot plants, yet with a fine sharp flavor that makes it valuable in the garden also. From the time the pretty plum-like peppers first appear, they are of a light yellowish-coral color. As they commence to ripen they change, turning to orange, then again, turning to pink or rose, varying from shade to shade until they become a vivid, shining scarlet. One of these pepper plants, with its dark green and red leaves, is a beautiful sight. Figuratively speaking, plant this beauty once and you will have an end of charming pink, yellow, rose and red fruits, is exceedingly beautiful. It is an epineprous plant, prone to develop freely and with their load of jewel-like fruit. Pkt. 5c., oz. 30c.
Moore's Profit-Making Peppers

Chinese Giant

Double the size of Ruby King, and is very productive for so large a pepper, while the enormous size and magnificent appearance of the fruits make them sell most readily. The plants are vigorous in growth, but of stocky habit, seldom more than two feet in height. They are well branched and thickly set with enormous fruits of a rich glossy red color. Frequently half a dozen peppers will touch each other, as if on a single bunch. Our strain is the purest obtainable and produces uniformly beautiful, large fruits which are extremely heavy-set on an apple. The strong growth of the plants enables them to mature the gigantic fruits only slightly later than our well-known Ruby King. True seed from our very best selected strain. Pkt. 10c., 3 pkts. 25c., oz. 30c., $1.25, lb. $4.50.

New Tomato Pepper

Our illustration herewith is an excellent representation of this new red pepper. In shape and general appearance it is much resembles a tomato, so much so that nine persons out of ten, seeing it green or ripe, would at first glance say it was a tomato. Enormously productive, and can be eaten out of the hand like an apple, being of mild and delicious flavor. It stays in bearing right through the season from early June until frost; an ample for bulk will outyield even such a productive variety as Ruby King two to one, taking the entire season through. If you are raising peppers for profit you should certainly include Tomato Pepper in your order. Pkt. 10c., 3 pkts. 25c., oz. 30c., $1.25, lb. $5.00.

Myers' New Early Ruby King

This is a big and valuable improvement on the old type of Ruby King. From plants set out may 18th the first large peppers for market were picked for market June 29th. Plant's vigorous grower and is completely laden with large handsome fruits five inches long, which are of a brilliant red color, very meaty, sweet and mild. They carry well and keep in prime condition a long time, and bear abundantly until killed by frost. It fills a long felt want for the commercial grower.

Pkt. 10c., oz. 35c., ¼ lb. $1.00, 1 lb. $3.50.

NEAPOLITAN. Earlier than other large peppers. The fruits average ½" inches in circumference by 4 inches long; they are thick, meaty, and unusually mild and sweet; flesh and skin bright red when ripe; productive, and continue fruiting throughout the season. Pkt. 10c., 3 pkts. 25c., oz. 35c., ¼ lb. $1.00, 1 lb. $3.00.

Texas Shipper. (New). A remarkably thick-fleshed variety, also a remarkably good bearer. It is not uncommon for a plant to carry from 30 to 40 marketable fruits at one time. Fruits measure about 4 inches long by 2 inches across the shoulder, and taper nicely to a blunt point. The flesh is sweet, twice as thick as Moore's Prizetaker, and much firmer. The very thick flesh and peculiar shape make it the best long distance shipper ever introduced. It will keep in prime condition twice as long as any other. Every pepper grower should plant it.

Pkt. 10c., 3 pkts. 25c., oz. 35c., ¼ lb. $1.25, 1 lb. $4.00.

Hot Sicilian. (New). Our illustration is only one-half the actual size of the handsome long fruit, which is borne in wonderful profusion and very hot in both the green and ripe state. Its shape is very attractive and the peppers grow from 6 to 7 inches long and are borne in great profusion. There is a great demand for this type of hot pepper on every market, it is often shipped in ear lots, and we most earnestly hope every one of our market garden friends will give it a trial.

Pkt. 10c., 3 pkts. 25c., oz. 40c., ¼ lb. $1.25, 1 lb. $4.00.
**BEST PEPPERS FOR MARKET**

**Mammoth Golden Hercules**
A giant among the pepper fruits and the best of all yellow peppers. The fruit has solid flesh of good flavor, mild and pleasant and of a magnificent golden-yellow color. The plant grows unusually strong and is extremely productive. There are often at the same time twenty well-shaped fruits on one plant. Its value is increased by the upright growing of the fruits. They are consequently exposed to the sun, mature earlier, and even, during wet weather, they cannot become so easily rotten, as the kinds with hanging fruits, which come too easily in contact with the soil. May be eaten raw and are unexcelled for stuffing. Pkt. 10c., 3 pks. 25c., oz. 35c. ¼ lb. $1.00, lb. $3.50.

**Early Hot Bull-Nose Pepper.**
Many of our customers ask us for HOT BULL-NOSE PEPPERS, "because they sold us much better. The peppers of this most excellent variety grow about as large as our famous Pedrick's Early Profilie, are of a beautiful glossy, brilliant red. The fruit is about as mearly as Early New Ruby King, and produced in much greater profusion, and are ready to pick about two weeks earlier. The flavor is unusually hot and pungent, both in the green and the ripe state, and will be found the most salable of all sorts for making "mangoes," pickling, or pepper hash. A very profitable market sort, and we especially recommend it to the Florida growers, as well as HOT BULL-NOSE peppers are in great demand at very high prices in all Northern markets during the winter months, and in fact the whole year round. True hot variety and a great money maker for all who plant it. Pkt. 10c., 3 pks. 25c., oz. 35c., ¼ lb. $1.00, lb. $3.75.

**Moore's Selected Ruby King**
Introduced by us 20 years ago. Plants grow two feet high and bear a fine crop of handsome extra large scarlet fruits. The flesh is quite thick, sweet, and so mild that the peppers may be eaten from the hand like an apple. Especially fine for mangoes. Pkt. 5c., oz. 20c., ¼ lb. 60c., lb. $2.00.

**Red Cluster**
Distinct and beautiful free branching, bush-like growth about 18 inches high, having a multitude of large clusters of slender intensely scarlet pretty pointed fruits about 3 inches in length. Remarkably productive and very pungent or hot. The pretty coral red fruits are crowded on the top of the branches in great profusion. Prolific and elegant variety for pot herds and for flower borders. Pkt. 5c., oz. 30c., ¼ lb. 85c., lb. $3.00.

**Shaw's Early Bull-Nose Pepper**
Shaw's Early Bull-Nose, or Early Sweet Mountain
This has proven to be the same of perfection in the way of a Large Early Bull-Nose Pepper. Mr. Shaw is a noted grower in Burlington Co., N.J., and frequently ships this pepper in car lots to New York, Boston and other large cities, where it sells for good prices. His is a standard and favorite sort with all pepper growers who know it. A wonderfully good bearer, fruits early, pretty green color turning to a brilliant red at maturity. Entirely mild, of large size and thick flesh, comes well, sure cropper, and desirable in many other ways. A big improvement on the old type of Sweet Bull-Nose Pepper. Pkt. 5c., oz. 30c., ½ lb. 85c., lb. $3.00.

**Long Sweet Cayenne**
We introduced this pepper in 1899 and its popularity continues to grow enormously. Fruits are about 1 1/2 inches long and 2 inches in diameter at the stem end, tapering gracefully to a point; sweet and of a fine delicate flavor. Plant a strong grower and enormously productive. Long Sweet Cayenne are in great demand in all large cities at good prices. Pkt. 10c., 3 pks. 25c., oz. 35c., ¼ lb. $1.00, lb. $3.50.

**Moore's Southern Shipper**
This is a highly valuable New Pepper, carefully bred and selected to meet the requirements of growers who ship their peppers in crates or small packages. The shape and size, which is approximately shown in our illustration, enables it to pack more peppers in the same space, to better advantage in six and eight basket carriers than any other variety hitherto produced. It has become a great favorite with commission houses, dealers and consumers. Owing to these conditions it finds a more ready sale, and at higher prices than either the Ruby King, Nepolian, Sweet Bull Nose or Chinese Giant. It stands pre-eminent as a shipping sort and is also desirable for home market. It is a money maker for the grower, and we highly recommend it to all who grow peppers for profit. Single plants carry from 6 to 8 marketable fruits at one time. It develops quickly, is a long continuous yielder and of great value to the market grower. Pkt. 10c., 3 for 5c. oz. 40c., lb. 65c., ½ lb. $1.00, lb. $3.75.

---

**Red Cluster Pepper**

---

**New Early Hot Bull-Bone Pepper**
...Advantages of Changing Seed Potatoes...

There is no other crop that we raise that is so much benefited by the introduction of fresh seed from time to time as the potato. They seem to take on new life and prosper wonderfully, provided the change is made when the selected stock has grown, the better. Our best customers will not plant their own raising of seed at all, but buy it every year. They can grow nearly double the crop on the same land that they can from their own raising, and the tubers are smoother, handsomer, and of better quality and more salable in the market. A good change of seed always pays. The yield is frequently doubled thereby.

Potatoes by mail. The price of all varieties is 30c. per lb. or 3 lbs. for 75c., correctly labelled, and sent, postpaid, to any address in the United States.

FILLBASKET EXTRA EARLY Originated by crossing our famous Snowball and Quick Crop. The Fillbasket Potato soon proved itself to be a very popular and profitable sort for home use and shipping and has forced its way among our largest planters. Those who grow it for market find it to be twice as profitable as Early Rose, Hebron, Triumph or Early Ohio. It always commands a higher price than other sorts and besides it is an enormous cropper, as our photo illustration shows. It is, as its name would suggest, a remarkably quick grower, of the most approved shape—viz., a very smooth, full tuber, with no slim points nor projections to waste in preparing for the table, or waste in handling. Sufficiently elongated to make a good baker, it is not too much so to serve well boiled. It is an ideal general purpose potato. In color, it somewhat resembles the Prince Edward Island Rose. When cooked, the flesh is pure white, dry and flaky. 1/2 pk. 35c., pk. 75c., 1/4 bu. $1.25, bu. $2.25, bbl. $5.00.

NEW EXTRA The Bovee A GREAT CROPPER. It takes a leading place among the heavy cropping varieties, an unusual thing among first earlies. It is even earlier than Early Ohio, and compares favorably with Triumph. True stock.Pk. 65c., bu. $2.00, bbl. $4.50.

QUICK CROP VERY PROFITABLE FOR EARLY MARKET. It is several days ahead of the Early Rose, and is a special favorite with farmers and market men. Maturing early, brings highest prices, and the land can be used for other crops; does well on any soil suitable for potatoes. The tubers grow compact in the hill, are easily dug, very few small ones—nearly every one marketable size; few eyes which are even with the surface. Skin a delicate pink color. They keep firm until late in the spring. Many of our Southern growers plant this variety almost exclusively for early shipment North. With heavy manuring, close planting and good culture, a very large and profitable yield can be expected; 300 to 500 bushels per acre is not an unusual yield. Pk. 75c., bu. $2.00, bbl. $4.50.

SUTTON'S EARLY MONARCH (New) Under ordinary cultivation, this variety has by actual test produced 463 bushels per acre.

This new early potato is now attracting wide attention. Its points of excellence, as claimed, are its earliness, wonderful productivity, vigor of growth, quality, smoothness and handsome shape and appearance. It receives its name from its originator, Mr. Sutton, a noted potato hybridizer. It is a pink or flesh colored potato, of the shape indicated by the illustration. The shape is very uniform. It matures from early to second early, and in table quality is white, dry and mealy. It is as perfect in shape as the Snowball, and probably about one week later. The introducer says that the Early Monarch takes a leading place among the heavy cropping varieties, an unusual thing among first earlies. Our own observations on Early Monarch are favorable, and we do not hesitate to commend it highly. As a variety for planting for second early or late crop, it is without an equal. The tops are comparatively short and stocky, and the tubers are all bunched together in the hill, and are of good size and quality. 1/2 pk. 35c., pk. 75c., 1/4 bu. $1.25, bu. $2.25, bbl. $5.00.
Moore's Early Snowball Potato

**THIS AND MOORE'S FILLBASKET ARE THE TWO Earliest Potatoes In Cultivation**

They are fully a week in advance of any other kind in earliness and are the heaviest croppers

Moore's Snowball can always be marketed at least ten days before the top dies, as the new potatoes commence to grow before the tops are six inches high. Another great merit lies in its great keeping properties, remaining solidly fresh until the new crop is dug, and will often remain in the cellar without sprouting until June 1st. Hills of “new potatoes” of a fit size for table use can be dug in six weeks from the time of planting if weather for growing has been favorable, and the tops thoroughly ripened in from eight to nine weeks, with crop fully matured. Moore's Early Snowball was produced from a seed ball taken from a vine of the Snowflake, growing between Early Rose and Early Ohio. Tubers are oblong, skin a beautiful pink color, flesh white; upright, strong vines, with tubers growing compactly in the hill. We have never tested a kind which possessed the desirable points of an extra early, large yielding, high quality potato like the Moore's Early Snowball.

Our grower informed us early last season, when all early crops were but half grown, that Moore's Early Snowball and Fullbasket had set much more and that the tubers were double in size of any extra early varieties he had planted, and adds, “We should save seed for a larger planting next year.” 1 lb. 30c., 3 lbs., 75c., by mail postpaid; pk. 70c., ½ bu. $1.25, bu. $2.20, bbl. $4.75, 2 bbls. $9.00, 5 bbls. $22.00.

Moore's New Early Bonanza Potato

**The great drought resister.** We mean just what we say about it being a great drought resister. It stands hot, dry weather better than any other sort. We have seen Early Rose, Hebrons, Irish Cobbler, Green Mountains, Ohio's, etc., cease growth entirely and fail to produce even 10 per cent, of a crop in dry seasons, while Moore's Early Bonanza vines stood up green and vigorous and produced a tremendous crop of beautiful potatoes. Thousands of market gardeners will bear us out in this statement. In growth the vine is dense and robust, but compact. This is favorable to close planting. It is also a magnificent main crop potato. There are many people who plant but one variety. To such we would not hesitate to recommend Moore's Early Bonanza, on account of its being a splendid potato when early, a splendid potato when used in the summer or fall or winter. It is a perfect keeper—none better. There are rarely any small potatoes in a hill. Many of our customers say it is way ahead of any other sort as an all 'round potato for early or late. It seems to be disease proof; neither scab nor blight has attacked it. A good thing, did you say? We should say so, my friend. It is here to stay, and we believe you are like us, in that you know a good thing when you see it and that you will plant it, and plant lots of it, too. Just one more word—you. It will pay you big to plant it, be it a peck or a hundred bushels.
New White Rose

This new potato is no experiment; we have watched it for five seasons, and pronounced it the best long white potato we ever saw. It has never shown the first sign of blight; it is of all other long white sorts. This potato is a cross between the Early Rose and White Star, medium early and a strong grower. Vines are dark, tubers, dark green in color and absolutely blight proof. It seems also to be proof against the potato beetle as well. There are no poor or slim hills with the White Rose, all hills yield uniformly. It is a good potato, in cooking qualities it is second to none. When cooked it resembles Early Rose and is equally good for most practical of the long white varieties and will yield 200 to 400 bushels per acre on any good land. Its unusually fine appearance enables it to command "fancy" prices in all markets. We have several records of yields exceeding 500 bushels per acre. The tops die down quickly after maturity, which allows the ground to be prepared early for a second crop; consequently of great value to market gardeners. We know all our customers who plant it will be well pleased with it. Another valuable feature is, it is adapted to all kinds of land. Please order early. Pk. 75c., ¼ bu. $1.25, bu. $5.00, bbl. of 165 lbs. $15.00. Special prices for large quantities will be quoted by letter.

New Northern Star

This grand variety originated near Van Buren, Aroostook County, Maine. So eager were potato growers to obtain seed of it that they paid two dollars for it. One grower, a farmer near the M. & S. Railway, received a shipment of young plants, each one of which was exceptional with exceptionally deep green foliage, making a robust healthy growth, while other sorts and ordinary potato plants were all yellowed up. It is strong, tough, and better than any other sort which we have grown. It is the finest and most handsome potato we have ever seen, as well as the most delicious in flavor. Flesh fine knurled, and of a pearly white color. This is the variety which has produced the rate of 800 bushels per acre, which makes it very strong and a very good potato. We advise every young potato grower to plant one or more barrels of this magnificent variety, so that they can sell seed to their neighbors at top prices. We have had it in perfect condition from August 28th. Don't fail to include it in your order. Our word for it, the more the better for you and your bank account. Pk. 65c., ¼ bu. $1.20, bu. $5.00, bbl. $14.00.

New Early Harvest Potato

This exceedingly promising new potato was sent out for trial to some of our customers, under the name No. 97. The reports received were very flattering. The name, Early Harvest, is bestowed in honor of its originator, Clyde Somerset, a leading potato specialist of New York. It is handsome, medium early, highly prolific and very desirable in every respect. In character, Early Harvest potato has the same parentage as Empire State, but it is somewhat on the order of the Beauty of Hebron, but is the same shape as the Quick Crop. Some of the blood of the M. & S. Early Snowball flows in its veins. In a word, it is high bred all over. The eyes and spouts indicate vigor and youthful strength and the table quality is superb. Last, and most important, it is a heavy cropper. Mr. Wm. Parson, an experienced potato grower of Delaware Co., Pennsylvania, who has grown the Early Harvest for several years, says: "It has, in fact, for several years outyielded all old standard and new varieties." He, moreover, testifies that the tubers are free from both blight and rot, owing to the vigorous growth. The vines are brimful of fresh vitality and we recommend Early Harvest as a money maker. From our personal observation we highly endorse it for light sandy land and sandy loams along river bottoms. Per lb. 30c., per cwt. 75c., postpaid.

AUSTIN'S PATENT PLANT BED-PROTECTING CLOTH—SUBSTITUTE FOR GLASS—WILL HELP YOU

This will be found an excellent substitute for glass (at one-tenth the cost) in protecting from frost all kinds of seeds and plants on which glass or other temporary treatment given the cloth itself to the market. It is moisture and preserves them from decay, and, to some extent, shades sun. It is of great value to market gardeners and florists who grow either hardy or tender plants. We have applied it to our customers with uniformly good results. We have not an exception to have had reporting from its use. We have found it excellent in protecting and forwarding all kinds of seeds and plants for early starting. It will be found to be of great value to our customers, especially in the South, who grow cabbage, egg plants, lettuce, pepper, tomato and other plants that have to be transplanted. All our grades are of extra quality, one yard wide, and with proper care it will last for a number of seasons. It will be sold yard, add 10c. for each additional yard.

LIGHT GRADE. Per yd. 6c., by the piece of 70 yds. 5c. per yd.

MEDIUM GRADE. Per yd. 11c., by the piece of 60 yds. 9½c. per yd.

EXTRA HEAVY GRADE. Per yd. 15c., by the piece of 60 yds. 14c. per yd.
Plant Our Frost-Proof Hardy Cabbage Plants
And You Will Double Your Profits

We have these plants grown especially for us in South Carolina where the soil and climatic conditions are just suited for growing tough, hardy cabbage plants during the Winter and early Spring. The seed is planted in the open in the months of October, November, December, January and February, and when about eight to ten weeks of age they are very tough and hardy. When in this condition they can be shipped to territory further north and planted in the open ground a month to six weeks later than the Havana, hot bed or cold frame plants. These FROST-PROOF HARDY CABBAGE PLANTS will stand a temperature of 8 to 10 degrees above zero without injury, the land freezing, or the plants being covered with ice, sleet or snow after they are planted will not hurt them.

The top of the plant does not grow until your regular Spring weather opens up, but the roots grow from the time they are planted and just as soon as Spring weather starts, the plants grow very fast, maturing headed cabbage ten days to three weeks sooner than you can mature them from hot bed and cold frame plants. You know what the difference in profit will be.

TO GET THE ADVANTAGE OF THESE FROST-PROOF HARDY CABBAGE PLANTS THEY MUST BE PLANTED A MONTH OR SIX WEEKS EARLIER THAN YOU WOULD PLANT HOME-GROWN PLANTS.

Our cabbage plants are shipped direct from our growing station in South Carolina by mail or express. We can fill orders from December 1st to April 15th. We guarantee safe delivery and in good order.

The plants may be somewhat wilted and have a hard, stunted appearance. Regardless of appearance, however, they will produce the crop results.

We offer the following varieties: Early Beauty Jersey Wakefield, Large Early Oxheart, Charleston Wakefield, Model Summer, Succession, Early Flat Dutch and Early Drumhead.

Prices by mail, postage paid. 35 cents per 100. By express, buyer paying express charges, which under special rates are very low. 500 for $1.00. In lots of 1,000 to 4,000 at $1.50 per $1,000; 5,000 to 8,000 at $1.35 per 1,000.

In lots of 10,000 or over at $1.25 per 1,000. Cash must accompany the order.

Plants packed 500, 1,000 and 2,000 to the crate. Ordered in these quantities, they weigh about 25 pounds per 1,000 plants for shipment, and can be shipped to any point safely where they will arrive within four or five days. No plants shipped C. O. D.

NEW JERSEY SWEET POTATOES

New Jersey grown Sweet Potatoes are everywhere acknowledged to be the best in quality, being much drier and sweeter than those grown in the South and West, while their keeping and shipping qualities are away ahead, and will always bring the highest market price. They are grown with great care, sold at the peak of their season, and shipped without delay, to our headquarters.

NEW EXTRA EARLY ACCOMAC. Each, per pk. 50c., bbl. $2.25, bbl. $4.50. Plants of the above ready after May 1st; 60c. per 100, by mail, postpaid; by express, 35c. per 100, $2.50 per 1,000. NEW GROWN SWEET. It is better adapted for cultivation in the northern states than any other variety. Per pkg. $1.00, bbl. $5.75, bbl. $9.00. Price of plants, ready after May 1st, 75c. by mail, postpaid; 40c. per 100, $3.00 per 1,000 by express.

IMPROVED VINELAND BUSH SWEET POTATO

The Improved Vineland Bush Sweet Potato is shorter and more chunky in shape than the old variety. It originated on the farm of John Maytrott, the extensive sweet potato grower of New Jersey, from the well-known Early Nansendon and Old Vineland Sweet Potato. It is a perfect bush, with no inclination for spreading, resembling a bean bush very closely. The tubers are large, good flavor, handsome rich yellow color and excellent keepers. Customers say: "They're a great improvement over all other sweet potato varieties."

Plants of the Improved Vineland Bush Sweet Potato ready after May 1st; 50 for 60c., 100 for $1.00, by mail, postpaid, 75c. per 100, $4.00 per 1,000, by express (600 plants at 1,000 rates.)

We will make special prices by letter for larger quantities—write us before you buy. We are here at your service.

KNISEL'S RED QUEEN. An excellent short or chunky variety with pretty red skins and deep yellow flesh, sweet and mealy. Very productive and good keeper. Generally regarded as the best eating sort of all. Plants ready after May 1st; 65c. per 100, by mail, postpaid; by express, 40c. per 100, $5.00 per 1,000. No tubers for sale.

SOMETHING NEW—AGRICULTURAL TURNIP

Mr. Market Gardener and Farmer, if you have dry, hard, non-porous, heavy, stony, clayey or "baker" soil, plant this wonderful turnip on it and all these objectionable qualities of your land will disappear. In this latitude sow the seed about August 1st, at the rate of 5 pounds to the acre. The roots will penetrate the ground from 12 to 15 inches where they are allowed to remain until spring, and the soil will be found to be in a nice fertile, loose and mellow condition, and will produce better crops of anything than ever before. This turnip adds much to the fertility of the soil and will greatly assist it to retain moisture in dry weather, and will grow better root crops than ever before. The fact is, this wonderful turnip will greatly benefit all kinds of soils, then a wonderful plant fertilizer and soil renovator. Both the tops and roots are greatly relished by cows, sheep, hogs, poultry and other stock. Try it and be convinced. Oz. 12c. 1/2 lb. 25c. lb. 60c. 5 lbs. $1.00.

GREAT SPECIAL OFFER—We Pay the Postage

Free Seeds

$1.00 buys $1.50 worth of vegetable or flower seeds in packets or ounces
$2.00 buys $3.00 worth of vegetable or flower seeds in packets or ounces
$3.00 buys $4.50 worth of vegetable or flower seeds in packets or ounces
$4.00 buys $5.50 worth of vegetable or flower seeds in packets or ounces

when the money is remitted with the order. This generous offer does not apply to seeds in bulk, by the quarter pound, pint or upwards, or to flower seeds in trade packets; the latter are net.
PUMPKIN

Best for Market

Pumpkins are now largely cultivated for market purposes, and are found to be very profitable. They are usually planted in fields of corn or potatoes, but may be profitably raised in fields by themselves. They also make very profitable and healthy food for stock.

We herewith illustrate some of the best market varieties.

Large Cheese. Of fine grain and excellent flavor. Pkt. 5c., oz. 10c., 1/4 lb. 20c., lb. 65c.

Tennessee Sweet Potato. Of medium size, pear shaped, color creamy white, light, striped with green; flesh thick, creamy white, fine grained, dry, brittle, and of excellent flavor. When cooked it has somewhat the appearance of sweet potatoes, but of more delicious taste. Pkt. 5c., oz. 10c., 1/4 lb. 25c., lb. 80c.

Cashew. Long, yellow crookneck. Good keeper. Pkt. 5c., oz. 10c., 1/4 lb. 25c., lb. 60c.

Genuine Mammoth, or True Chilian (Also called King of the Mammoths.) It grows to an enormous size, three feet or more in diameter and one hundred to two hundred pounds or more in weight. Skin deep yellow; flesh very thick. Pkt. 10c., oz. 10c., 1/4 lb. 30c., lb. $1.00.

Winter Luxury Pumpkin. Few, if any, pumpkins can equal the Winter Luxury for cooking—in fact, one of our growers who knows all varieties is emphatic in stating that "it is the best pumpkin grown for pies!" The flesh is very thick, sweet and fine flavored, making the most delicious pies. Color a golden russet finely nipped. Flesh deep golden, sweet and tender. Pkt. 5c., oz. 10c., 1/4 lb. 25c., lb. 80c.

Japanese Pie Pumpkin. The seed cavity is extremely small. The seeds are curiously sculptured in the manner of Chinese letters. It is a very productive variety, ripens early, of medium size, good keeper and weighs fifteen to twenty pounds. The flesh is a rich salmon color, unusually fine grained, and when cooked or stewed is almost as dry and mealy as a sweet potato. Pkt. 5c., oz. 10c., 1/4 lb. 30c., lb. $1.00.

Mammoth Golden Cashew. (New.) The flesh is a rich yellow color, solid, fine grained, very thick, sweet and excellent for pies, and equally good for baking. They are very hardy, bugs seldom bother them. Can be grown among the corn, and yield a much heavier crop than most other sorts. Pkt. 5c., oz. 10c., 1/4 lb. 25c., lb. 80c.

Large Connecticut Yellow Field. Easily grown alone or in the corn. Oz. 5c., 1/4 lb. 10c., lb. 30c., 10 lbs. $2.50.

New Boston Golden Sugar. One of the best yellow pumpkins. They are round in shape and very slightly ribbed. The skin is of a rich golden-orange color, very beautiful. Flesh of extra fine flavor, cool, soft, and tender. It is a splendid keeper. Enormously productive. Just the right size to set in baskets. Makes excellent pies. Pkt. 5c., oz. 10c., 1/4 lb. 25c., lb. 75c.

Mammoth Etampes Bright Red. This giant variety, also from France, is quite celebrated and has been grown in this country to an enormous size of a bright, glossy red color. A splendid variety to grow for exhibitor purposes. Pkt. 5c., oz. 10c., 1/4 lb. 30c., lb. 80c.

Yankee Cow Pumpkin. This valuable pumpkin will be found a great boon to farmers with dairies, large or small. It greatly increases the flow of milk, besides imparting to it a rich yellow color, and really adds to the flavor and color of the butter of all cows fed upon it. Twelve to twenty bushels to the acre is the normal yield. If land be manured liberally a full crop can be grown among corn. It is a most excellent keeper and will be sure wealth to all who grow and feed it liberally. Oz. 10c., 1/4 lb. 30c., lb. 45c., 5 lbs. $1.75.

Thanksgiving Pie Pumpkin. On account of the extra thickness of the flesh in pounds is double that of other kinds. The flesh is orange in color, fine grained, sweet and has the delicious pumpkin flavor essential to the making of first-class pumpkin pie. The name "Thanksgiving" was suggested by the almost universal custom of serving pumpkin pie at the Thanksgiving dinner. Pkt. 5c., oz. 10c., 1/4 lb. 25c., lb. 75c.

New Persian Golden Giant. Produces truly gigantic, globe-shaped fruits. The skin is of a beautiful rich salmon color, while the firm fine-grained flesh is highly colored, of a deep yellow, sweet flavored and very thick. The pumpkins attain an enormous size and will attract great attention when placed on exhibition. Pkt. 10c., oz. 15c., 1/4 lb. 45c., lb. $1.40.

HOW TO GROW MAMMOTH PUMPKINS

Plant to rich soil, three to four seeds in a hill; make hills twelve to fifteen feet apart each way. When the plants have a fair start cut weaker shoots out. When the plants have a fair start cut weaker shoots. When the plants have a fair start cut weaker shoots. When the plants have a fair start cut weaker shoots.

RADISH

M. & S. New Red Strawberry

It is unquestionably the handsomest small radish ever offered, the flesh is purely white, which forms a strikingly beautiful contrast with the glowing crimson color of its skin and beautiful delicate green color of its small, short leaves. It is the earliest, handsomest, finest, juiciest, tenderest, sweetest and best small radish ever grown. It is equally valuable for market gardeners or home use, either for forcing under glass or open ground culture. Will mature in 39 days. Pkt. 5¢, oz. 10¢, ¼ lb. 30¢, lb. 75c.

WHITE HOT HOUSE

We have never been able to offer to our patrons an early white radish which possesses a marked degree of desirability for early forcing, when the season is just commencing. The new radish, which is a crossing of the quickset and early varieties, is a most desirable sort for forcing in greenhouses and early markets. It has a compact, dense, firm growth, which is suitable for many purposes, and will keep under glass a much longer time than most other varieties. Pkt. 5¢, oz. 10¢, ¼ lb. 35c., lb. 75c.

New Pink Lady Finger. They grow perfectly straight and smooth, and from four to five inches in length. The attractive, pink colored skin is very thin, and the flesh crisp and brittle, and of delightful mild pungent flavor; it has a clean, waxy, transparent appearance, top short, stands a long time, and is very marketable when bunched. It matures in about thirty-seven days, and is ready for forcing in the time of sowing the seed and remains in prime condition for eating for fully two weeks. For the cottage, garden or market purposes we consider it a great addition. Pkt. 5¢, oz. 10¢, ¼ lb. 25c., lb. 50c.

New White Icicle. The flavor of this new variety is very mild, and it is thus well adapted for slicing. The top is quite short, flesh very crisp, tender, and it is very marketable when bunched. It matures in about thirty-seven days, and is ready for forcing in the time of sowing the seed, and remains in prime condition for eating for fully two weeks. For the cottage, garden or market purposes we consider it a great addition. Pkt. 5¢, oz. 10¢, ¼ lb. 25c., lb. 50c.

Early Scarlet Globe. It is grown very largely to supply the enormous demand in Philadelphia, New York, Boston and other markets, where its brilliant color and attractive shape have secured for it a prominent place. Our strain of this important variety looks better in the bunch and holds the color longer than any other. Our stock is not equalled by any other, and is selected especially for the most critical trade, some growers buying as much as 600 pounds annually for forcing purposes. Pkt. 5¢, oz. 10¢, ¼ lb. 25c., lb. 50c. (25 lbs. over at 60c. per lb.)

BRIGHT RED FORCING TURNIP RADISH. This is unquestionably one of the best red forcing turnip radishes. It is equally valuable for outdoor planting. It is of a brilliant scarlet color, with very short top, small leaves, tender, crisp, and in quality all that could be desired. It matures in twenty-eight days, and can be grown very thickly in the row; unlike other sorts it sets well through the season, and can be used to the last. Pkt. 5¢, ¼ lb. 30c., lb. 75c., 5 lbs. $3.50.

White English Summer

A very desirable radish for summer use, resembling solid and crisp after spring sorts are over. Top of medium length. Much used in England. Very crisp and sweet. It is well adapted for sowing at any season of the year. It is a quick grower, has a small top, can be planted closer than most white summer sorts—and it finds ready sale. Pkt. 5¢, oz. 10¢, ¼ lb. 30c., lb. 60c., 5 lbs. $2.00.
IMPORTANT

All Our Radish Seeds are Grown from Transplanted Roots Only, which Insures the Greatest Possible Perfection. Our Seed will therefore give Much Better Satisfaction than that obtained elsewhere.

**MOORE’S NEW SCARLET BALL.** This is a very distinct and highly desirable new radish of our own introduction and one which we recommend to every grower of radishes. Shape perfectly spherical, very small tap root, short, small leaved and a very attractive vivid scarlet color, flesh very white, solid and deliciously crisp, mild and tender. It attains about twice the size of our celebrated Bright Red Forcing Turnip. It positively will not grow below or pithy; remains deliciously crisp and juicy for weeks; a fine market variety for any season of the year. Well adapted for seeds or warm borders or open field culture. We earnestly urge buying of one of our customers to plant it.

Pkt. 5c., oz. 10c., 1/4 lb. 25c., 1/2 lb. 50c., lb. $1.25.

**IMPROVED WHITE LADY FINGER.** This is unquestionably the finest long white radish, and one of the best suited for sowing at any season of the year. We found it growing in a field of our Quick Sowing variety which we had prepared for some other purpose. It is of very rapid growth, and remarkably crisp, brittle and tender; will stand longer before going to seed than any other white we have. It is especially desirable for the home garden and as a market sort it will be found invaluable. Pkt. 5c., oz. 10c., 1/4 lb. 25c., 1/2 lb. 50c., lb. $3.00.

**FELTON'S SELECTED WHITE BOX.** A very small top, early, solid, good shape; fine for sash or open ground. Felton's own stock. Pkt. 5c., oz. 10c., 1/4 lb. 25c., 1/2 lb. 50c., lb. $5.00.

**IMPROVED WHITE STRASBURG.** Our stock is much superior to that ordinarily sold. Pkt. 5c., oz. 10c., 1/4 lb. 25c., 1/2 lb. 50c., lb. $3.25.

**PHILADELPHIA WHITE-WHISPERS BOX.** Oz. 10c., 1/4 lb. 25c., 1/2 lb. 50c., lb. $4.50.

**WHITE VIENNA.** Oz. 10c., 1/4 lb. 25c., 1/2 lb. 50c.

**PHILADELPHIA GARDENER’S LONG SCARLET.** Very popular in the Philadelphia and New York markets. The long slender handsome radishes are of the most brilliant scarlet coloring. Flesh pure white, crisp and juicy. The best long scarlet radish; they are ready to pull in about twenty-five days. Oz. 10c., 1/4 lb. 25c., 1/2 lb. 50c., lb. $2.75.

**RED CHARTER OF SHEPHERD.** Pkt. 5c., oz. 10c., 1/4 lb. 25c., 1/2 lb. 50c.

**CRIMSON GIANT.** In the stock. Oz. 10c., 1/4 lb. 25c., 1/2 lb. 50c.

**SCARLET TURNIP WHITE TIPPED.** Oz. 10c., 1/4 lb. 25c., 1/2 lb. 50c., lb. 10c. $3.50, 100 lbs. $20.00.

**SUTTON’S SCARLET TURNIP.** Some planters report that they grow these radishes large enough to strain from seventeen to twenty days from the seed when sown until the radishes were ready for market. The radishes are perfectly round, about one inch in diameter, with bright red skin, firm white flesh, crisp and solid. They are excellent for early forcing either in the house or open ground culture. This new radish is remarkable for its crispness and solidity, while it is of most attractive appearance when bunched for market.

Pkt. 10c., oz. 10c., 1/4 lb. 25c., 1/2 lb. 50c., lb. 10c. $3.50, 100 lbs. $20.00.

**FRENCH BREAKFAST.** True, importo. Pkt. 5c., oz. 10c., 1/4 lb. 25c., 1/2 lb. 50c., lb. 10c. $4.50, 100 lbs. $30.00.

**PERFECTION CHINA ROSE WINTER.** A fine quality. Pkt. 5c., oz. 10c., 1/4 lb. 25c., 1/2 lb. 50c., lb. 10c. $3.50, 100 lbs. $20.00.

**WHITE CHINA.** Pkt. 5c., oz. 10c., 1/4 lb. 25c., 1/2 lb. 50c., lb. 10c. $3.50, 100 lbs. $20.00.

**PARISIAN BLACK SPANISH.** Fine. Very black skin; pure white flesh without core. Early, good keeper. No market gardener should plant any other. Pkt. 5c., oz. 10c., 1/4 lb. 25c., 1/2 lb. 50c., lb. 10c. $3.50, 100 lbs. $20.00.

**ROUND BLACK SPANISH.** Very choice. Home grown. Oz. 10c., 1/4 lb. 25c., 1/2 lb. 50c.

**WHITE SWAN’S EGG.** This is a wonderfully good sort for late summer and autumn and winter use, and it gives us pleasure to recommend it to all our customers. Seed should not be sown before July 1st in this latitude. It is the sweetest of all radishes and especially recommend it as the best of all white winter radishes from seed.

**EARLY WHITE DELICACY**

This new sort is a cross between Wood’s Early Frame and our Improved White Strasbourg. A most distinguishing characteristic is its rich, transparent, waxy appearance. The shape is one long sought for, and the most advantageous for bunching, being what might be called hale-stump rooted. The color is pure white, with the waxy appearance above described, and the texture is very firm and solid. It is about one week later than Simon’s Solid Ivory, but after that they are ready for market, they remain in excellent condition for fully three weeks. Top short, firm and crisp; exceedingly well adapted for successive sowings in the open ground. Perfect every body. Pkt. 5c., oz. 10c., 1/4 lb. 25c., 1/2 lb. 50c., lb. 10c. $3.50, 100 lbs. $20.00.

**NEW SWEDISH BUTTER RADISH.** Every one having one or more milch cows should plant this valuable radish. We know of no root crop that will insure as good health or prevent disease in milch cows like this. It is a great milk and butter producer, both the tops and roots are greedily eaten. Flesh white and compact. Acts as a fine stimulant and causes plenty of milk. The roots attain a length of 5 inches by 1 inches in diameter. The yield per acre is double that of rutabagas or turnips. Can be stored like mangel beets or turnips during winter. Sow 3 to 4 pounds per acre in rows 2 feet apart, or broadcast from July 15th to August 1st. Pkt. 5c., oz. 10c., 1/4 lb. 25c., 1/2 lb. 50c., lb. 10c. $3.50, 100 lbs. $20.00.

**MOORE’S NEW SCARLET BALL RADISH.**

**NEW SWEDISH BUTTER RADISH.**
RHUBARB or PIE PLANT

Giant Extra Early Paragon. In growth it resembles the Victoria and is quite large and productive as that well-known variety, but the Rhubarb is more upright in habit, and in the open ground comes earlier into use. Another and still more important merit is the beautiful color—a rich, bright red, and this characteristic remains after cooking, even when the roots have been forced in absolute darkness. The sticks are large and exceedingly tender, and have a de-licious flavor. Altogether this fine variety possesses a combination of qualities which will make it a necessity with every progressive market gardener. It is absolutely desirable for the family garden. It is an enormous yielder and sells at "top-notch" prices. One of our customers took $1,525.00 from one acre of this sort. Extra strong roots 10c., 3 for 25c., doz. $1.00, 100 $7.00. Add 5c. per root if to go by mail. Seed, pkt. 10c., oz. 30c., ½ lb. 75c., 1 lb. $3.50.

Crimson Winter. A large red-stalked, compact-growing, immensely productive variety of fine quality, unusually juicy, rich and spicy. Pkt. 10c., oz. 30c., ½ lb. 80c., lb. $3.00. Strong roots, each 10c., doz. $1.00, 100 $6.00.

LINEAUS. Small roots of very superior quality; rich red color. Pkt. 10c., oz. 20c., ½ lb. 50c., 1 lb. $2.50.

VICTORIA. A very large, thick, red-stalked late variety of fine quality. Pkt. 5c., oz. 15c., ½ lb. 75c., lb. $1.55.

Large roots of Lineaus or Victoria. Doz. 75c., 100 $4.50, per 1000 $45.00. Seedlings, 100 50c., 1000 $3.50. All prices if to go by mail.

Rhubarb Roots are a great specialty with us and we can readily supply 50 or 10,000. Write us for prices, stating quantity wanted.

TRUE ESSEX RAPE

This is a highly valuable forage and should be fed by all who grow any kind of live stock for food purposes. Under favorable conditions it is ready for pasturing sheep or cattle within six weeks from time of sowing, and on an average 1 acre will carry twelve to fifteen sheep or hogs six weeks to two months. When on the rape they should at times have access to salt, but water is not necessary. In the Northern States it should be sown from April to end of August for fall pasturing, but as it thrives best in cool weather, it should not be sown in the Southern States until September or October for winter pasture. In the latitude of Philadelphia it should be sown in April, or in early May. Its feeding value of rape exceeds that of all other long-standing sorts; the best spring rapeseed in the world to-day for the amateur or market gardener. This is a new variety distinguished by its exceedingly dark-green colored, curly leaves, of robust growth, and for its remarkably long standing qualities, being from two to three weeks later than the other sorts. It is very hardy and will withstand the severest winter, of rapid growth and is adapted to snow any time in the year. On pasture in such an enormous yielder, the ground should be well manured. Pkt. 5c., oz. 15c., ½ lb. 35c., 1 lb. $1.00.

Improved Mammoth Sand-wich Island. Our improved strain is remarkably fine and superior to any other strain. Pkt. 5c., oz. 15c., ½ lb. 35c., 1 lb. $1.00.

SPINACH

Realise the miniature vegetable most productive for early spring or summer use. It is an excellent plant for market gardening, and is readily raised from seed. It is not expensive in the purchase of seed, and may be sown in the garden at any time during the warmer months, or in pots or boxes of soil and kept in the house before planting out. Seed, pkt. 5c., oz. 15c., ½ lb. 35c., 1 lb. $1.00.

New Hardy Winter. The best for winter sowings as well as early spring; a handsome darkgreen color, producing more and larger beautiful curled thick leaves than any other. Will yield double the bulk, and remain firm and brighter longer than any other. The best and most profitable variety to be grown. Oz. 1½ lb., 10 lbs. $3.00, 100 lbs. $23.00.

AMERICAN ROUND SEEDED SAVOY or BLOOMSDALE. ½ lb. 10c., 1 lb. 16c., 100 lbs. $14.00.

Belgium Evergreen, a Vir-}

flay Long Standing. Leaves very thick, tender, dark-green, and well curled; the leaf se-

New Zealand Spinach. Yields a

French. Cultivated for its acidity and much used in salads. Pkt. 5c., oz. 15c., ½ lb. 30c., lb. $1.00.

Swiss Chard. This variety of Beet grown for its leaves, which, boiled, form delicious greens; the midriffs are esteemed when cooked and can be used as a vegetable. Pkt. 5c., oz. 10c., ½ lb. 15c., lb. 40c.

New Giant Thick-Leaved Hardy Winter Spinach.
SQUASH

Moore’s New Extra Early Cluster

The ideal early Patty Pan. The most profitable early squash for either home market or shipping.

The productiveness of this variety is truly astonishing. The yield is truly enormous; it is not uncommon to count eighteen or twenty beautiful fruits on a vine at one time. Sixty-one squashes have been picked from a single hill. It is a true bush variety of unusually compact habit, and the fruits are smaller than the Dow’s Extra Early with which we introduced eight years ago and which proved so profitable to all who grew it. The color is a beautiful pea green. The earliness of Moore’s Cluster is no less remarkable. The seed cavity is unusually small, while the rich, delicate flavor and delicious quality is not found in any other sort. It is ready for home market seven to ten days earlier than the Long Island Mammoth White, or White Scallop. On account of its extreme earliness, beautiful appearance, and fine eating qualities, it is being tender and fine grade quality. It is being grown in all other sorts on any market. Fancy prices are assured all who grow it.

Dow’s Extra Early Patty Pan. A productive, the squashes are matured fully a week earlier than the Long Island White Mammoth and are a distinctly more productive. It is a great improvement over all other sorts of this type. Color is a beautiful green. Entirely free from any yellow cast. Unusually solid and heavy, which greatly enhances their value for shipping long distances. Pkt. 3c., oz. 10c., ¼ lb. 25c., ½ lb. 40c., lb. $1.25, 5 lb. $5.50.

Strickler Green Summer Crook Neck.

They have a dark green skin, are very productive, of the finest quality and sell well. Pkt. 5c., oz. 10c., ¼ lb. 25c., ½ lb. 55c.

Canada Winter Crook Neck. The flesh is a rich yellow, solid and fine granulated. Good keeper. Crop followed.

WANTED HUBBARD. Of large size, and very dark green color. A good keeper. Pkt. 5c., oz. 10c., ¼ lb. 25c., ½ lb. 55c.

PIE SQUASH. Flesh is yellow, very thick and of fine quality. A early molder, and yields to field. Pkt. 5c., oz. 10c., ¼ lb. 25c., ½ lb. 60c.

IMPROVED CUSHAW. Pkt. 5c., oz. 10c., ¼ lb. 25c., ½ lb. 60c.

DELCICATA. Pkt. 5c., oz. 10c., ¼ lb. 25c., ½ lb. 65c.

Dunlap’s Prolific Early Golden Marrow. This new Marrow has a valuable acquisition to it; for, while it is remarkably productive, no variety can compete with it for earliness, being about twelve days ahead of the Early Golden Marrow, and for this reason can be planted a week later than any other variety of marrow. Its color is most attractive, a brilliant orange-red. A good keeper. Pkt. 5c., oz. 10c., ¼ lb. 25c., ½ lb. 50c, 5 lb. $3.50.

French Cocoon. For both summer and winter use. The most delicously flavored squash grown; dry, sweet, rich and wonderfully soft and productive and the best keeper of all. When well matured and taken off the vine before frost it is no uncommon thing for them to keep one year in good condition. Pkt. 5c., oz. 10c., ¼ lb. 30c., ½ lb. 80c.

Early Luscious Golden Custard Bush. A true bush, handsomely scalloped variety, of a beautiful rich golden color and excellent table qualities, wonderfully productive and the best yellow “Patty Pan” sort for home or early market shipping. Pkt. 5c., oz. 10c., ¼ lb. 35c., ½ lb. 70c.

GOLDEN WANTED HUBBARD. Pkt. 5c., oz. 10c., ¼ lb. 25c., ½ lb. 70c.

Giant Golden Summer Crook Neck. Bright yellow, warty, bumpy, early and all summer. Pkt. 5c., oz. 10c., ¼ lb. 25c., ½ lb. 75c.

New Egg Plant Bush Squash. Beautiful cream-colored fruit, of medium size and first-rate quality and excellent flavor, delicious when made into fritters. Comes into fruit much earlier, besides being free from disease and much easier to grow than egg plant proper. Certain to please every grower of this vegetable. Pkt. 5c., oz. 10c., ¼ lb. 30c., ½ lb. 80c.

CHINESE. Profitable market variety. Pkt. 5c., oz. 10c., ¼ lb. 30c., ½ lb. 85c.
REMEMBER, THE MAIN THING IN MAKING A GOOD CROP OF TOMATOES IS TO GET YOUR SEED FROM US. BUY THE BEST.

A MOST REMARKABLY LARGE,
SMOOTH EXTRA EARLY

NEW TOMATO

Is Positively the Largest and Smoothest
Extra Early Red Tomato in the World.

We have here the grandest large extra early smooth tomato of the age for market gardeners, private gardeners and shippers, no matter whether you plant one dozen or one million plants for your first picking. It is just the large extra early tomato thousands have been looking for. It is just the tomato you need. It is the tomato above all other extra early tomatoes. It is an enormous yielder. The plant is a perfect mass of large, beautiful red fruit. It is the ideal "stem setter," and as there is a remarkable absence of leaves the fruit ripens early and almost "all at once." The tomato that will bring you wealth and fame. Each and every vine is a perfect mass of large size fruit, as our illustration shows. It is a very compact grower and consequently can be planted one-third closer than any other early sort. If you grow extra tomatoes, don't miss planting it. It will be both pleasure and profit to you. It is the earliest large, smooth tomato ever introduced. Pkt. 10c. 3 for 25c., ½ oz. 30c., oz. 50c., ½ lb. $1.50, 1 lb. $3.50.

ANY TOMATO GROWER IN THE UNITED STATES CAN MAKE BIG MONEY GROWING

MOORE'S NEW EXTRA EARLY JUNE PINK

Better in quality, more handsome in appearance and immensely more productive than any other extra early pink-skinned variety. The vines are one solid mass of beautiful, large sized, smooth fruit, which always sells for fancy prices in every market. We have been developing and improving this remarkably valuable new extra early variety for the past eight years and now offer it to our many thousands of customers throughout the world as being the earliest, most productive and most profitable extra early pink tomato in existence. First pickings of ripe tomatoes last season sold for $1.00 per crate wholesale. The crown sets often consist of thirty beautiful large fruits. Moreover, it is exceptionally hardy. The fruit is deep, very smooth, solid and meaty and entirely without core. It is a great money maker for all who grow for early market. As a long distance shipper we assure our customers that it will carry reliably as well as our Moore's Royal Pink or Moore's Old Blue Stemmed Duke of York. That you know is saying a great deal. Every one of our customers who have had it pronounce it free from blight. Pine for the South and will make big money for the man who grows tomatoes in an early market, no matter where he may be located. Ask your neighbor about it; he may be planting it. Pkt. 10c., 3 pkts. 25c., oz. 50c., ½ lb. $1.00, 1 lb. $3.50.

All our Specialty Tomato Seed is grown, selected and saved exclusively from the best specimens for seed, and is of the highest quality. MARKET GARDENERS and CANNERS will find our SELECTED TOMATO SEED RELIABLE in every respect.

The growing of high grade Tomato Seed is a leading and important specialty with us and we probably distribute more seed to CRITICAL MARKET GARDEN and SELECT-CANNING ESTABLISHMENTS than any other three seedsmen in the United States.
MOORE'S WONDERFUL EARLY TOMATO

Introduced by The Moore Seed Co. Thousands say it is the Most Valuable Late Second Early and Best Flavored Bright Red Tomato for the Market Gardener Ever Introduced. The Only Tomato Adapted for Early Second Early or Late Crop. Yields 20 bushels per Acre.

Since we introduced this most excellent variety it has brought joy, gladness, satisfaction, and hundreds of thousands of dollars to the homes of market gardeners and others who have purchased their seed from us. It ripens evenly to the stem, has very few seeds, while the productivity is simply astounding. It has frequently produced 40 bushels of beautiful ripe fruit per plant in a season. It is well adapted to all sections of the country. If you would have a "good thing" don't fail to plant it. It is of especial value to tomato growers in the states of Maine, New Hampshire, Vermont, New York, Michigan, Minnesota, Wisconsin, North and South Dakota, Idaho and Washington, and all localities where the growing season is short, as it will withstand more frost and will mature beautiful large fruit early where no other sort will. The plants are strong, robust growth, have abundance of foliage, and we never knew it to show blight in our seed fields. Specimen fruits weighing one pound are not uncommon. It is singularly well adapted to growing in the Dominion of Canada, as well as throughout the United States, North, South, East or West, and every market gardener, no matter where located, will find it a sure money maker. The home gardener and home canner will find it equally valuable and satisfactory. The meat is unusually firm, sweet and bright, and carries well. Only from 3 to 6 days later than Moore's Supreme Early. It will always command the highest price on any market. Pure, selected seed only. Pkt. 10c., 3 for 25c., oz. 45c., ½ lb. $1.25, lb. $4.50.

THE OLDEST
LARGEST TOMATO
IN THE WORLD
AVERAGE SIZE
OF FRUIT

Moore's New Coreless Tomato. All markets requiring a bright, rich, red sort will be pleased with the Moore's New Coreless Tomato. It is adapted to all parts of the United States. Its flavor is so rich and delicious that in market or home it has no superior. Its fruits average 75 lbs. per bushel, are of uniform size and shape, smooth and shining, and it is a costly and expensive. The plant is very uniform, bearing large yields of delicious fruit. It has in its favor a variety of vigor and size, and especially for canning. It is the best all-around market tomato for the small kitchen garden.

MOORE'S NEW EARLY ROYAL PINK TOMATO

A truly wonderful variety—being of large size and wonderfully prolific, as our illustration shows—and continues to yield beautiful large fruit longer than the Globe, Acme, or Beauty. Variety is distinct in shape, firm-flushed, and of delicate and delicious flesh, which is slightly more acid than the Livingston's Globe. The fruits of the Moore's New Coreless variety are quite large, twelve to fifteen ounces. A good slicing variety; the seed cells being surrounded by bright red, heavy, meaty and delicious flesh, which is entirely free from crack and its fibres are of great length. It is equally valuable and satisfactory. It is particularly designed for long distance shipping, as it is entirely free from hard core ground. Its color is that bright, rich, red so desirable to packers of high-grade goods, and it is far more marketable than any other tomato of the year. It is a most excellent variety, and will always command the highest price on any market. It is ideal for growing in the South, East, or West.

SPARKS' EARLIANA (No. 10 Strain). Originated by Mr. Geo. C. Sparks, of Gloucester Co., N. J. Fruit is red, of good size and matures somewhat later than our King of the Early or Moore's Big Victor, and like these sorts is enormously productive. Our seed stock is direct from the originator. Pkt. 10c., oz. 35c., ½ lb. 75c., lb. $3.50.
CHALK'S EARLY PROSPERITY TOMATO

This is a highly valuable new variety—is in a class all by itself. It originated with James Chalk, one of the foremost and most successful market gardeners, and a noted expert tomato grower, of Pennsylvania, who has devoted forty years of his life to the hybridizing selection and developing improved forms of the tomato. It was he who gave to the world the famous Chalk's Jewel tomato, which was introduced to the tomato growers of America in the year 1889 and which has since brought millions of dollars to the pockets of the wide-awake tomato growers of America.

Mr. Chalk wishes to express through this variety to the tomato growers of America that his new EARLY PROSPERITY tomato will, if possible, prove even more valuable than his justly famous Chalk's Jewel.

Side by side Chalk's Early Prosperity produced three times as many marketable tomatoes as Earliana, Earliest of All, Early Freedom or Bonny Best. It is truly a wonder among early red tomatoes, being an enormous yielder, solid, firm, large size and unusually attractive. Satisfaction, profit and prosperity assured to all who plant it, either for the home garden, home market or long distance shipping. It is a brand new sort, free of all disease. Seed grown by James Chalk. Pkt. 15c., 3 pkts. 30c., oz. 50c., ½ lb. $1.50, 1 lb. $5.00.

Bonny Best Early
A Good Second Early Red Tomato

This variety is earlier than Chalk's Early Jewel, and within two weeks it is as large as Earliana. It is a vigorous grower, enormously prolific, with larger foliage than the Earliana. In color it is a beautiful scarlet red; setting its fruit in clusters of five or more at close intervals. Its greatest characteristic is its uniformity of size and smoothness in shape. Extra selected seed. Pkt. 10c., 3 pkts. 25c., oz. 35c., ½ lb. $1.00, 1 lb. $3.50.

Peachblow

This fine tomato resembles some peaches so closely in size, shape and general appearance that at a short distance away it is frequently taken for a peach. It seems to have the real bloom or fuzz of the peach upon its surface. Color purple, blended with orange-amber; very productive, comes early, lasts until frosts, and never rots. Delicate flavor. Skin thin, and peels off like that of a peach. A very ornamental variety. Every tomato grower should have a few vines in their garden. Attractive sort. Pkt. 10c., 3 pkts. 25c., oz. 35c., ½ lb. $1.00.

Made Big Money

I made big money on your Moore’s Wonderful Early and Moore’s Beefsteak tomatoes last season. These are my standard crops hereafter.—William G. Littlejohn, Washington, D. C.

Kansas Standard

The Kansas Standard belongs to the potato-leaved class of tomatoes; is of rapid vigorous growth, with strong heavy stalks, which stand up well unless, which is often the ease, they are pulled down with over-abundant fruit. It begins blooming when only six or seven inches high, attains a height of from two and a half to three feet and sets its fruit—a rare habit in any tomato—from the first blooms. The fruit is of a bright glossy red color and is produced in clusters of from four to five tomatoes and ripens after Moore’s Wonderful Early. In shape the fruit is round, slightly flattened, ripe and clear to the stem, perfectly smooth. It has very few seeds; the meat is thick and firm and of a most excellent flavor.

This tomato is a first rate keeper and shipper. Highly recommended. Pkt. 5c., oz. 25c., ½ lb. 75c., lb. $3.50.

I. X. L. Early

(True Stock.) Matures same time as Sparks’ Earliana, but grows somewhat larger and continues longer in bearing; originated with W. E. Ashcraft, Gloucester Co., Va. Skin red. Heavy cropper and generally ripens its crop all at one time. Vines very compact; fruit solid and attractive. We feel sure every one who plants it either for market or home use will be highly pleased with its many fine qualities. Oz. 25c., ½ lb. 75c., lb. $3.50.

Sparks Earliana (No. 10 Strain)

Originated by Mr. Geo. C. Sparks, of Gloucester Co., N. J. Fruit: red, of good size and matures somewhat later than our King of the Earliana or Moore’s Big Victor, and like these sorts is enormously productive. Cultivated stock is direct from the originator. Pkt. 10c., oz. 25c., ½ lb. 75c., lb. $6.50.

MY MARYLAND

A second early red-skinned variety, being a cross between Chalk’s Jewel introduced by Mr. R. H. Chalk and our Early Freedom. Vigorous grower, heavy yield. It is quite a favorite with many tomato growers around Baltimore, Md. It matures after Moore’s Wonderful Early. Oz. 25c., ½ lb. 75c., lb. $5.00.
Bigger Crops, Bigger Prices, Bigger Profits
Are Assured to All Those Who Plant Moore's Tomato Seed

MOORE'S SUPREME EARLY
A Marvelous New Tomato in a Class All by Itself!
In introducing this most wonderful early and valuable variety to the tomato-growing public, our Mr. Moore has given it the name of Supreme, for the reason that it embodies all the desirable qualities produced in early tomatoes "up to date" and is in a class by itself. It possesses all the highest, greatest and most excellent qualities yet attained in early tomatoes to a Supreme degree combined in this one sort. Plant it and you will agree with us. It is a beautiful large size, very early, red skinned variety, and as such is supreme in earliness, yield, beauty and fine quality, and what is still more valuable, it commands outside prices on any market. Our Moore's Supreme Early is miles ahead of any other of its class. It is not excelled for market or home garden. It is the tomato for every buyer. The plant is a "all fruit," abundant, delicious solid beefsteak fruit, with few leaves, and of compact habit. It is no uncommon thing to pick beautiful large solid ripe fruit sixty days from setting; is also very hardy. No tomato grower should miss planting liberally of this notable new early variety. Pkt. 10c., 3 pkts. 25c., 7 pkts. 50c., 1/2 oz. 25c., oz. 40c., 1/4 lb. $1.25, lb. $4.00. It has come to stay.

MOORE'S EARLY ABUNDANCE TOMATO
A valuable second early variety of great merit; and as its name indicates is an exceedingly prolific bearing tomato. The flavor is very delicate and agreeable. Color beautiful, glossy reddish purple. Fruit extra large in size, very symmetrical in shape, remarkably solid, smooth and meaty as a beefsteak. The size is fully maintained until the end of the season. It is a superbly good shipper and fine keeper. Adapted to every locality, and very especially for Southern growers, owing to the fact that it carries well long distances, and we never knew it to develop any blight no matter where grown. Its beautiful shape, color and delicious quality always insure the highest market price. Pkt. 10c., 3 pkts. 25c., oz. 35c., 1/4 lb. $1.00, lb. $3.50.

MOORE'S NEW IMPROVED GLOBE
Seed Grown From Blight Proof Stock
Color a fine glossy rose, tinged with purple. Very early. The fruit is of a much larger size than the Livingstone Globe, which is a decided advantage. Enormously productive; no fruit too small for market. It has already become a big leader with many prominent and successful tomato growers in all parts of the country. It has never shown any tendency to blight with us. A fine shipper. Being smooth and of larger and always into fancy prices and will invariably sell for double that of Crone's Pink and treble that of Earliana, Mauve's Early, Acme, Fordhook, Freedom, and other old sorts. Pkt. 10c., 3 for 25c., oz. 30c., 1/2 lb. 85c., lb. $3.00.

MOORE'S NEW GOLDFINDER
"Does Not Sun Scald Nor Blight"
A new tomato with many desirable qualities and quite distinct from all other sorts. It is distinct in color, size, shape and color of fruit, the foliage being dense and of a dark green color. The fruit is a pleasing shade of red, medium early and is set well up among the dense foliage which prevents "scalding, sun cracks," etc. David Myers, Esq., Northfield, N. J., writes:—"Your Moore's Goldfinder Tomato pleased me mightily. Not a single plant sun scalded, while I lost one-half my Earliana and Paragon from this cause. I averaged twenty cents more per basket for them than either Paragon or Stoney. The yield astonished me. The branches were stiff with fruit. Not a single plant blighted. Pkt. 10c., 1/2 oz. 25c., oz. 35c., 1/4 lb. $1.00, lb. $3.00.

HORNER'S EXTRA EARLY PROLIFIC
An extra early red variety, quite smooth and solid. As its name indicates, it is extremely prolific. It originated with Mr. J. W. Horner, a large and very successful grower at Fort Lauderdale, Fla., and is the result of many years of selecting, experimenting, crossing, and testing. Hundreds of acres of this highly prized variety are successfully grown every season for northern markets. We have greatly improved this variety in size, solidly and smoothness, and in this respect our strain is superior to that sent out by the originator. This variety has netted Mr. Horner at the rate of $2.00 per acre. Pkt. 10c., 3 pkts. 25c., oz. 40c., 1/4 lb. $1.25, lb. $4.00.
Moore's Wonderful Tomatoes
Are Worth Many Millions of Dollars to Tomato Growers

MOORE'S BIG VICTOR
EXTRA EARLY

"There's Big Money in it for Early Tomato Growers."
Introduced by us in 1905

We have a big reputation for growing good tomato seeds and for having the best varieties. A word to the wise—MOORE'S BIG VICTOR EXTRA EARLY TOMATO is a brand new and distinct variety never before offered to the public, and was produced at great cost. This valuable market variety was developed from a chance seedling found growing in a field of our Moore's King of the Earlies. It is the earliest large fruited red variety, and the largest. Extra early red variety ever produced. Its yield is enormous, every vine being a great mass of large size red fruit of the stem setting type. Single clusters of 25 to 30 tomatoes are not uncommon. It is truly a wonderfully productive variety. It invariably brings the highest market price. This wonderful variety is actually earlier and larger than our Moore's King of the Earlies, and fully as smooth—but as a large early tomato grower remarked to us—give me earliness and large size, and put it where it will ripen and I'll sell it both. He was right. Every tomato grower should plant it. Our word for it—he will miss many dollars if he don't.
Pkt. 10c., 5 pkts. 25c., oz. 40c., 1 lb. $1.25, 2 lb. $4.00.

MOORE'S NEW RED GLOBE

This is probably the Greatest Novelty in Tomatoes ever Introduced

Said by all who have seen it to be the most perfect shaped canning variety ever produced. Large size, globe shaped, full at stem end. Bright red, a strong grower and big cropper.

Yes, Moore's New Red Globe Tomato has a great novelty. It is a great novelty in shape, a great novelty in yield, a great novelty in color, a great novelty in quality, a great novelty in growth—indeed it is a highly valuable novelty; and all who grow tomatoes should become closely acquainted with it at once by planting large crops of it. It ripens immediately after Moore's New Wonderful and Moore's New Early Royal Pink. The shape is large, the sex is male, the crop, rich bright red variety, highly suitable for canning, home market, home garden or long distance shipping. Fruits solid, coreless and almost seedless. Every amateur, market gardener or canner should plant it. Every fruit is marketable. We sincerely hope you will not miss at least some of this valuable novelty. The depression at the stem end has been almost eliminated, making it the most profitable variety for canning, owing to a very small amount of waste. It is immensely productive; clusters of four to seven fruits are produced at six to eight inches apart, along the stem. All of the fruits are of marketable size, and many of them are quite large, twelve to fifteen ounces. Always free from green core; ripens all over and through the flesh and right up to the stem, all at once. A grand seedling variety; the seed cells being surrounded by bright, glossy red, heavy, meaty and delicious flesh. The strong outside and inner walls of flesh of the Moore's New Red Globe render it a very firm fruit and one of the best for long distance hauling or shipping. Pkt. 15c., 2 pkts. 25c., oz. 40c., 1 lb. $1.00, 2 lb. $2.25.

MIXED SMALL TOMATOES—The above nine varieties, Pkt. 10c., oz. 30c., 1/4 lb. 85c., lb. $5.00.

Moore's Magnus Improved

We have been growing this variety for our customers for upwards of twenty years. Many thousands of our customers grow it every year. It stands in the front rank among purple or plum fruited, sweet, early, fine, productive, good keeper and shipper; fine quality, delicious flavor and heavy yielding. Good for long distance shipping, home market or family use. Very distinct and commands good prices. Pkt. 10c., 5 for 25c., oz. 30c., 1/4 lb. 85c., lb. $3.00.
Moore's Triumph Tomato

The Greatest Second Early and Late Tomato ever offered to the American tomato grower. Planted last year by over 6,000 of the best gardeners and canners in America, who all unanimously endorse it as the best ever introduced.

Our illustration gives a very correct idea of the size and shape of this valuable new variety. We introduced this grand tomato to our gardening friends fifteen years ago, and since then scores of seedsmen have tried without success to offer one as good. Words cannot adequately describe its many admirable qualities for the market gardener, canner or private grower. We can truthfully say, however, that it is the finest medium early or late tomato ever introduced, a truly remarkable, handsome, very large, solid, smooth, bright, glossy red variety of the finest quality, ripens clear to the stem; wonderfully productive and sure to ripen; does not crack; sells at sight. Its large size might lead some to believe that its fruits are few in number, yet the fact is, it is even more prolific in fruiting than any of the standard sorts now in cultivation. It is unquestionably the heaviest cropper known. The tomatoes are borne in immense clusters of four to eight fruits, and occasionally ten large fruits have been found in a single cluster. In solidity and neatness it has no equal, while in interior quality none surpass it. Whilst it is an excellent sort for medium early, it is the best in the world for a late crop. As a carrier it "holds up" perfect condition longer than any other sort. The large size, beautiful color and productiveness are maintained throughout the season until killed by frost. Every grower should grow this for his home market. Pkt. 10c., 3 oz. 35c., oz. 40c., 1/2 lb. $1.00, lb. $3.50.

Moore's Old Blue Stemmed "Duke of York"

Of Special Value to Florida Growers and all Long Distance Shippers

Introduced by us. One of the grandest tomatoes recently introduced. Color rich glossy scarlet, similar to our Moore's Royal Early Pink, splendid cropper, somewhat globular in shape, flesh very firm, large size, fine flavor. A leading feature of this superb variety is the uniformity of size, larger than any known kind, whilst its profusion of clusters, averaging eight and ten large evenly-formed clusters each, makes it con- spicuously handsome. Ripens evenly to the stem, is a strong, healthy grower, not subject to rust or blight, is an enormous cropper, and produces large thick, firm, dark red fruits, holding its size exceedingly well until the last picking. Quality the very best, very solid and meaty. It is in every way a desirable variety for market gardeners, as its beautiful appearance always insures an extra price. As a long distance shipper it stands foremost of all other sorts. The large size, flesh quality, yield, etc., are naturally much superior to other sorts. Kinds and color stand longer and are better packed. As a canner, it is pre-eminent. Pkt. 10c., 3 for 35c., oz. 35c., 1/2 lb. $1.00, lb. $3.50.
IMPROVED DWARF CHAMPION. Fruit glossy purple, of medium size, without core and an immense yielder. A very popular variety in many localities. Pkt. 10c., oz. 25c., lb. 75c., lb. $2.50.

SELECTED NEW STONE. Similar in habit and appearance to Dwarf Champion, but fruit larger. Pkt. 10c., oz. 25c., lb. 75c., lb. $2.75.

LIVINGSTON’S BEAUTY. Early, large, smooth, solid, and excellent in quality. Color a very glossy crimson, with a tinge of purple. Pkt. 5c., oz. 25c., ½ lb. 60c., lb. $1.75.

SELECTED EARLY PARAGON. Flesh solid, well covered and flavored. Ripens between the early and late varieties. Color of skin glossy deep red. Very choice stock. Pkt. 5c., oz. 25c., ½ lb. 60c., lb. $1.75.

BUCKEYE STATE. Color somewhat darker than Beauty. Maturing about the same time as our Moore’s Triumph. Good shipper. Pkt. 10c., 3 pks. 25c., oz. 50c., ½ lb. 60c., lb. $.50.

THE TRUCKER’S FAVORITE. Color purplish red; very solid, firm flesh, and heavy yielder. Pkt. 10c., oz. 25c., ½ lb. 75c., lb. $3.50.

GOLDEN FIG

It is wonderfully productive, yielding double that of other sorts. This variety makes pickles and preserves of the finest quality. It is pre-eminent in the quality of the size of the fruit and is larger. Color dark crimson to purple. Our customers in the Gulf States, where this variety is principally planted, will find our improved strain the best they ever had. Pkt. 10c., oz. 30c., ½ lb. 60c., lb. $2.00, 10 lbs. $17.00.

LIVINGSTON’S GLOBE. Very distinct in shape, firm fleshed and entirely of delicate flavor. Introduced in 1908. It is an extra good all-around sort, of a distinct globe shape. In time of ripening we class it with the second earliest. The fruits are large in size, and a good marketable size is retained throughout the season. It is always smooth, of firm flesh, and few seeds; ripens evenly; color a fine, glossy rose, tinged with purple. Our seed is the best possible quality. Pkt. 10c., 3 pks. 25c., oz. 30c., ½ lb. 85c., lb. $3.95.

CHALK’S EARLY JEWEL TOMATO. Originally introduced by us in 1899. A good large second-early red tomato. The genuine seed can only be had from us. A very early large-sized red variety, well adapted for early localities; selected seed only. Seed stocked by James Chalk. Pkt. 10c., oz. 25c., ½ lb. 75c., lb. $.50.

RED ROCK. A large late red variety of much merit. Extra selected seed. Pkt. 10c., oz. 30c., ½ lb. 75c., lb. $3.00.

PONDEROSA, Henderson. A very large fruited, solid, pink variety. Pkt. 10c., oz. 50c., ½ lb. 1.00, lb. $3.50.

GOLDEN GAGE. This is a variety of pre-eminent merit. It is a golden gage tomato wonder, it is the most productive yellow sort. Fine grained and most luscious quality. It should be in every market gardener’s field and city garden. It is solid, smooth, large size, ripens early, and is the most beautiful yellow variety ever sent out. Fruits are sometimes tinged with red at the blossom end. None excel it for eating raw or cooking. The hand some golden-yellow color makes most favorable contrast in a dish with red and green. Makes delicious rich preserve. It is a beauty and the best of all yellow sorts. Pkt. 10c., oz. 50c., ½ lb. 75c., lb. $3.75.

FORCING or GREENHOUSE TOMATOES

We make a special study of these and find the following to give the best satisfaction. Those who force tomatoes under glass can place fullest dependence in our varieties.

MOORE’S EARLIEST OF ALL. Unquestionably the earliest red forcing tomato in cultivation. Fruit smooth, of medium size and very prolific. Pkt. 20c., oz. 60c.

SUTTON’S PERFECTION. A superb tomato, combining great productivity, excellent size, uniform high, and large size. Fruit round and perfectly smooth; color rich bright crimson; flesh solid, almost free from seeds, and of an agreeably rich and firm flavor. Glorious exhibition and excellent for general indocultivation. In favorable seasons enormous crops may be grown out of doors. Pkt. 25c., 3 lbs. 60c., 5 lbs. $1.25.

BLENNHEIM BEAUTY. A most excellent Scotch variety, of medium size, rich glossy pink color, and heavy set. A truly superb variety. Pkt. 10c., oz. 30c., lb. $3.00.

LORILLARD, Greenhouse grown seed, a medium size red, and very productive variety. Pkt. 20c., ½ oz. 60c.

FORCING GOLDFINDER. Beautiful and productive, glossy red, medium-sized, and solid, few seeds. Compact habit. Pronounced by many good judges to be the best of all for forcing. Pkt. 50c.

MOORE’S SURPRISE. A most wonderful and valuable novelty. Fruit red, small, solid, and produced in wonderful profusion. Habit of vine open. Pkt. 50c.

MOORE’S BIG CROP. This variety has proved a marvelous bearer of tomatoes which should become so widely grown as this under glass for some use or market; it is bound to give the utmost satisfaction to all. It is of perfect shape, of a deep rich crimson color. The skin is firm without being thick and the fruitfulness of the plant perfectly astonishing. Pkt. 50c., large pkt. $1.00.
Perfection Red Top Market White Globe. Private market gardener's stock. It is the sweetest, tenderest, handsomely-looking top white globe turnip we ever grew. Our illustration, drawn from nature, shows its smooth, regular form, and rich, purple-colored top. The best early globe variety grown and the most profitable market sort of large size and very rapid growth; fine, juicy quality. It keeps well. Pkt. 5c., oz. 10c., ¼ lb. 25c., lb. 75c., $2.15.

**PERFECTION RED TOP WHITEGLOBE**

**PURPLE TOP FLAT.** Strap leaved. Pkt. 5c., oz. 10c., ¼ lb. 25c., lb. 75c., $0.90.

**PURPLE TOP WHITE GLOBE.** Imported seed. Good stock. Pkt. 5c., oz. 10c., ¼ lb. 15c., lb. 40c., 10 lbs. $3.50.

M. & S. Tetlow Golden. A market sort. Of medium size, short top and very rapid growth. Globe-shaped bulbs, with deep yellow flesh, highly aromatic, and of delicious flavor. The top of the bulb is of a beautiful light green, while the middle and lower part is a well-developed, beautiful golden-yellow color. An excellent keeper, remaining solid long time. Excellent fall and winter sort. Every turnip grower should plant it. Sells on sight. Pkt. 5c., oz. 10c., ¼ lb. 15c., lb. 45c., 10 lbs. $4.00.

**NORFOLK WHITE GLOBE.** A late variety for feeding stock. Pkt. 5c., oz. 10c., ¼ lb. 15c., lb. 40c.

**AMERICAN GREEN TOP ABERDEEN.** Very productive, good table variety. Pkt. 5c., oz. 10c., ¼ lb. 20c., lb. 50c.

**EXTRA EARLY PURPLE TOP MILAN.** Pkt. 5c., oz. 10c., ¼ lb. 20c., lb. 70c.

**IVORY BALL.** Good table sort. Very early. Pkt. 5c., oz. 10c., ¼ lb. 35c., lb. $1.25.

**GOLDEN BALL, or ORANGE JELLY.** Pkt. 5c., oz. 10c., ¼ lb. 15c., lb. 40c.

**COW HORN TURNIP.** Pkt. 5c., oz. 10c., ¼ lb. 15c., lb. 10c. $0.50.

**EARLY WHITE FLAT DUTCH.** Pkt. 5c., oz. 10c., ¼ lb. 15c., lb. 35c., 10 lbs. $3.35.

**SOUTHERN SEVEN TOP.** Used only for greens. Pkt. 5c., oz. 10c., ¼ lb. 15c., lb. 40c.

**JERSEY WINTER** (Half Long Vortum). This variety is grown in large quantities for the Philadelphia market and is very popular. Furnish red top, flesh firm, white and of most excellent quality, the best winter keeper of all. A most excellent late sort. It resists cold so well that it can be sown to ripen in the open ground a great part of the winter. Fine sort for home use and very profitable for market. Pkt. 10c., oz. 15c., ¼ lb. 40c., lb. $1.50.

**Carter’s Model Purple Top Yellow Ruta Baga.** A Perfect Table Turnip. No other sort equal to it in point of tenderness, sweetness, juiciness or nourishment. Our choicest stock grows entirely without neck and very small top and tap-root, good globular shape, excellent table quality and best market variety. It is thoroughly fixed in type and entirely distinct from ordinary varieties which are used mainly for feeding stock. It has short leaves grows clean and smooth as a turnip. The flesh is remarkably fine and delicious in flavor. Will mature in fifty days from planting. We pronounce this the best and most desirable Ruta Baga grown. We most earnestly commend this fine sort to all who wish to grow for market, as it will bring much higher prices than any other sort. No market gardener should plant any other kind. All who plant it praise it. Pkt. 5c., oz. 20c., ¼ lb. 60c., lb. $2.90.

**LONG ISLAND TOP YELLOW RUTA BAGA.** Oz. 10c., ¼ lb. 15c., lb. 45c.

**MYERS’ BEAUTY RUTA BAGA.** Good market sort. Pkt. 5c., oz. 10c., ¼ lb. 20c., lb. 70c.

**IMPROVED PURPLE TOP RUTA BAGA.** Oz. 10c., ¼ lb. 15c., lb. 35c.

**Danish Golden Milk Turnip.** At the present time the price of grain for feeding stock the profits of dairying and stock-fattening is very much reduced, and the feeding of roots alone offers the solution of profitably conducting many farm industries. The farmer who raises the immense value of roots of various kinds for feeding his dairy cattle and all other stock he may have, the sooner he will experience that degree of prosperity he has so long waited for. It is the growing and feeding of root crops alone that makes the English, Danish and other European farmers so much more successful than we are. The dairy can be made to pay big profits if a judicious system of root feeding be practiced. Our Golden Milk Turnip, which we have brought from Denmark, is the best of its class and is the Turnip principally grown in that country as a stock-feeding crop. It will mature in fifty days from planting, and will increase the flow of milk of the richest quality in a manner that will astonish the most skeptical. The roots are of immense size, of a rich golden yellow, very color, very solid and of the most rapid growth and a perfect keeper. In point of productiveness it is only necessary for us to say that seventy tons have been produced on one acre of ground, while from thirty-five to forty tons is no uncommon yield. Can be sown from April to July 16th, broadcast or in drills; we recommend the latter. We advise several sowings to be made during the period above-mentioned, the last for late fall and winter use. It is also a good sort for table use. Of course it should be fed in conjunction with other feed, and in this way it will enable any dairyman to reduce his feed bills twenty-five per cent, and will increase his milk supply from twenty to thirty per cent. A trial will convince. Sow two pounds per acre. Pkt. 5c., oz. 10c., ¼ lb. 20c., lb. 60c.

**LHRBS**

**BASIL, SWEET.** Pkt. 5c., oz. 20c., ¼ lb. 40c., lb. $1.50.

**DILL, American.** Much superior to the imported. Pkt. 5c., oz. 10c., ¼ lb. 50c., lb. $1.75.

**FENNEL, SWEET.** Pkt. 5c., oz. 10c., ¼ lb. 25c.

**LAVENDER.** Pkt. 5c., oz. 10c., ¼ lb. 50c., lb. $1.25.

**Marjoram, Sweet.** American. The strongest and most pungent, best for market. It is specially esteemed for seasoning, both in summer and also dried for winter use. Pkt. 10c., oz. 20c., ¼ lb. $1.75.

**SAGE.** Pkt. 5c., oz. 20c., ¼ lb. 50c., lb. $1.50.

**SUMMER SAVORY.** Pkt. 5c., oz. 10c., ¼ lb. 30c., lb. $1.00.

**Thyme.** American. Of upright habit; broad-leaved. Very productive, highly flavored and hardy. Best for market purposes. Pkt. 10c., oz. 40c., ¼ lb. 1.50, lb. $3.00.

**THYME. Imported.** Pkt. 5c., oz. 25c., ¼ lb. 75c., lb. $2.75.

**TARRAGON.** Strong plants, 25c.; by mail, 30c.
Moore's Superior Farm Seeds

**HOLLAND RYE GRASS 5 TO 7 TONS PER ACRE**

better as a hay and pasture grass than Holland Rye Grass. It is very nourishing, equally as nourishing as Timor. It is very productive, and so very rapid growth, and ready to cut before other sorts are half grown, and far surpasses in weight of herbage. We recommend it for trial, and give it our unqualified endorsement. All stock eat it greedily.

The experimental farm at Cheltenham, Victoria, Australia, says: "We have grown Holland Rye Grass successfully, and we think it is the best grass.

It is green from the middle of March to about November.

It is the grass for all climes. It will grow out all kinds of soil, even on yellow sand, and is equally good for pasturing, curing into hay or cut green. All kinds of stock eat it readily, and it is very rich in nutritive value. "This is the best grass that has yet been tried at this station."

When properly sown it catches well, giving immense crops the first year; in favorable seasons a fair yield of hay may also be obtained. Up to the present the best results have been obtained by sowing plenty of seed on well prepared ground as early as possible in the spring, and one-half bushels should be sown to the acre, depending somewhat upon the season and condition of the soil. The abundant forage is of excellent quality and, under ordinary circumstances, will give heavy growth which can be cut for hay, and one-half bushel may be obtained, in addition to a good yield of hay. Thus the grass has endured drought in the South perfectly and has never winter killed.

On our own fields, where we have now cultivated same for the fourth year, the Holland Rye Grass attains a height of 5 to 6 feet. It is extremely bushy and furnishes an endless amount of magnificent hay. When we were in Europe we were most remarkably impressed with Holland Rye Grass.

In Holland and Denmark where same is at home, they cut it three times for hay, and it is an unusual thing to get nine tons of extremely nutritious hay per acre; in addition to this, good pasture late in fall. As a quick pasture for dairy cattle it has no equal. Now, when we say it can do even in a greater measure here in America, for we have soils that are peculiarly adapted to it. We have grown it in a small way mixed with Giant White Clover, for both pasture and hay with highly gratifying results. There is not an agricultural college anywhere that has tested same but Endorses it emphatically.

You will do the same by sowing it a trial, but by all means order grown same. Call New England, Orchard, Perennial Rye or Kentucky Blue or Red Top. You should sow early in the spring, and sow not less than 10 lbs per acre—40 lbs is better.

Sow plenty of seed at first seeding and you will get a big, heavy, splendid start at once that will last for years. Don't skimp on your seed, as we find that you get much better and cheaper. Splendid, clean, heavy seed, postpaid, 1lb. 40c., 3 lbs. $1.10; by express or freight, 25c., 10 lbs. $1.50; 100 lbs. $11.50.

**EARLIEST RUSSIAN MILLET**

The earliest and most valuable of all the millets. It's considered equal, and some say superior to 

**Mennonite Prolific Giant Spring Rye**

Distinct and Valuable

Most productive sort. Distinct from the winter rye, grain of finer quality and more productive; can be successfully grown in any latitude, and is now being largely sown in the Middle States in place of oats, or winter rye.

The straw stands stiff, 7 to 8 feet high, produces 3 to 5 bushels of grain per acre, as it does not stand like winter rye. The grain per acre should be sown. The value of Mennonite Prolific Spring Rye Straw per acre is double that of winter rye, and is worth more than that of oats and its straw combined.

If we could introduce here one-tenth of the letters that we get from farmers thanking us for urging them to plant some of our Prolific Spring Rye, it would do your heart good to read them. Farmers tell us they have made a great deal of money by following our advice on rye, wheat, oats, corn, etc., and we know that there are many others who have done the same. It is a hardy, bushy, glorious, early-maturing, and a heavy-yielding variety of rye. It is a heavy-yielding and does splendidly everywhere. We ran short last season in filling orders, but this year have a couple of thousand bushels more, and we hope that orders will be filled in early so as not to disappoint anybody.

This magnificent rye is of recent introduction, and it has proven to many farmers to be a most valuable addition to our seed list, and we have every reason to believe it will be an even more valuable addition to our Seed List.

**As a Catch Crop.**

We sowed some of our Mennonite Prolific Spring Rye on winter wheat that had died out, waiting until almost April, and found it did splendidly. It gave us a yield of over 40 bushels per acre. It is one of the very best things to sow for a catch crop, as it always gives good yields. Price of our Mennonite Prolific Spring Rye: 100 lbs. $3.00, 3 lbs. $1.00, postpaid; by express or freight, 25c., by freight, 10 lbs. 60c., 25 lbs. $1.35, 50 lbs. $2.60, 100 lbs. $5.00.
The image is a page from a book or a magazine, featuring advertisements for Oats and Black Norway Oats. The text is quite long and includes multiple sections, likely discussing the benefits of the oats and providing information on their cultivation and usage. The page also contains some diagrams and illustrations related to the oats.

The text includes various themes such as the yield of bushels from 100 to 200 per acre, the famous Black Norway Oats, and other reasons why you should plant them. It mentions benefits such as the yield of bushels, profit, and feeding quality. The page also advertises ENGLISH POTATO OATS as an extraordinary heavy-yielding sort, with a description of its characteristics and benefits.

A portion of the text is transcribed below for better readability:

**YIELDS FROM 100 TO 200 BUSHELS PER ACRE**

**The FAMOUS BLACK NORWAY OATS**

It pays on any ground.

**MOORE’S FAMOUS BLACK NORWAY OATS**

Imported Direct from Bergen, Norway

Few farmers are aware of the fact that the best black oats in the world is produced among the fjords of Norway facing the Arctic Ocean. It is here that the black oat is cultivated to its greatest perfection as to yield, weight, quality and freedom from disease. Our stock seed was obtained direct from M. Hansen Hjort, who has devoted two decades to developing his favorite strain of “Hjort’s F!red Braun.” Mr. Hjort has, on carefully prepared land, raised as high as 311 bushels (by weight) per acre of his truly wonderful oats. Our own and other tests the past season showed a yield of over 225 bushels per acre. Any farmer can secure the same enormous yield under the same conditions. An acre of ordinary land on your farm that will only produce 20 bushels of common oats will readily yield 100 bushels of our Famous Black Norway Oats.

We do not feel backward in pushing this Famous Black Norway Oats, because we have seen such marvelous yields of this variety the past season that we know any farmer can make lots of money scwing it. There is nothing like it in earliness in any other kind of black oats that we know of. Our crop was ripe and stacked before any of our neighbours'. The wonderful yield of this remarkable oats, as well as its resistance to the elements, is very largely due to its wonderful stooling habits. We have seen single kernels produce 122 strong, healthy stalks, every farmer knows that when an oat stools, its yield is increased in proportion. Take an oat that does not stool and it cannot produce as heavily.

**OTHER REASONS WHY YOU SHOULD PLANT IT**

First—Drought Proof. It matures so early that the crop can be gathered before dry summer weather sets in. No sort we ever heard of so completely and thoroughly withstands dry weather.

Second—Feeding Quality. No variety equals it in superior sweet quality. All kinds of stock prefer eating it to any other.

Third—Profit that Interests You. It makes farming profitable in every state and territory in the United States. Your neighbors will want it if they see or hear of it. They will pay you an extra price for it.

Fourth—The Last Forty Bushels. It is the last 40 bushels per acre that makes farming profitable. If the common sorts yield 30 bushels per acre, and this gave you 70 bushels, the last 40 bushels would be the profit; but if this gave you 100 bushels, it is very easy to figure out great profits on 100 acres or more. Try it and convince yourself.

Fifth—Many More Reasons. It comes from a country where rust does not exist. The low price we sell it for ought to induce every farmer to plant it. Its wonderful stiff straw holds it up like a wall where the wind and rain beat other sorts flat. Yield, which is enormous, some say 70, 100, 150, and others 200 bushels per acre.

If we had more room we would tell you more.

**PRICE OF**

Moore’s Famous Black Norway Oats

Large pkg. 15c., 10, 25c., postpaid; by freight or express, pk. 75c., ½ bu. $1.00, bu. $1.90, 25 bu. $4.00, 5 bu. $9.00, 10 bu. $17.50, 20 bu. $34.00, 25 bu. $42.00.

215 BUSHELS PER ACRE

Salomon Cutter, Genesee Co., N. Y., says: “Your Famous Black Norway Oats was a sight to behold, standing fully four feet high, a solid mass of grain. The straw was so stiff that not a stem lodged. It yielded at the rate of 215 bushels of 32 pounds per acre. I congratulate you warmly upon your remarkable success in producing farm seeds of such superlative merit.”

Moore’s Famous White Norway is an exact counterpart of the Black Norway—and price the same.
New Zealand OATS

It will Pay You Big to Change Your Seed Oats This Year

It will pay you to sell your common Oats and sow these improved varieties this year while the seed is so cheap. In our field the New Zealand Oats yielded about 100 bushels to the acre, and the Lincoln 90 bushels, while neighboring fields of other varieties under similar conditions yielded only 40 to 50 bushels. The increased yield on a few acres will cover entire cost of seed for your farm.

New Zealand Oats

Progressive farmers who have grown them pronounce them to be the most valuable Oats ever grown in America. It contains more new blood, hence more vigor and producing qualities than any other Oat we know of.

It Has Stood the Test on 16,700 farms, scattered all over America, in the remotest corners and obscurities of each state and territory—everywhere it did well, despite the most terrible season ever known.

This is absolutely the earliest Oat grown. Nothing like it in earliness that we know of. Our crop was ripe and cut and stacked eight days before other sorts were ripe, which stamps this variety as absolutely the earliest in existence.

It means big money to the farmer. That's what the earliest Oat always brings in. Remember: and especially so the farm, for many farmers are short on Oats in the summer when this ripens.

In Widespread. No sort that we have ever tested so thoroughly and completely withstand dry weather—yes, long continued hot droughts as New Zealand; the price of our New Zealand Oats is 1 lb. 30c., 3 lb. 60c., 6 lb. 1.25. More. 1 bu. 3.25. 2 bu. 6.50. 3 bu. 9.75. 4 bu. 12.80. 5 bu. $20.00. 6 bu. $23.00. sacks included. Indeed, it seems to be proof against every element of nature in the shape of weather and other circumstances.

Strong Straw. Now, then, New Zealand Oats have wonderfully stiff straw, withstanding severe winds to a marked degree and coming forth after storms standing straight erect—please to behold. When other sorts lodge badly, this stands up like a strong stone wall.

Yield. This is simply enormous, some say from 60 to 100, 150, 200 bushels or more per acre, but we honestly believe that 100, yes, up to 200 bushels or more can be grown per acre under careful cultivation; when specially planted it has yielded as high as 350 bushels per acre.

The color is a beautiful silvery white beautiful in the extreme, adds it to sell quickly and rapidly at an advanced price is almost everywhere. The color alone makes it a great seller.

No Oat exceeds this in excellent quality, and it has that advantage that it will make more and better oat meal than any other known Oat at the present day, while all millers will fight for it for food. All millers who have seen it pronounce it excellent to the extreme.

Now, then, here is an Oat that makes profitable farming absolutely certain in any state from Maine to California, and south to the Gulf and north through Canada. This Oat, if sown, will insure profitable farming. It will certainly yield from 20 to 100 bushels more per acre than any of the common varieties, which will ten times pay the cost of the seed.

The price of this Oat is ridiculously low, but that's the way we do when we have a good thing; we sell it at a low price, so that all farmers can make money out of it.

The Last Forty Bushels. It is the last forty bushels per acre that makes farming profitable. If the common sorts yield 30 bushels per acre and this gave you 70 bushels, the last 40 bushels would be the profit; but if this gave you 150 bushels, it is very easy to figure out great profits on 100 acres or more. Try it and convince yourself.

GROW WONDERFUL ARABIAN CORN

FOR POULTRY

Can be planted anywhere in the United States, and is the cheapest poultry food known. Stalks grow four feet high and produce numerous heads of grain 12 to 18 inches long. The yield of grain is simply enormous, averaging about one pound when fully ripe. Plant same time as field corn. It's a wonderful egg producer and feeds farmer besides it is a wonderful health promoter. All poultry and pigeons eat it greedily. The leaves and stalks make excellent forage for cattle either green or dry. A pound will plant an acre. Unaffected by drought or dry summer. Sow in 3 foot rows. Pkt. 10c, (lb. 25c., postpaid); by express, lb. 35c., 5 lb. $1.00.
There is only one way possible to succeed in fruit growing, and that is to plant the right varieties. It does not matter how good your market is, or how well your soil is adapted to fruit, or how hard you work, you are bound to fail unless you plant varieties that will produce the kind of fruit you want and in paying quantities. We have gone over the long lists of varieties year after year adding to and discarding until we have a list that cannot fail to do well. We have worked the problem out and we are sure we can help you. We have laid the foundation for success for hundreds of our customers. We want to lay the corner stone in the foundation of your successful career—fruit growing. You can succeed. We will help you—with advice, good plants and the right varieties. We are at your service. This year our plants are very fine and our stock is larger than ever, and we solicit large, as well as small orders. Wherever possible we advise all plants to be shipped by express. Note: Our plants are first-class, full offile, and very large. The price double the price of many on the market. Besides, they are the varieties that will make you money. It is what you are after.

**BLACK BERRIES.** Buy 1 doz. per doz. add 10c. per 100c. per 100c.

**BLACK DIAMOND.** The fruit is jet black and firm, and will not soften either on the bush or after it has been picked. It has an exceptionally fine flavor, spicy and melting. The berry, is about the size of the Kenoyer or Eldorado, an abundant bearer, frequently perfect as many as 500 berries on one vine, as many as nine quarts have been gathered from a single vine.

**OLUTS ANY OTHER.** Mostly Blackberries decline in productiveness after the fourth or fifth year. The Black Diamond will bear well for twenty years. We have a field of Black Diamonds now in its ninth year, bearing its best every year, and are all strong, healthy vines. Each 15c., doz. $1.25, 100 $5.00, 1,000 $40.00.

**ELDORADO.** Highly recommended by growers and experiment stations. Every bearing berry of large size, fruiting in numerous pendulous large clusters, with few thorns. Color black, flesh deep crimson, flavor sweet and distinct, rich quality. One of the finest. Each 10c., doz. 50c., $3.50, 1,000 $30.00.

**RATHBUN.** Large, an intense jet black. Very glossy, never turns red. Small seeds, extra fine quality, with a peculiar rich aroma. Yields abundantly and ripens early. Forms a compact bush ripens to five feet high. Has few thorns. Each 10c., doz. 75c., $4.50, 1,000 $40.00.

**WALDRON.** Big glossy black, rich, sweet, tender and melting. Average yield 200 bushels per acre. Canes very hard. Canes 4 to 6 feet high. A grand, profitable variety. Each 10c., doz. 75c., $4.00, 1,000 $35.00.

**BLOWER'S FAVORITE.** Luscious large fruit, very rich quality. Height of bushes 4 feet. 2,985 berries on one bush. Record per acre, $1.00. Best 10c., 25c., $2.00.

**PRIMOS DEWBERRY.** (New). Ten days earlier than Lucretia. Uniformly large, glossy black, finest quality, sweet and of unequalled excellence. Cannot be praised too highly. Quality and size uniform. Each 10c., doz. 50c., $3.50, 1,000 $35.00.

**RASPBERRIES.** Our Money Making Varieties. Strong Transplanted Stock.

(If by mail add 10c. per doz. or 40c. per 100.)

**KING'S HAYMAKER.** This valuable new raspberry is certainly the greatest acquisition of years in raspberries of its class. From actual figures Haymaker returned a set profit of over $600.00 per acre last year. One grower could not get more from it. The fruit is not so dark as Cardinal or Shaffer, and much larger and firmer than either of those varieties, never crumbles and stands up well in shipping. It is a berry well worth for either home use or market. Recommended by experiment stations and leading Horticultural Societies everywhere. It certainly is a leader. Our stock is genuine. Each 15c., doz. 75c., $3.50, 1,000 $35.00.

**MOORE'S RUBY.** Pronounced by thousands to be the best red berry to grow. Color a beautiful bright red. Ripens with the earliest and continues picking a long season. Exceedingly firm and of a great flavor. Cost $1.50 for 25c. per quart. It stands the cold better than any other. It has been grown commercially for 8 years and to-day stands at the head of all other early berries for long distance shipping and profit. Each 15c., doz. 75c., $4.00.

**NEW BRILLIANT.** The berries are large and beautifully brilliant. It ripens high, the entire crop early and all at once, while the price is the highest. It carries its brilliancy to market and is the first picked. A great market variety. Every grower should have it. Each 15c., doz. $1.00, 100 $4.00, 1,000 $35.00.

**GOLDEN QUEEN.** The most profitable yellow berry grown. Doz. 75c., $1.00.

**THE NEW CARDINAL.** This wonderful large red variety will grow ten feet high and bear in proportion. It is the wonder of the century, and artfully makes a very good profit. A fine quality, and rather hardy. A great market merit. Each 10c., 3 for 35c., doz. 75c., $3.50.

**EARHART NEW EVERBEARING.** (Ranere.) Actually bears continuously from June 1st until killed by frost in September. The canes are literally covered with fruit in all stages from bloom to ripe fruit. Creates the greatest surprise when shown at fairs and horticultural societies. Has no equal as an ever-bearing variety. A great novelty and a very valuable addition. Each 10c., doz. $1.00, 1,000 $35.00.

**DAVIS' CUMBERLAND.** In hardiness and productiveness it is unexcelled by any other variety. In size the fruit is simply enormous, far surpassing any other sort. The berries run seven-eighths and fill the extent of an inch in diameter, and are of such handsome appearance that their fruit sold for 10c. per quart, when other varieties were selling for 5c. to 7c. per quart, cash figures give it a record of $23.00 per acre. Despite of its unusual size, the fruit is possessed of its great firmness and is thus well adapted for standing long shipments. It follows Palmer and Schwieg and produces Gregg a short time, making it a mid-season variety. The blush is exceedingly healthy and vigorous, throwing up stout stock canes, well adapted for supporting their load of large berries. It is also shown itself remarkable for the amount of its family, anthera.ean. Large growers report yields of two and three times as much per acre as Ohio King under similar conditions. Each 15c., doz. 75c., $3.50, 1,000 $35.00.
HIGH GRADE STRAWBERRY PLANTS

If wanted by mail, add 10c. per doz. and 50c per 100.

WHEN TO ORDER—Order early by all means, while the plants are in a dormant condition, before they commence to grow in the spring; they will ship better, stand more neglect and rough usage and will start off better when set out. Allow time enough to grow the plants, so that if we are crowded and you should have to wait a day or two, it will not inconvenience you. The best plan is to order a week or two ahead, and state the day you wish them shipped. Another advantage in ordering early is that our stock is complete and you are sure of getting all your order filled.

GUARANTEE—We guarantee our plants true to name, well-rooted and from new beds that have never fruited; if they prove not to be so, we will replace them free of charge. While we do not claim to raise better plants than anyone else on earth, we do claim that we raise them better than some, and as good as the others.

Moore's Earliest of All Strawberries

The most valuable production of the age. The most wonderful and remarkable large berry ever introduced. Absolutely the earliest large strawberry in existence. Immense size, prodigious yield, delicious flavor. Plant strong, luxuriant and healthy. Flavors bi-sexual.

Has Produced 16,000 Quarts to the Acre

Every market gardener who plants it largely is insured handsome profits. On account of its beauty and extreme earliness it always commands the very highest market price. Its delicate flavor is due to its hardiness; the buds form late in the fall, and remain unaffected by the winter cold or early spring frosts—a remarkable thing. The finest strawberries are produced before the leaves in the spring, and are not affected by any frost during the winter, no matter how severe. This valuable variety does remarkably well on poor, thin land, while on heavy soil the yield is simply prodigious. In our vicinity they usually commence bearing about May 5th to 8th, and continue producing large, beautiful berries of delicious flavor long after all early sorts are exhausted. The plant is a strong grower, with dark green foliage and nearly rust-proof, extraordinarily productive even in light soil; the fruit is borne on long stems of large size and of a most brilliant scarlet color. The flavor is slightly tart, but very good; a grand berry for the private garden or market and the finest of its kind for dessert fruit. It is especially adapted for long distance shipping and we especially recommend it to southern growers. Every berry pure, north, south, east or west, should plant it. Prices for 1913: Doz. 30c., 100 $1.00, 500 $4.00, 1,000 $7.50. Add 10c. per doz. if to go by mail. Special prices will be quoted on lots of 5,000 and upwards.

Warfield Prize

(Bi-sexual; early to late)

Regarded by the great strawberry growers as the best variety for general use, either for the family or for market. In the New York market it commands a higher price than any other, owing to its uniform size, delicate flavor and handsome appearance. In a two-acre plot of it we could not find a malformed berry; every one was perfect and as even in size and form as if turned out of a mould. It ripens uniformly, not a green tip is ever to be found on it; the color when ripe is a glossy crimson scarlet. It is medium in size, juicy and solid to the centre and of a delightful flavor; in fact, this is one of its most charming merits and is the cause of its being in demand by the finest hotels and private families in New York since the fruit was first sold there. It is an all-season berry, ripening early and bearing late, perfecting its fruit to the last berry as perfectly as the first one. It is an abundant bearer, yielding as much per plant as the most prolific, and on account of its prolonged fruiting is more valuable than those which perfect their crop in a shorter period. After a close study of it for the past two years, we are convinced that it has no rival as a good all around strawberry for the family or market—one that is certain to give satisfaction. Doz. 40c., 100 $1.25, 500 $4.00, 1,000 $7.50.

BEST IN 22 YEARS

FRED. MARO, P. O. Box 301, Washington, writes: Your Boston Mammoth White Plum Celery is the best I have grown during the past twenty-two years.

TWO WEEKS EARLIER

PAUL ESS, Adamsville, N. J., writes: Your Moore's King of the Early Tomatoes were two weeks earlier than the Earliana.

Kentucky Wonder

(Bi-sexual; Mid-season to late)

A tall, luxuriant grower, with large, dark green foliage, free from rust or disease, very prolific, enduring extremes of heat or cold. It will grow on any soil the same as the Crescent. The fruit is produced in great abundance on tall, stout stems which stand up from 6 to 8 inches the entire season, holding its load of berries from the ground so they do not get dirty, rotten or scalded. It is beautiful in color, being of a dark, glossy red, which alone will make it an ornament for any table. They are so beautiful in appearance that the moment they are put on the market they will sell for the highest price. The flavor is delicious, one of the sweetest of strawberries, it can be called the honey strawberry, while its fine aromatic flavor, resembling that of the wild strawberry, makes it one of the most delicious of berries. Doz. 30c., 100 $1.00, 500 $5.00, 1,000 $8.00.

Mixed, Large-Fruited Hybridized Strawberry Seed

We herewith offer a remarkable opportunity to our customers to procure the best new and novel varieties of the best American and European varieties of strawberries. Our mixture includes all the best large-fruited, white, red and purple ever-bearing also the finest early and spring bearing sorts of the highest merit, which will insure the planter the most satisfactory results possible. Many valuable new varieties will result from planting our hybridized seed. From seed sown in April or May, we have in the following year picked large quantities of delicious fruit, not merely in the strawberry season, but as late as the third week in October. Occasionally the plants bloom the first year from seed and invariably so if sown early enough in the greenhouse or hotbed. The customer with a garden or farm should miss this fine opportunity for obtaining valuable new varieties of strawberries. Pkt. 10c., 3 for 25c., 1/2 oz. $1.25.
Some Splendid New Strawberries

We are greatly pleased to offer our customers some new strawberries of real merit, an improvement over many kinds being offered by other dealers and growers. We find it pays to grow only those kinds which give big returns and good results. You must grow good varieties to succeed. It is absolutely necessary to do it or you fail, no matter how good your ground or how much care you give your plants. The plants we offer are the best varieties which can be obtained. We try almost all kinds. We have to do it to find out which are the valuable ones and then offer those only that prove valuable, thus protecting our customers from a long list of varieties, half of which are absolutely worthless and a waste of time and money to plant. The varieties we offer have made our customers money. If you will let us do it we can furnish you plants that will make money for you and give you results that will open your eyes. Are you willing? It costs no more to plant our good reliable plants that you can bank on than others, besides, you then have the assurance of success.

If Strawberry Plants are desired by mail, add for postage 10c. to the dozen price, and 50c. to the 100 price.

THE GRAND STRAWBERRY
“BIG VICTOR”
(Mid-season to Late—Perfect Flowering)

Although the Big Victor has only recently been offered to the public, yet it is already world famous from the superlatively flattery reports in the horticultural press from the experiment stations and from strawberry critics to whom a few plants were given for trial. It has been thoroughly tested in many parts of the country and has given universal satisfaction for shipping and home market, as well as for the family garden. The berries of the Big Victor are magnificently and of immense size—very firm, solid and shapely for a large berry, its color is a rich, heart-shaped, without neck; occasionally fruits will be found shaped as if two berries were joined together. Flesh red to the core, of delightful aroma, rich, juicy and luscious. The seeds are uniformly all over, no white blotches nor green tips, and its large green calyx greatly adds to the attractiveness of the fruit. In productivity it is truly marvelled, both in size and quantity. The splendid large berries are borne on stiff, strong stems, ripening in succession for a long period, from mid-season until the very latest, holding up its size to the last and every berry coming to maturity. The plants of Big Victor are remarkably vigorous, healthy and hardy, throwing out strong runners. The foliage is the largest and thickest, entirely free from scald or blemish. Price, doz. 50c., $1.50 per 100, $10.00 per 1,000.

Pine Apple. (Perfect.) This makes the third season we have offered this valuable new strawberry and have as yet failed to hear a single complaint. If you have not yet planted it send your order at once. It has a rich pine apple flavor. Think of it! Strawberries, Pine Apples—could there be a more luscious combination of flavors? It is within itself a three-fold pleasure, viz., to look upon, to smell and to eat. A vigorous grower. Berries large size, round and well shaped, beautiful crimson color, about same firmness of the Big Victor. A perfect bloomer and an abundant bearer, valuable alike for both home garden and market. Its great beauty and delectable pine apple flavor makes it a variety that commands a higher price on the market than the ordinary strawberry. We have fine plants of Pine Apple and we will send only fresh dug ones so you will surely succeed. We hope we may have an order from each and every person receiving our catalogue for Pine Apple plants, for it will be an advertisement for us that will do us good. In view of this, we are offering them at a very low price for a variety so valuable. Price, doz. 50c., $1.25 per 100, $5.00 per 1,000.

Corsican. (Perfect.) A distinct new variety of value for market and home garden. The fruit is dark crimson color, rich and delicious flavor, large size and quite firm. The foliage is perfectly healthy, making it a plant that will protect the fruit from sun and rain. It is a good grower, making the right number of plants and an enormous yield of the finest, largest berries imaginable. Gardeners will be perfectly pleased with this great berry. Corsican is a wonderful berry. It is a great pleasure and very profitable to haul the largest berries that go to market. That kind always sells and at the very top price. Corsican is not only big; it is a beautiful color, a great yielder, a good foliage to resist disease and drought and even weeds and neglect, but such a variety as Corsican should not be neglected if possible. Do you want big berries? Then plant Corsican. Price, doz. 50c., $1.25 per 100, $5.00 per 1,000.

Marie. One of our largest berry growers writes us that our Marie Strawberry is “beyond doubt the most prolific and profitable berry in existence today. In yield we will put it up against any new or old variety. In point of beauty and general appearance when placed on sale, it has no equal.” It was grown from seed of Crescent, fertilized with Cumberland. As a seedling it showed great promise. We planted for field culture as soon as sufficient number of plants were obtained and as yet have failed to detect any weak points in either fruit or plant of this grand variety. The plants are a good grower, making plenty of runners for a good crop and show no signs of disease. The blossom is imperfect; season same as Balch and Haverland; besides it is the most a bulb-like, attractive in appearance when picked and ready for market of any in our entire collection. The berries are round as a ball, dark crimson in color; flesh dark and quality first-class, holding up in size to the very last picking. Price, doz. 50c., $1.00 per 100, $5.00 per 1,000.
GOOD THINGS FOR THE POULTRY KEEPER

NEW CHINESE WINTER EGG BEET

Belgian Poultry Beet

Thrives on any soil and anywhere in the United States, and is the most valuable winter egg producing poultry food known. It is especially valuable for feeding chickens that are confined to small enclosures and to such it should be fed the year round. The culture is the same as for ordinary field or table beets. Both the roots and tops are eaten with great relish by all chickens the whole year round. It will be found a wonderful egg producer the year round as well as the cheapest and most valuable winter food. It will enable you to cut your grain runs in one-half. Four pounds will plant an acre. The roots can be preserved during winter same as turnips or potatoes. Culture same as for garden beets and the yield per acre may easily exceed 1,000 bushels. The flesh is a pale golden yellow and it is the most productive and most nutritious of all beets. It is likewise an excellent sort for the kitchen gardener to plant in the same time as field corn. It is not only a wonderful egg producer and flesh former, but it is a wonderful health promoter as well. Pkt. 5c., oz. 10c., 1 lb. 30c., 1 lb. $1.00.

WATERPROOF PAPER FLOWER POTS

Here we offer Waterproof Paper Pots made from water proof fabrics. They are very light, durable, unbreakable, cheap, and of terra-cotta color, and are more economical than clay pots and just as practical for most purposes, and for some purposes are better than clay pots. Just the pots for growing small plants and seedlings. Florists, nurserymen, strawberry growers and plant shippers have been using our waterproof pots for many years. They cannot break and are very durable.

DIAMOND STEEL GLASS CUTTERS

An Indispensable little tool which every Florist and Market Gardener with glass should have.

In these glass cutters we are offering a more durable and convenient tool than any other now on the market. Every wheel is carefully tested and is hardened and ground by special process. Preferred by many to genuine diamond for cutting glass.

No. 10.—Rosewood Finish Handle, Turret Head, containing six cutters.

No. 20.—Peggy-Mine, polishing and nickel plated, Turret Head, with six cutters, each 50c., by mail postpaid.

THE MARKET GARDENER'S PERFECT PLOW

This is the verdict of thousands of gardeners and farmers who use it, and say they would not part with it for twenty times its cost if they could not get a similar one. It is the variety of attachments which can be used, fitting it for the cultivation of all crops, makes it indispensable to the progressive gardener. It is for feeding bees, for taking out celery, carrots, beets, salisf, parsnips, etc., by simply removing the mold board.

Price, 50c.

Description of Attachments

Fig. 4, in cut, is a Dixon sweep, for splitting out middles. Specially adapted for light work. Price, 50c.

Fig. 5, in cut, is a corn and vegetable scraper or weeder, which can be used alone or with any of the single moldboards on plow. It does excellent work. Price, 60c.

Fig. 6, in cut, is our double moldboard and point, is used for opening furrows and hilling up, and can be attached to the standard by removing the point and moulding. Used for working drills to plant potatoes, corn, etc.; for ditching, ridging, plowing out between rows; as it throws the earth both ways, doing the duty of two single mold plows. It also is good for digging potatoes. Any practical farmer or gardener will quickly see the immense value of this attachment. Price, $2.25.

Fig. 7, in cut, is our free-lisn, two or three board point. Very popular. Price, 50c.

Fig. 8, in cut, is our potato digging attachment. Very effective for the purpose. Price, 50c.

Our truck, No. 1-A and No. 1-B (Figs. 1, 2, 3 and 4 in cut), together with an extra point and wrench suitable for all bolts in plow, are given to every purchaser of our No. 1 Plow, both Regular and Patent, free of charge.

Price 50c.}
Horse Radish and Coconaut Graters

Will grate from 10 to 15 pounds an hour of Horse Radish, Coconaut or similar substances. They are easily operated by one person, who turns the crank with one hand and holds the handle with the other, against the revolving cylinder. The grated material falls into the drawer, shown in the cut. We furnish the machines with two kinds of cylinders, the cheaper being covered with heavy perforated tin; the better has a wooden cylinder studded with steel pins.

**PRICES**

Box Pattern Grater, with tin-clad cylinder..........................$7.00
Steel-pin ".........................................................8.00
Mounted Grater, with treble, etc., steel-pin cylinder...........12.50
Excelsior Pattern, steel teeth....................................6.50

Asparagus Bunchers

1906 Acme. Makes bunches 4 to 5 in. long..........................$1.75
1907 Acme. Makes bunches 5 to 6½ in. long........................2.00
1909 Acme. Makes bunches 6 to 8 in. long........................2.50

**Perfection Buncher**

Makes a Perfectly Round and Tight Bunch and Very Neat in Appearance

The length and size of bunch and the distance between the jaws can be easily regulated by means of thumb screws. The circles can also be made larger or smaller at the will of the operator.

All growers of asparagus who used the "Perfection Buncher" the past season pronounce it the most complete and efficient one ever put on the market.

Price, $4.00.

Asparagus Tape

Cherry red color, waterproof, for tying asparagus in bunches. When put up with this tape the asparagus will bring fully 20 per cent. more in price. 1000-yard spool $2.25 each, 5 spools $10.75.

Asparagus Knife

Each 25c., doz. $2.50.

**Garden Line Reels**

Single, heavily galvanized........................................$1.50
Double " (see cut)............................................2.00

**ACME** Pulverizing Harrow, Clod Crusher and Leveler

A Harrow that should be on every farm. Lowest priced riding harrow manufactured. Lightest in draft, most easily handled.

The price on galvanized include painting. If galvanized are to be shipped by freight or express, please add 5c. per yard for packing charges.

**Hot Bed Sash**

Made of the best wood, 3 in. thick, sash 8 ft. in. wide by 6 ft. long. Plain, unplated, each, $1.40; galvanized, each, $2.50.

**Excelsior Hot Bed and Cold Frame Mats**

To Protect Plants from Frost in Winter and Spring

**“Burlap” Mats.** Best quality, size A, 40 x 6 inches, $1.25 each, $12.50 per doz.; best quality, size B, 70 x 70 inches, $1.90 each, $19.00 per doz.

**“Waterproof Duck” Mats.** These are filled with cotton and wool waste and quilted the same as the “Burlap” mats described above. The "waterproofed duck" cotton cloth on one side sheds water and prevents them from getting "soaked" through. Best quality, size C, 40 x 70 inches, $1.50 each, $15.00 per doz.; size D, 70 x 76 inches, $2.60 each, $25.00 per doz.

**The Eureka Garden and Hot Bed Seed Drill**

**You’ve Wanted It a Thousand Times**

Works better and faster than hand work. It opens the furrow, drops the seed and covers. Have you a hot bed? It is the only machine suited to sow in a hot bed. Sows up close to the sides in straight rows. Sows the smallest packet of seeds as well as a large bulk. By using this drill you save seed, you save time, you stand in an upright position, the work is easy, you get better plants. Price is only $1.00. Delivered by express, $1.50.

**Dibbles**

For transplanting Cabbage, Lettuce, Celery, etc. Cast Iron 35c.; Wrought Iron 50c.; Light Brass 50c.

OUR
TOMATO SEEDS
are the BEST in the World.
Buy from Headquarters.

The Moore Seed Co.,
SEED GROWERS AND IMPORTERS,
125 Market St.,

We thank you for giving us such good seed this season as your Big Boston Lettuce was certainly fine. Thanking you for past favors, we are Yours truly,
F. G. BLAKE & SON,
Arkport, N. Y.
Your Celeries Beat the World

Gentlemen:

Your Moore's California Mammoth Solid Golden Self Blanching and
Moore's Giant White Arezzo Celery BEATS THE
WORLD. They are pure and sell well.

THOMAS LONGWORTH,
Kalamazoo, Mich.

I have been growing your Italian Giant Early
Serehead Cauliflower for three seasons, and it is the only sort
that succeeds well here. It brings the best price too.

T. L. McDonough,
Parrish,
Fla.

I have been in the trucking business for twenty-two years and I
find your Moore's Dutch Butter Lettuce the best
any market gardener can grow. No one can make a mistake
growing Moore's Dutch Lettuce. I am

THE PHILO SYSTEM BOOK. The Philo System is unlike all other ways of keeping poultry and in many respects is just the reverse, accomplishing things in poultry work that have always been considered impossible, and getting unheard-of results that are hard to believe without seeing. The new System covers all branches of the work necessary for success, from selecting the breeders to marketing the product. It tells how to get eggs that will hatch, how to hatch nearly every egg, and how to raise nearly all the chicks hatched. It gives complete plans in detail how to make everything necessary to run the business. How to raise two-pound broilers in eight weeks, feed to produce eggs at a cost of ten cents a dozen or less; how to prevent chicks from dying in the shell; how to make green food at a cost of 15 cents a bushel; how to make a new brooder for 25c to 50c that will save two cents or more on the cost of raising each chicken. This new book gives full, easy-to-understand directions that are right to the point. Full right to make the patented coops and appliances given with each book.
**$1 Philo System Book Free**

This coupon will be accepted as full payment for one copy of the Philo System Book when sent with an order for poultry supplies, eggs or pure-bred poultry, to

125 Market St. and 114 Church St.

Science is teaching that it is as essential to

**Protect Plant Life**

from the insect pests and the various fungi with which it is afflicted as it is to properly fertilize it.

Its importance to successful cultivation is becoming more and more evident as we learn more about the growth and habits of vegetation.

The products recommended in this pamphlet have the endorsement of leading commercial and private growers, and are generally recognized as standard remedies for the control of insects and plant diseases.

SEEDS AND BULBS

Insecticides, Fertilizers, Implements

125 Market St.

PHILADELPHIA, PA.
SCALINE is an oil and sulphur composition—three in one, a scalicide, insecticide, and fungicide combined, composed of a high grade of petroleum, and the properties of the well known fungicide, Fungine. (See last page.)

It is a most efficient winter spraying material for San Jose and other scale. Use one part Scaline to twenty parts water.

As a summer spray for trees, shrubs and hardy plants it is an effective remedy against green, black and white fly, red spider, thrips, wooly aphis, cottony maple scale, tulip scale, mealy bug, and all soft scale. Use one part Scaline to fifty parts water.

The sulphur contained in Scaline makes it an excellent preventive against various fungi at all seasons of the year.

Scaline will rid your evergreens and shrubs of the red spider pest, which has done so much havoc to them recently.

For summer spraying, Scaline is recognized as a marked improvement over the old-fashioned kerosene emulsion; more effective and more economical. It mixes readily with water, contains no sediment, and can be applied with the finest spray nozzle.

Quart, 75c.; gallon, $1.50; 10 gallons, $10.00; barrel (50 gallons), $37.50.
is a concentrated liquid spraying material, readily soluble in water, used at various strengths, according to directions on cans.

Aphine is equally effective in the house and garden; free from disagreeable odors of most insecticides, and practical for professional and amateur growers.

It is effective against green, black and white fly (all aphis), red spider, thrips, mealy bug, soft scale, rose, cabbage and currant slugs, and all soft bodied insects. It can be applied to the tenderest foliage, flowers, fruits and vegetables.

Aphine will keep your plants (sweet pea vines, rose bushes, etc., etc.) in the garden free from insects.

Aphine is used by prominent growers as a wash for decorative stock, also to dip cuttings in before planting; and by amateurs for house plants.

Quart, $1.00; gallon, $2.50.
**Fungine**

is a concentrated sulphur composition, used as a spraying material, readily soluble in water, containing no sediment, and, unlike Bordeaux mixture, and lime and sulphur, does not stain the foliage, but cleanses it.

It is an infallible remedy for mildew, rust, wilt and other blights affecting flowers, fruits and vegetables, and is used with much success by leading growers on young stock as a preventive against various blights; also for bench fungi.

One gallon makes 50 gallons spraying material.

Quart, 75c; gallon, $2.00; 10 gallon keg, $15.00.

The beneficial effect of sulphur to plant life is no longer regarded by scientists as a theory, but a fact.

**Vermine**

is a soil sterilizer and vermicide. Destroys cut, wire, eel and grub worms, maggots, root lice and ants. Used one part to four hundred parts water, thoroughly soaking the ground, it will protect your crops, lawns, tennis courts and golf links against the ravages under the soil.

Quart, $1.00; gallon, $3.00; 5 gallon keg, $12.50.
You Must Spray to Save Your Trees, Fruits and Crops

"AUTO-SPRAY" No. 1

A self-operating or automatic sprayer

A practical machine for spraying potatoes, tobacco, small fruits, vineyards, greenhouses, poultry houses, etc. Also excellent for whitewashing and disinfecting buildings, etc.

"Auto-Spray" No. 1 is the strongest, most useful and most generally used of all spray pumps. It will do all that any spray pump can do, and in most cases it will do the work quicker and better. It has superseded the bucket and knapsack method of spraying, which requires constant pumping, and is positively and absolutely guaranteed against all defect. Tested before leaving the factory.

No work to operate the "Auto-Spray." The user simply holds the nozzle after compressing the air in a few strokes of plunger. Nearly 200,000 of these sprayers are now being used with extreme satisfaction.

We recommend the brass tanks as costing but little more than galvanized, and it is practically indestructible.

When desired, we furnish brass extension pipes in two-foot lengths for spraying trees. The usual equipment for work is three lengths, and the price is given below. With every "Auto-Spray" is supplied FREE OF CHARGE the most complete and up-to-date sprayer calendar ever issued.

Capacity about 4 gallons.

The spray being carried by the shoulder strap leaves both hands of the person operating nothing to do but direct the spray.

By the action of the "Auto-Pop" a doggerel is passed through the nozzle of the "Auto-17-" Pop is closed, hence the nozzle is automatically cleaned every time it is opened.

Leggett's Champion Dry-Powder Duster

Distributes Paris Green, Hellebore, Sulphur, Dry Bordeaux Mixture, etc. Dispenses with both labor and hurry of usual methods. This implement has proved itself "Champion," being far ahead of any other machine in its capacity to distribute a uniform and almost imperceptible quantity of Paris Green, Or, Bordeaux Mixture. With this machine one can do a season's work without getting the foliage when used properly. The dry method is rapidly superseding liquid sprays. Will do as much work in a day as a horse-power sprayer. Will green two rows of potatoes at once as fast as a man walks. Adjustable to any width of row. Anyone can use it. Will not get out of order. Designed, compacted, with 2 straps and can be used by anyone in quality, without complaint. It is built to last for years.

Price, $5.00

Twenty Gallon Barrel Sprayer

A one-man affair. Pump with one hand and guide wheels, with rod with the other. 100 pounds pressure. Price, $16.00.

"Auto-Spray" No. 3-B

For white-washing and general spraying of large orchards this sprayer is more powerful than our No. 1 Auto-Spray, and is suitable for both large and small work. The reservoir is made of heavy galvanized iron and holds 8 gallons of mixture. The cover is reinforced and so designed that the pump may be instantly removed, thus exposing all working parts. The pump is made entirely of heavy brass. There is an agitator which is operated by the handle, and which keeps the solution thoroughly mixed. All valves are easily cleaned—the plunger is simple and effective and easily adjusted to take up all wear. This pump is fitted with 8 feet of three-ply discharge hose, stop cock, and (two 4 feet lengths of extension hose. It is perfectly practical and convenient for spraying large trees or white-washing and painting large factories as well as poultry houses and other buildings, and will be found very satisfactory. Price, "Auto-Spray" No. 3-B, Complete with 8 feet of Hose, Extension Pipe, Stop Cock and Nozzle and Universal Self-cleaning Nozzle, $12.00.

For Vineyards, Truck Gardens, Nurseries, Potatoes, Tobacco and Cotton Fields, Orchards, Poultry Houses, etc. Tank conveys to fit the housetop. All brass pump. The most durable, practical and satisfactory. Knapsack Sprayer ever made. Will spray all manner of liquids. Our No. 8 machine consists of a copper tank, 3 gals., 36 inches, 6 gallons, and a pump made entirely of brass, which cannot corrode or rust. There is a large chamber placed inside the tank, which has sufficient capacity to keep up the pressure and save energy. Can be charged by the sprayer for the operation stop spraying. By removing five brass screws on top of tank the pump can be lifted out. Lower valve is screwed to bottom of cylinder, hence no trouble or expense to reach valve. Tank having rounded ends is stronger and less liable to leak. Pump has no stuffing box. No. 3 Copper, complete with Automatic Churchman Duster, $10.00. No. 4 Galvanized Steel Tank, complete, $8.50.
CONKEY’S DISTEMPER REMEDY. There are many complications that may occur with this disease, such as Pneumonia, Bronchitis, Inflammation of the Brain and of the Spinal Cord, and Paralysis, usually of the hind quarters. As a precautionary measure, CONKEY’S DISTEMPER REMEDY is 50c., or 55c., postpaid.

DISTEMPER IN CATS. Distemper in cats should receive the same treatment as for dogs, reducing the dose to 1/2 amount, however.

CONKEY’S MANGE REMEDY. CONKEY’S MANGE REMEDY is guaranteed to please in cases of Mange on either dogs or cats, and is an excellent remedy for Eczema, Canker, Sore Ears, Ringworm, and all forms of parasitic skin diseases. Price, 50c., or 55c., postpaid.

CONKEY’S WORM DROPS. Price, 50c., or 55c. postpaid.

YOU CAN MAKE POULTRY RAISING PAY BIG PROFITS

IF YOU USE OUR

Simplicity Combined Hot-Water Hatcher and Brooder

GOING TO HATCH SOME CHICKENS?

Hatch them in this simple convenient and modern way. No need of a lot of hens to begin with; no need of waiting for hens to set. When you are ready, fill the muffine with eggs, set it in operation, and lo, within a few weeks, you’ll find the machine teeming with life—filled with little, lively, healthy chicks, a sight that gladdens the heart of the beginner and experienced alike.

The Simplicity is a wonderful hatcher. It will hatch 100 per cent, right along. The majority of the hatchings run nearer 90 per cent. Some hatchings are better than 90 per cent. Some operators who have set hens and the Simplicity from the same lot of eggs report that the Simplicity hatched even a larger percent. Of strange, healthy chicks than the hens.

Simplicity hatched chicks have wonderful vitality. Stronger chicks could not be hatched either naturally or artificially. They come clean from the shell, are full size, are very healthly and grow rapidly from the first. All the strength that’s in the egg is fully developed in the chick. Simplicity operators have no trouble raising the chicks after they are hatched. They have the strength to carry them through and the vitality that develops strong, staryyed stock.

The machine is fully set up and ready for operation upon getting it to your home. Unwrap the thermometer and place it in the holder; fill the water jacket with warm water, light the lamp. In a short time the temperature is up to the hatching heat. Adjust the regulator according to the directions and you are ready to commence a hatch that simply cannot fail to be a grand success if your eggs are right and you use ordinary care in handling the machine.

A book of brief, simple and to the point directions is furnished with each machine, which not only tells you how to successfully operate the machine, but what and how to feed and take care of the young chicks from the minute they are hatched until they are old enough to take care of themselves.

You will appreciate the convenience of the machine; the lid at the top which enables you to most easily get at the eggs, the wire screen to turn them; the position of the thermometer and the glass in the lid, which gives the best light on the thermometer; the heating system, the excellent insulation and the many features which make this the most ideal 50 and 100-Egg Hatcher ever put on the market.

If you are operating the Simplicity for the first time, you will be delighted with the results and surprised at the ease with which it is done. If you are "out at the business" you too, will be highly pleased. You will be favorably impressed with the quick and easy regulation, the depth and uniformity of the heat, the just right conditions as to moisture, etc.

The circular shape of the machine is a great advantage, or corners in the brooder for the little chicks to crowd into. No brooder could be safer than the Simplicity.

Fancy prices for small early broilers—Then, too, there is such an excellent opportunity for such a purchase as this to go a step further than the mere supplying of their own tables. The prices that are paid for broilers are exorbitant. The hatched chicks are on the market and next to phenominal. The fashionable hotels and cafes and wealthy families are eager for these toothsome fair and the prices they pay are of minor consideration to them. But to get these on the market at the proper time, you must hatch them artificially. You cannot wait until the hatching machines set. That puts your chickens on the market too late for the fancy prices.

There are thousands of families living in barracks and cities and many, many families using the SIMPLICITY BIRD TONIC, who can with a Simplicity, engage in a periodical and profitable industry of their own on the rear of their own lot, thereby raising the stock in price. It is no cost by providing their tables with this most delicious of all meats and plenty of eggs with a tang of freshness that the average family without chickens knows very little about. Think of the savings from thousands of tables being careless thrown away when they could be converted into this delightful meat, worth twice the price of the eggs. The following are the low prices for this most excellent hot-water hatcher and brooder.

50-Egg Galvanized Iron Hot-Water Tank $7.50
50-Egg Heavy Rolled Copper Hot-Water Tank 8.50
100-Egg Heavy Rolled Copper Hot-Water Tank 12.60

We will be glad to mail you a special descriptive circular upon request.
